New Daycare In Northeast Portland!

Providing care for multiple ages

We are excited to welcome you to the new Carmen Parrish Walker Day Care Center at 4236 NE 8th Avenue. The center is named in honor of a legendary educator from Portland Public Schools and dedicated member of Allen Temple CME Church. The Carmen Parrish Walker Day Care Center is a centered based childcare and pre-school serving children early ages of 9 months and after school ages up to 11 years old.

We have created a loving, nurturing, safe and stimulating environment for all children. We are in compliance with all the guidelines and rules according to the Oregon Department of Human Services/ Oregon Department of Education Early Learning Division Office of

Allen temple church. New daycare will be held at the church

Child Care. We accept employment related day care (ERDC). Health and safety is our top priority. Following all CDC guidelines. Our mission is implementing

the latest effective teaching practices to promote positive learning outcomes for child development. Hours of operation Monday thru Friday 8:00 AM - 6:00 PM.

Youth Manufacturing Day Showcase

Career Opportunities For Hillsboro Students

Portland Community College's Willow Creek Opportunity Center (241 SW Edgeway Drive) ignited the spark of curiosity and ambition in about 60 high school students from Washington County on Feb. 28. In collaboration with the Hillsboro School District and the Washington County Chamber of Commerce, the center hosted an immersive Youth Manufacturing Day aimed at shedding light on the diverse pathways within the manufacturing industry.

Attendees embarked on a whirlwind tour through six interactive stations, each offering a glimpse into the exciting world of manufacturing. From donning bunny suits at the gowning station to delving into the cutting-edge realm of virtual reality, students had the opportunity to engage firsthand with various aspects of manufacturing technology. In addition, representatives were on hand to discuss job and employment opportunities at their companies, including Jireh Semiconductors, Qorvo, Align Precision and Twist Bioscience, to name a few.

"PCC and local industry partners have a shared goal to raise awareness of manufacturing and semiconductor jobs with career growth potential," said DaNene Dwyer, program manager with

the Willow Creek Opportunity Center. "At Youth Manufacturing Day, high school students were able to explore opportunities in an industry they might not have considered before."

In its second year, the event aims to not only showcase PCC's array of manufacturing-related programs but also to inspire the next generation of industry leaders. By offering a hands-on experience and highlighting the practical applications of bioscience, microelectronics, and more, organizers hope to spark enthusiasm and encourage students to pursue educational pathways that align with their interests and aspirations.
