Com-try produce sold at the quotations of the pre-ceding day. In growing and morchandles lines, and champes are seen and to changes were reported. The local wheat market was quiet yesterday

The local wheat market was quiet yesterday, and values were the same as have been quoted for a week. For Walls Walls, sie per bushet was the very top price quoted. Valley was worth from 3500754c per cental, Al Chicago, at the opening the wheat market looked for about two minutes as if it might rule firm for the day, but it quickly faced shout and became weak. May wheat opened with buyers at 535c, and some sales at the same time at 355c. Be-fore 45, minutes of the section had gone it was and some sales at the same time at 57%c. Be-fure 45 minutes of the session had gone it was down to 52%c. The weakness was the outcome of the increase in receipts at primary markets this week, leading to the belief that the previ-cuts fulling off of the market was the result of the severs weather, and not of any scarelity of wheat. Increasing primary market receipts, and the guite moderate export clearances, were bluewine matters of discouragement. Brad-street's statement of weekly clearances of wheat and floor from beth caust showed a total theat and flour from both coasts showed a to When and Boar from both coasts showed a total of 5,572,000 bushels this work, of which 1,105, 500 work from the Parifs side. The Western primary markets received a total of 3,275,000 hushels, against 294,600 on the similar day of hast year. Export clearances from the Atlantia makeard for the 24 hours, when and four in-grither, were 55,000 bushels. The feature of the trading way to freedom of the adjing Loop ading was the freedom of the selling. Long wheat came out first in large lots, and that er uraged the ecolping crowd to add their offe couraged the scaping crowd to and their offer-ings, thus swolling thet quantity for sais to an extent which caused a further break to 52%. The latter price was touched about 10 minutes from the close, and was virtually unrecovered, the latent frading being at 52%. February closed at 45%. San Prancisco reported: "Busi-ness was quiet, while prices did not hold up as ness was quiet, while prices fild not hold up a firmly as expected, the tendency being agains willers. Operations at the New York Stock Exchange were resumed yearchay with a market for se-curities, the receipt of higher cables from Lor-don Laving strengthened union. The referenced

The retirement of the Benedict faction from the Chicago Light In the persons factors from the through Light & Cole Company a directory and the election of the Lincoln-Duane party in the interact of the Sunnikard Oil led to a rise in Chicago Gas cer-tificates. American Sugar was advanced on the introduction of the Abbrien resolution in the senare Friday in the matter of sugar farility. The rise in prices at the start was equal to 1.0 a per cent, but this was subsequently lost or to a break in New Jersey Central and Lead ing to a break in New Jersey Central and Lead. New Jersey Central dropped from 8% to 83%, and the latter to 27%.
