### THE SUNDAY OREGONIAN, PORTLAND, JANUARY 14, 1900.

# CITY NEWS IN BRIEF

CORDRAT'S THEATER (Washington street)

RISE IN BULL RUN .- A very unusual Risk in Buill RUN.-A very unusual sight in Portland is any sediment, or even a murky tinge in the water supply, such as was notlocable a little while yesterday. This was due to an unprecedented rise in the waters of Bull Run river, owing to the warm chinook wind that has provalled for the past is hours. An immense quanin the waters of Bull Run river, owing to the warm chinook wind that has provalled for the past 48 hours. An immense quan-tity of snow has been melted in the moun-tains constituting the watershed of Bull Run, causing the water at the headworks to rise higher than it has ever been known to do since the construction of the water system. Large quantities of drift have been running, which was handled with difficulty. But even the rise alone does not account for the muddy appearance of the water, for the channel of Bull Run is so splendidly adapted to the source of a city's water supply that rises have not heretofore raised any sediment. It is pre-sumed that there was a small landshide somewhere along the banks above the headworks, which soon washed away, as yesterday morning the water at the head of the pipeline was again perfectly clear. yesterday morning the water at the head of the pipeline was again perfectly clear. Sandy river rose to a very great height night before last from the same causas affecting Bull Run, and the wooden coun-ty bridge across the former stream just below the steel bridge supporting the pipe line was in great danger of being carried

away. Disorderaty Rough-John P. Watson, alias "Scrapiron Watson" was sent to the city jall yesterday by Judge Hennessy for 100 days. He spends considerable of his time in the city jall, the police say, as he has a strong penchant for insuiting women on the street when he gets drunk. Friday night he was drunk and disorderly, near the corner of First and Oak, and Officer Bulgar remonstrated with him, telling him he had better behave himself and go home to bed. This advice made telling him he had better behave himself and go home to bed. This advice made Watson all the more cantakerous, and he struck the officer, knocking him down. Bulger, however, hung to his man, and, although less powerful than the burly Watson, he landed him at the station after a severe struggle. Watson, how-ever, did not curb his tongue, but gave the antire police department a piece of his mind, and threatened to have the whole outfit fired bodily next June, as he faiters himself that be has a considerable number of votes at his command.

BARGES TRANSPORTING LUMBER,-Three of the 1500-ton barges built by Hale & Kern in Portland in 1598 are now engaged in transporting lumber to San Francisco from Portland and Puget sound. The fourth, which was recently resurrected from the hed of the Lower Columbia, is now undergoing repairs at the boneyard. now undergoing repairs at the boneyard, below town. The original owners have bought her back from the insurance com-pany, which raised her, and she will be put in commission in the Gray's harbor jetty work, when again in trim. The barges make very satisfactory lumber ves-sels, as they carry from 1,000,000 to 1,203,-000 foct each at a load. There is little or no marine risk attached to that method of transportation: and they can be towed of transportation; and they can be towed from port to port with light expense.

from port to port with light expense. THEFTS AT THE LIBRARI.—An overcoal and an umbrella were stolen yesterday at the Portland library, and an overcoal and an umbrella were also stolen the day before. The library officials have been troubled very much of late by people missing umbrellas, but the thievery has never gone so far as overcoals until last. Friday. The librarians have been watch-Friday. The librarians have been watch-ing the people who enter the building, but have not noticed any suspicious charac-Friday. have not noticed any suspanse were stolen ters. The rack the articles were stolen from is directly in front of the office, where one or more women are constantly in attendance. A while back umbrella racks were placed in each alcove and in the periodical room, but most of the peo-ple still leave their umbrelias in the main

rack. PERFARING SCHOOL REPORT.—A special meeting of the board of education has been called for 3 P. M. Monday, January 51. This will be the last meeting prior to the annual meeting of the taxpayers, which is held that same evening. At the meeting of the board Chairman Strow-bolders will exbed to full report for the bridge will submit a full report for the past year, from which the board makes up its estimates of money required for the present year. Ordinarily, three or four oetings are necessary for the board to

PERMANENT EXHIBIT .- Only part of the committees appointed to solicit funds for a permanent exhibit of Oregon products has been able to do any work in that line during the past week. One of the princi-pal workers, H. E. Dosch, was compelled to de jury duty all the week, and another, W H Gelodstoff was runched with burd. W. H. Grindstaff, was rushed with busi-ness that could not be deferred. J. F. Batchelder and some other members of nationsher and some other memory of the committee managed to get out part of the time, and met with a very encour-aging reception. They secured several subscriptions and the promise of several more, and as soon as it is possible, they

more, and as soon as it is possible, they intend to make a fresh start and finish up the interrupted good work. Mms. PORTER, of the Pacific Employ-ment Office, is now matron of the Home for Unemployed at 305½ Third strat, will be pleased to have all orders sent there. Oregon 'phone, red 1581; Columbia, 170. • Encourses and compaissours so to Rich-EPICURES and connoisseurs go to Richards' restaurant, Sixth and Alder, for the best in fine liquors and delicacles served up in latest Deimonico style. Elegant pri-vate dining parlors.

Mr. Warde Closed a Very Successful THE ART DEPARTMENT of the Woman's Club will meet the first and third Mon-days, at 2 P. M., with Mrs. R. M. Bing-ham, Mount Tabor. Sunnyside cars to Hunter's station.

TANPAYERS' annual school meeting will be held in high school building Monday ovening, January 15, 1900. Special school tax to be voted.

DR. GEORGE H. CHANCE has returned from California, and will be found in his office in the Dekum building Monday and thereafter.

HORSES.-Several head large draft and driving horses. Call at 144 Sixth street north, near Union depot. HAMMOND & CHANCE (A. A. Hammond, Charles H. Chance), attorneys at law, Sumpter, Or.

WILL build house to suit. Sell on install-

ments, East or West Side. Dammeler, 246 Washington. MR. REGINALD L. HIDDEN, 442 Jefferson."

SEVEN DENTAL CHAIRS.

Said to Be the Largest Number in Operation in the Northwest.

One of the most recent illustrations what good advertising can do when com-bined with good service, may be found in the almost phenomenal growth of the New York Dental Parlors of this city. A few months ago they opened up neat, but small, offices at the corner of Morri-son and Fourth streets. Their announceson and Pound and very becoming the most ethical practitioners. Those who called upon them reported great care shown their dental infirmities. The efshown their dental infirmities. The ef-fect of this combination is best told by the results. After a few weeks, addi-tional offices were added on the Fourthtional onnees were anoted on the postin street side and as many more chairs put in. A dentist or two were brought out from the East, not men of mediocre abil-ity, but specialists in their calling. Busi-ness continued to grow, and the landlord was importuned for more room. Last week he caused a series of offices on the Morrison-street front to be vacated and turned them over to the New York Dental Parlors. Yesterday the alterations neces-sary were completed and three new dental sary were completed and into how how on all, the largest number of operators, at least busy operators, in any one office in Port-land. The laboratory has been enlarged to meet the requirements of the office, much new and costly machinery having how officed in the conter between the much new and costly machinery mixing been added. In the center between the two wings are the general reception-room, ladies' waiting-room, cashier's department and advertising offices. Bright carpets, chairs upholstered in red, brilliant cab-inets and brass railings combine to pro-duce a most showy effect. Merchants of inets and brass rallings combine to pro-duce a most showy effect. Merchants of whom fixtures and furniture were pur-chased speak in the highest terms of the business-like manner in which all trans-actions have been conducted. This policy has been popular and profitable, showing that the confidence of the managers of this new concern in Portiand people has not been misplaced, and they may now boast of the largest and best-equipped dental offices in the Northwest.

SOMETHING NEW.

Dental Insurance is the Proper Thing in the East. d of the American people today

Grand avenue, will be repaired in the early spring. The street needs repairing very badly as far as East Eighth street, but at present there is no disposition to make repairs for that distance. It is proposed to repair with lumber 4x5 inches, which is considered better than 4x12 inches on the large pieces with which the street or the large pieces with which the street was first improved. Planking 4x8 will contain the best part of the lumber. It contain the best part of the lumber. It is thought that the only expense to the repairs will be for the lumber and laying it. There will be no grading, and the bearings are in good condition. It has been demonstrated that the use of large timbers 5x5 and 6x6 inches is a great waste of material, as nearly half of the material becomes decayed before it is worn out. This is shown on the roadway on Grand avenue. Along this street the large timbers are found to be badly decayed underneath, while the top por-tion is not much worn.

## IN "RICHARD III."

Engagement.

Frederick Warde closed his engagement in Portland last night in one of his favor-ite characters, Richard III. The company was well cast, and was at its best. The play was staged with the historical accu-racy and attention to detail which char-The play was greeted with the usual packed house, and the audience was so appreciative as to gratify the most ambi-tious actor. Mr. Warde's engagement has been unusually successful, and he leaves Portland with the best wishes of all his old friends and those of many new ones.

taxpayers' meeting in the evening. PLACES WANTED FOR CHILDREN.-Among the children at the Boys' and Giris' Aid Society are two 14-year-old boys, for whom the management are anxious to find places in Portland. The superintendent says they are good boys, and would like to hear from merchanis or others who would be culture to merchanis or others them in willing to provide a home for them in return for services. There are also a few girls, who can be placed in families

who will school and clothe them; also, a very fine 2-year-old boy for legal adoption. For further information communicate with Superintendent Gardner, at the Home, or call up telephone east 5.

Home, or call up telephone enst a. TOYED WITH A BUZZ-SAW .- J. C. Hil-Hard, a Clatchanie sawmill hand, is at the Good Samaritan hospital as a result of a circular saw crashing through the bones of the right forearm. The surgeons, in operating on the arm, resorted to the bone-grafting process, and set in a piece of new bone five inches long to replace the piece taken away. Naturally, the arm is very sore, and there is as yet no assurance that amputation will not finally become necessary. When Hilliard met with the accident, he was stooping under an edger saw, trying to clear the sawdust away with a scoop shovel.

BUST SEASON AHBAD .- The Kiernan rock quarries, some 10 miles above Vancouver, are being prepared for a busy season, which it is expected will begin in the spring. About a dozen men are now em-ployed rigging up derricks and extending tramways, and when the weather settles for good, the force will be increased to 125 hands. There is work enough on hand for two years yet, as about 500,000 tons for two years yet, as about \$30,000 tons of rock have to be gotten out for the Gray's harbor jettles. Work on the jet-ties has been suspended for the winter on account of the heavy surf. Woux on Cuerom-House. The force en-gaged on the new custom-house has been reduced to 30 men, 15 of these being stone-cutters who are carring a granute belt.

utters, who are carving a granite belt in position on the second-story level. With the exception of this ploce of work, the granite cutting is all done. The iron structural work for the roof supports has not yet arrived from the East, though the fire-proof tiling is all on the ground. This latter has been manufactured in Portland, as well as the "book tiling" for the floors

OUR ILLUSTRATED SEED CATALOG for 1900 is larger and more complete than ever. We want to mall it free to every garden and farm in the Northwest. Send garden and farm in the store, corner us your name or call at the store, corner Front and Yamhili streets. Buell Lambergor

### A PROSPEROUS FLOUR MILL

The Washington County Mills, of Forest Grove, doing business under the firm name of the Washington Milling Company, Mr.

of the Washington Milling Company, all. C. C. Gaples, manager, have lately opened an office at No. 11 First street, for the purpose of handling their own products, thus doing away with middlemen. Their "Washington's Best" is a wellknown brand of flour, and considered one of the very best brands for family use on the market. This firm has something new in their mill in the way of a wheat drier, and say they dry all the wheat they grind. By doing this the flour is drier and livelier than it otherwise could be. They carry a stock of flour, mill feed, etc., and are prepared to fill orders promptly, and yould be pleased to meet all old customers as well as possible new ones.
