

Salisbury is Safe

Split in English Liberal Party Will Help Conservatives. PARLIAMENT MEETS TUESDAY

Strategy Described to Satisfy Sentiment—Goldwin Smith on Destruction of the Maine.

LONDON, Jan. 27.—Though criticism of the government and its methods of handling the war is unabated, it is safe to say that when parliament meets Tuesday next nothing serious will result.

Another cogent reason for prophesying that the session will be barren of changes affecting the balance of power is that the opposition apparently is hopelessly divided.

A curious exception to the general partition which prevails among the nobles of all classes occurred the other day.

According to a private letter from President William MacCormick, president of the Royal College of Surgeons, there is excessive ill feeling between the army medical officers in South Africa.

It appears they speculated heavily, especially in Rand, and when the slump came they were unable to meet their losses.

Sporting circles continue agitated lest Flying Fox should go out of the country. The man of the hour is flying.

Professor Goldwin Smith writes to the Speaker one of the most misleading letters which could possibly be put before the British public.

Frank L. Welles, also of the counsel for the protestants, presented the reasons why the committee should take further evidence in this case.

Ex-Senator Faulkner, in presenting the case of Senator Scott, said that it was admitted that the provisions of the constitution of the West Virginia legislature.

Crip Fatal to Cataract Victims

Pe-ru-na The Reliance of Millions of Sufferers From La Grippe and Catarrh.

Worse. At this juncture one of your descriptive pamphlets found its way to me and attracted my attention. "I had been a sufferer with chronic catarrh for about fifteen years, and the grippe aggravated it, causing a serious throat and lung complication."

"As soon as I read your book I thought Pe-ru-na was the thing I needed. I sent for three bottles, and though I had been practically helpless for about eleven weeks, less than two bottles of your medicine caused my voice to return and healed my throat and vocal organs."

"I feel that I owe my life to the wonderful curative powers of Pe-ru-na, and though my druggist never kept it before, he sells more of it now than any other kind of medicine he keeps."

"Before the first bottle of Pe-ru-na was gone, that feeling in my stomach had left me; also the catarrhal excretions began to grow less, which before was one continual hawk and spit; also the wheezing in my throat caused by the extension of the catarrh was stopped immediately. In fact, to make matters short, I continued with Pe-ru-na until it made a man of me."

"The year following I did the hardest year's work I ever did in my life. I have been exposed a good deal since, and have never taken the least cold. As a preventive remedy Pe-ru-na cannot be beaten in the whole range of medical science." Ask your druggist for a free Pe-ru-na almanac for the year 1900.
