

# Makes Hair Grow Rich and Heavy

One of the friends of Ayer's Hair Vigor recently sent us a charming photograph, from which we made the above illustration. While combing her hair one morning, her little girl stole quietly into the room and, hiding in her mother's massive hair, called out, "Mamma, where's the baby?"

If you are one of the unfortunates who has only a little knot of hair at the back of the head, such an incident must seem quite impossible. Yet it tells what Ayer's Hair Vigor has done for one person's hair, at least. And if it has done this for others, can you imagine any reason why it will not do the same for you?

Dr. J. C. Ayer discovered the true secret of a successful hair preparation over 50 years ago. Even then he announced, "If you want to make the hair grow well, you must feed it well."

# Ayer's Hair Vigor

"When I began to use Ayer's Hair Vigor my hair was falling out badly. After using it a short time the falling ceased and my hair began to grow rapidly. I enclose my photograph."

"About a year ago my hair was coming out very fast. I bought a bottle of Ayer's Hair Vigor to stop this. It not only stopped the falling, but made the hair grow very rapidly, until now my hair is 45 inches in length and very thick. I send you one of my photographs, which shows just what your Hair Vigor has done for me."

Nearly every woman neglects her hair. To be sure, she combs it often enough, but she doesn't give it any special attention. As a result, the hair suffers for food, gets weaker and weaker, and gradually the old color fades away. Then comes gray hair, white hair, the telltale sign of old age! Why not feed your hair and correct all this? Why not use Ayer's Hair Vigor? From first to last it is a genuine Hair Food.
