It is not necessary to harp on the fact that in Portland roladsters are not only numerous, but speedy. A few years ago there was a gentleman's driving associa-tion, which held enjoyable meetings at priverside Driving Park. On the way to Eliversida, speeding was a common sport. The matural question arises is, why there is no Hitle Interest now being manifested in harmess randing and driving. It is only

and it is a lesson that was needed. Horseener, keep your builevards and speedways clear of encroachments! You have now combined to fight the railways, have now combined to night the railways, and it rests on your shoulders to develop Portland's speedways. All that is neces-sary is concerted action along the libes hold flows at the last meeting of the Driv-ing Association. The horse and his owner should be recognized by a sultable drive-way, and the preservation of the Elver-side drive is the first casenilal.
