Case of Olsen Against the City Dismissed-Edward Flannigan Sentenced.

Deputy City Attorney Duniway gained a point yesterday in the auit of Willamette Steam Mills Lumbering & Manufacturing Company et al., resisting the assessment for the extension of North Sixteenth street. from Upshur to Front. The case was brought in the form of a petition for a review of the acts of the Common Council. Mr. Duniway argued that the proper proceeding was a suit in equity so the city can make a defense upon the merits of the controvery, and Judge Frazer so held. The disputed assessments aggregate several thousand dollars. The petitioners contend that the Council was without jurisdiction, and that the record falls to ow that notice was sent to the owners of the property sought to be appropriated, and some other irregularities. Mr. Dun-way says the owners of the property to be taken were not made parties to the petition. He argued that a suit in equity was the proper course, and the city could then make a defense; it could not interpose on a writ of review and show what has been done independent of the record. He desired to prove the facts and to establish that the petitioners did have notice. Judge Frazer, in deciding that a suit in equity should be brought instead of the writ of review, stated that ft was the intention of the law that such cases be tried on their merits and technical questions dis

That McCann Estate.

In the contempt proceedings in the matter of the estate of P. C. McCann, de-ceased, Judge Frazer yesterday directed John F. Logan, the administrator to file an answer stating the fact of his having turned over the property of the estate to O Day & Tarpley, attorneys for the al-leged heirs. The case, so for as it con-cerns Mr. Logan, will then be dismissed. The property amounts to about \$7600, and is principally cash. The motion of O'Day & Tarpley asking that the motion be dis missed requiring them to show cause why they should not be punished for contempt for not surrendering the property to the receiver appointed by Judge Cleland, was denied. O'Day & Tarpley were given 10 days to answer why they have not turned over the property. They have admitted its possession, and a future order by Judge Frazer will probably dispose of this part of the controversy.

County Judge Cake ordered the McCann estate distributed to James McCann, Kate Wood and Anna McDonough, residing in Pennsylvania, whom he held were the legal heira. John F. Logan, administrator of the estate, then surrendered the property to O'Day & Tarpley, who appeared as at-torneys for these heirs. Chester V. Dolph. representing the State of Oregon, filed escheat proceedings disputing the title of these alleged heirs. Judge Cleland set aside the order of the County Court and appointed a receiver, and ordered the property placed in the receiver's hands, pending the final disposition of the escheat case. This was not done, and the con-tempt proceedings followed. W. W. Cot-ton and W. D. Fenten appeared as counsel for O'Day & Tarpley, and argued num-erous objections to the surrender of the property to the receiver, among them that McCann belrs had not been served with summons in the escheat case, and that O'Day & Tarpley were not parties at the time the receiver was appointed Mr. Cotton said the McCann heirs were entitled to their day in court, and had not had it. Mr. Dolph explained that the citation had been regularly published.

COMING OF SILVER BULLION Intentions of the Treasury Depart-

ment.

NEW YORK, March 3.-A special to the Herald from Washington says:

It is the intention of the Treasury Department as soon as the pending financial bill becomes a law, to expedite as fast as possible the colnage of the silver bullion purchased under the Sherman act, still remaining in the Treasury. There is still on hand bullion purchased under this act, costing \$78,000,505, and represented by that amount of Treasury notes outtsanding. The De-partment has been coining this bullion into dollars at the rate of \$1,800,000 a month The financial bill authorizes the coinage of enough of this buillon into subsidiary coins to bring the total subsidiary coin age up to \$100,000,000. This will require about \$25,000,000 in subsidiary coins. In sociation to this, the Department pro-coses to increase the coinage of silver iollars to \$1,000,000 a month, and the ef-ect will be to have all the addition to this, the Department fect will be to have all this bullion coine and all Treasury notes retired within year and a half.

The resolutions against trusts were adopted 244 to 64, with an amendment urging gress to take immediate action against the paper trusts. Even in distant Italy the charms of a fragrant cup of tea have made themselves felt, and Italian society now chais over the tea cups and delights over the dainty accessories of the cosy and refreshing little meal with much the same catisfaction as we do.
