

COMMERCIAL AND FINANCIAL NEWS

Another week of fine weather has permitted farm work to go ahead with a rush, and the first of April will find the season three or four weeks ahead of last year. With so much work on the farms it is not natural that there should be some shrinkage in the volume of business to the country. The farmers have no time to go to the stores to trade, and in the wheat districts farm work combined with the unsatisfactory price of the product, resulted in a rather tame wheat market. The demand continued light, and some of the buyers seem disposed to force matters. There is continued weakness in the potato market, and the bulk of the sales that were made during the week were at 50 cents per bushel, with an occasional fancy lot selling 10 cents higher, and some ordinary stock as low as 40 cents per bushel.

San Francisco is not taking so many Oregon potatoes as she was a short time ago, and there is less call for shipments to the north. Receipts of oats have been very light during the week, and prices are firmer. Pork and wheat, which were showing decided weakness in the market, have recovered some of the loss in price, and are again selling freely. In butter, a determined effort to keep a few brands up to 50 cents, and a sharp decline in bringing in liberal quantities of California stock, which is selling at from 10 to 15 cents per roll under the best Oregon stock. Receipts of Oregon creamery are large, and the continued importation of the California butter will soon result in demoralizing the market. Eggs have held steady through the week, the variations in price being of minor importance. In single case lots, sales were still being made at 1 1/2 cents yesterday, but for round lots 1 1/2 cents was about all that could be secured. The country market is in very good shape, and at no time through the week was there enough chicken to meet the demand, and the figures speak approvingly of the record. Sheep and pig has commenced at a number of points, and the clip promises excellent, both as to quality and quantity. There has not been very much buying, but in any event it seems probable that they will be sufficiently attractive to make business. There were a few sales of hogs during the week, at prices varying from 9 1/2 to 7 1/2 cents per lb. In the East, the movement continues moderate, in spite of light stocks.

WHEAT—The arrival of three ships during the week just closed failed to infuse much life into the local wheat market. Indicating that the wants of exporters had been pretty well met, the market has been some buying on a limited scale throughout the week, but the amount in the aggregate was small, and the price held steady. The market was somewhat as usual had nothing in common with the price of wheat in the foreign market. Sales of Walla Walla were made very freely, and at prices ranging from 50 to 75 cents per bushel. In the East, the movement continues moderate, in spite of light stocks.

Deny the Plague Stories. SAN FRANCISCO, March 24.—The Board of Trade and other commercial organizations of this city propose to call a meeting for the purpose of refuting sensational reports regarding the bubonic plague, which it is asserted have industrially affected business interests. There is no plague scare here, and despite the opinion expressed by the Board of Health, the statement is positively made that not a single case of that disease has been discovered in China town. The Chinese quarter is not under quarantine, but is being thoroughly cleaned and placed in good sanitary condition as a precautionary measure.
