THE RECORD BROAD JUMP

MADE BY SYRACUSE MAN AT PHIL-ADELPHIA YESTERDAY.

Exceeded Former Record by Three Inches-University of Pennsylvania's Greatest Carnival.

PHILADELPHIA, April 28 .- One world's record was shattered and the world's figures for another record were equalled to-day on Franklin Field during the sixth arnual relay races under the auspices of the University of Pennsylvania. The new world's record was made by M. Prinstein, the mervelous jumper of Syracuse University, who jumped 24 feet 7½ inches in the broad jump. The former record was held by A. C. Kraenzlein, of Pennsylvania, at 24 feet 4% inches. The 100-yard-dash fig-ures of 9 4-6 seconds were equalled by A. J. Duffy, of Georgetown University, who

holds the American championship. Today's relay race carnival proved to be the greatest the University of Pennsylvathe greatest the University of Fennsylva-nia has held since its inception, six years ago. The weather was clear and warm; the track good and exceptionally fast. All the events were warmly contested, and the largest crowd that has ever gathered on Franklin Field to see relay races was present. Over 160 of the large colleges, academies and urenaratory schools in the academies and preparatory schools in the East were represented in the various events, and over 450 athletes were entered

In the broad jump there were only two contestants—Prinstein and Kraenziein. The latter, who holds the world's records for the 120-yard and 220-yard hurdle races, has been ill for some time, and had to give up training until a few days ago. He only jumped twice, and the best he could do was 23 feet 2½ inches; Prinstein took three leaps, breaking Kraenzlein's record on the the result was announced.

Duffy, the Georgetown sprinter, ran a strong race in the 100-yard dash, as is proved by his equalling the world's record. He led all the way, while his com-rade from Georgetown, E. C. Minnehan, kept second position from the start to the

The one-mile relay college champto was looked forward to with the greatest Chicago University in a magnificent struggle. It was the best relay race of the day, and the time made was only I second slower than the world's record, which stands at 3:22 3-5.

Princeton had no trouble in winning the two-mile relay college championship from Pennsylvania. Columbia, the other com-petitor, was never in it after the start. Princeton's time was five seconds faster than any two-mile relay race ever run on Franklin Field.

The field events did not bring out any-thing startling. Sheldon, formerly of Yale, won the shot put and discus events; Boynton, of Cornell, captured the hammer throw; Baxter, of Pennsylvania, the high jump, and Coleman, of Princeton, the pole

FRAUDULENT USE OF MAILS Charge Made Against a San Fran ciscan, Who Was Arrested.

BAN FRANCISCO, April 28.—John Barstow, alias James Buckner, alias James B. Blair, alias Robert Deuprey, was arrested today on a charge of using the mails for fraudulent purposes. The man gave his name as James Buckner, but operated his various schemes under different aliases, His schemes, though not entirely new, had some rather novel features. He posed as the Oneida Oil Company, incorporated for \$250,000, with offices in this city. He had a contract with a clipping bureau to furnish him all death notices that occurred in California, Oregon, Washington and Pacific Coast states, except places within 75 miles of San except places within 75 miles of San Francisco. Some weeks after the death of an adult male Barstow or Buckner of an adult male Barstow or Buckner would send a notice to the address of the deceased, asking for the last payment on the stock of the Oneida Oil, which the deceased had purchased and paid for, except one payment. The notice was invariably accompanied by a letter, written on a printed letter-head of the mythical company, telling of the value of the stock, which was selling at par, with an upward tendency, and congratulating the lucky purchaser upon his most judicious investment. The balance the swindler asked for as still due on the valuable stock was usually small, \$\frac{1}{2}\$ a share, and amounting to from \$\frac{1}{2}\$ to \$\frac{1}{2}\$ to \$\frac{1}{2}\$ in each case. him gained the ascendency, and it was all Burns could do to get him pagt the grandstand. Further on he grew more stubborn, and ocfore the quarter was reached his jockey tired and brought him back. Meanwhile, Knight Bannert was showing the way in a pretty race. The showing the way in a pretty race. The Griffin colt was never headed, finally winter the amount asked for, under the belief that their deceased relative had secretly invested in oil stock. Judging from the replies, checks and money-orders in the letters found upon him by the authorities. Buckner had many victims. It is esti-mated that Buckner's receipts were from \$25 to \$40 a day.

Negro-Indian Lynched.

MARSHALL, Mo., April 28.—Mindee Chowagee, the negro-Indian who escaped from jall here on Thursday night, after assaulting Sheriff Joseph Wilson and his little son and shooting the Sheriff's wife in the arm when she came to their as-sistance, was lynched at 11:30 tonight by a

OTTAWA'S FIRE LOSS.

Seisage of Sympathy From the Queen-Aid Proffered.

OTTAWA, Ont., April 28.-Estimates on the damage wrought by Thursday's fire proved to be rather over than under the mark. A survey of the field gives the following results: Dead, seven; homeless, 15,000; buildings burned, 3000; hands out of 15,000; buildings burned, 3000; hands out of work, 50,000; value of property destroyed, \$15,000,000. At a mass meeting of citizens it was decided to instruct the City Councll to ask the Ontario Legislature leave to borrow \$100,000 by issuing d tures to aid sufferers from the fire. E. B. Eddy's entire insurance is placed at \$650,000, while his loss is about \$2,000,000 insurance is principally in American com

Fund to Be Opened in London.

Fund to Be Opened in London.

OTTAWA, Ont., April 28.—The following cable dispatches have been received by Lord Minto, the Governor-General, from Joseph Chamberlain:

"London.—Her Majesty has heard with deep regret of the great fire at Ottawa, and has commanded me to desire you to convey to the immediate sufferers and to her people in Canada an expression of heartfelt sympathy in the calamity which has been no loss of life, and would be glad to have any further particulars you can of light material would be put on the stone immediately, after which the whole would be thoroughly rolled and the sides scraped down. It is the opinion of some roadbuild-ers that a macadam road cannot be well packed if it is laid after the Winter rains. They contend that a fair surface rains. They contend that a fair surface can be put on it by heavy rolling, but the packing process does not go deep, nor is it thorough. For this reason the Driving Association, at its last meeting, viewed the prospects for a good drive on the White House road this season as very discouraging. The members even castabout to see if some other highway suitable for to have any further particulars you can

"London-I have received with the deep est concern your message reporting the disastrous fire at Ottawa. I am sure the people of the mother country will be glad to have an opportunity for contributing to the relief of the misery and destitution caused to their fellow subjects in Canada by this calamity, and I propose to ask the Lord Mayor to open a fund for this

CAUGHT FIRE AND BLEW UP.

Property Loss of \$4000, With No In surance-Work of 5000 Pounds

RITZVILLE, Wash., April 28.—The pow-der-house at Lind, six miles east of here, blew up at 5:30 this evening. The explo-sion shook every building for miles around, wrecked the freighthouse and depot, tore down telegraph poles, broke nearly every window-glass in town and destroyed a part of a drug-store stock.

The powder-house, which was near the depot, contained 5000 pounds of dynamite. The house caught fire, and when the fire reached the powder there was a shaking up such as this section never before experienced. Where once stood the powder-house is now nothing but a big hole in the ground. The property loss is not over \$4000, with no insurance.

Everett Seaman Killed in Boston

rather than consent to be sold as serfs with the land. There are thousands still living in the territory purchased from Mexico who were thus treated as serfs, and, as it is never too late to do right, would it not be advisable to start a little missionary work nearer home than the Philippines and advise these people that they owe it to their manhood to throw off the voke of the oppressor or die in the WRECKED BY EXPLOSION

the yoke of the oppressor or die in the Alaska offers an opportunitly for the same kind of missionary work. VERITAS VINCET.

BRYAN DEMOCRATS. Tammany and Other Leaders

for Their Opposition. NEW YORK, April 28.-The state committee of the Chicago platform Democracy held a meeting here last night and ratified the action of its convention committee in changing the time and place of holding its state convention from May In an address which the state commit-tee has issued under the caption, "Of Interest to Democrats of New York State," the committee says that it is the intention of the coming convention to select delegates to the National Conven-tion because the regular organization is controlled by men who do not represent the party, who did not support Bryan in 1896, and who are, in reality, antagonistic

to Democratic principles. Of these state leaders, the committee says:
"They do not say: 'We will send an instructed delegation, so there can be no question raised.' No, on the contrary, they say: 'It is not the custom to send an instructed delegation from this state,' and instructed delegation from this state," and Tammany Representatives in Congress and others prominent in this political circle come out in advocacy for Dewey and any kind of a platform, except the re-affirmation of the platform of 1896. We

think you will agree with us that these men cannot be trusted. "There would not be a particle of doubt of securing a Bryan delegation from New York if his opponents would meet us in a fair and manly way. They refuse to put up delegates openly pledged to any-thing, but it can be only for the purpose of deceiving the voters into voting for delegates supposed to be for the Chicago platform and Bryan, but who would turn out in the convention to be against him. Any delegates who refuse to be instructed to vote for Bryan do not intend to vote for him, and any delegate who is not pledged for Bryan is secretly pledged

NEW CONSTITUTION IN VIRGINIA. Agitation for It Said to Be Based on

Hostility to the Negro. NEW YORK, April 28.—A special to the Times from Richmond, Va., says: The question of calling a constitutional con-vention in Virginia, primarily for the disfranchisement of the negroes, has been practically settled so far as the Democrats are concerned. A majority of the delegates to the Democratic State Con-vention, which meets at Norfolk on wention, which meets at Norfolk on May 2, are instructed in favor of making the call for the convention a party issue. This matter is now the absorbing one in Virginia, and the demand for the disranchisement of the negroes and other constitutional reforms has entirely over-

constitutional reforms has entirely overshadowed the original purpose for which
the Norfolk meeting was called.

The constitution under which the people now live was adopted in 1869 by what
was known as the Underwood convention.
That body was composed of Northern
settlers and negroes. The white people
of Virginia, very many of whom were
then disfranchised, had little or no part
in formulating the organic law under
which they have lived since. There is an
overwhelming sentiment in the state in which they have lived since. There is an overwhelming sentiment in the state in favor of eliminating the colored vote from its politics forever. This can only be accomplished by constitutional revision. The elimination of the black vote is demanded not only from the great black belts of Virginia, but also by the white counties. Some of the largest and most influential of the latter elected delegations instructed to favor a convention. The keynote of this radical suffrage reform has been sounded by the declaraform has been sounded by the declara-tions of some of the great negro coun-ties. These, in effect, insist that the prespolitical conditions cannot contin in the Old Dominion. The plain explanation of these explanations is that the le are tired of the means which they we been forced to countenance in order to retain white supremacy in the state hey now demand that a constitutional onvention shall be assembled and the segrees removed from politics.

The elements opposing this movement

are the great corporations, the local of-fice-holders and the Republicans. Some of the Democrats, including Governor Tyler, have taken the position that their porty cannot carry the convention at the polls on Msy 28. They insist that the elements named, with the addition of the illiterate whites, will defeat it.

WILBUR, Or., April 28.—(To the Editor.)

—Is a player entitled to more than one queen in a game of chess? Or has he to be satisfied (after having advanced a pawn

the eighth rank) with the most valule piece he may have lost, presuming still retains his queen?
GEORGE W. SHORT. Every pawn advanced to the eighth rank

rings a queen. There is no limit to the

umber of queens.

Macadam Road Will Be Sprinkled.

Assurances are now given that the White House road, which has recently been coat-

ed with loose stone for a portion of the main drive, will be in good condition by

May 15. Contractor Howard, who has the

of the Driving Association's committee en looking after the matter, that screen

to see if some other highway suitable for a fine drive and convenient to the city could not be located. None was located,

and preparation for Spring work com-menced, conditioned on whether the Coun-ty Commissioners succeeded in finishing

up the White House road in time. Mr. Lohmire's interview with the contractor

is more reassuring, and subscriptions for the sprinkling, taken every year by the Driving Association, will be rushed.

bruised. The irresponsible scorcher, after viewing the trouble he had wrought, re-

ounted his wheel and sped away.

Velocity and Energy. Blackwood's Magazine. Blackwood's Magazine.

Velocity is measured by the number of feet traversed in a second. Thus a cricket ball hit hard travels about 100 feet per second, which is about the rate at which a carrier-pigeon files. A golf ball may start at 150 feet per second, an arrow at 250 feet, a pistol bullet at 750 feet, a rifle bullet at 1500 to 2000 feet, and so on. But the energy of the blow delivered by a projectile when instantaneously stopped in its flight is proportional not to the velocity, but to the velocity multiplied by itself or squared; so that, if the velocity be dou-bled, the energy is increased four-fold. But the energy is directly derived from the propellant, the pinch of villainous saltpetre. So that if we wish to double the velocity of a bullet, we must produce four times the energy, to obtain which we must increase the charge four-fold. And

we cannot have energy forward without energy backward, or recoil. If we take a pistol with 750 f. s. velocity, quadruple the charge and give our new weapon four times the length of barrel for the gases to expand in, we get a rifle with twice the velocity obtained by the pistol, or 1500 f. s.; but we also increase the recoil to such an extent that it a rifle was held like a pistol it would fly back into the face of the firer.

Senor Paterno Captured.

MANILA. April 28. - Major-General Lloyd Wheaton reports that Senor Pater-no, the former President of the so-called Pilipino Cabinet, was captured in the mountains near Trinidad, Province of Benguit, on April 25.
