Fine Planos. We are the big profit-killers of the piano business. We have demonstrated long ago that, owing to the peculiar advantages we possess we are able to furnish you a fine piano for a great deal less money than is asked for the same grade and quality elsewhere—and we are particularly able to do this just now.
We are Northwestern general wholesale agents for the three truly great American pianos—the Chickering (America's oldest and best), of Boston; the Weber, of New York; and the now famous Kimball of Chicago. Besides a complete assortment of these world-renowned makes, we carry also a large variety of such well-known and standard instruments as the Wheelock, the Whitney, the Hulse, the Singer, the Milton, Marshall, and many others. Remember that we are still located at 107 First street, and will remain at that location until our new building at the corner of Park and Washington streets, opposite Cordray's Theater, is ready for occupancy.
