King County Sends Two Sets of Delegates to Spokane.

STATE CONVENTION MUST DECIDE

Delegation Favorable to Governor Rogers' Faction of Party.

SEATTLE, Wash. May 12.—The Democracy of King County will send two contesting delegations to the state convention, to be haid at Spokane May 15. One will be for Les Hart for National dele-gate, the other for J. W. Godwin. Rocently ward primaries were held by the Democrats of the county, and dele-

TO LIMIT HOP SUPPLY

THAT'S THE WATCHWORD OF THE OREGON GROWERS NOW.

Meeting to Be Held in Salem Next Priday to Perfect a Plan for Regulating Hop Product.

SALEM, May 12-"Limit the Supply." is the watchword of hopgrowers at pres-ent. The agitation against "short huy-ers" and "middle-men" has about died ers' and 'middle-men' has about died out, and those who believe that organization will benefit the producers are grapping with the law of supply and demand. The officers of the Oregon Hopgrowers' Association, and William H. Egan, F. J. Holton and L. Krebs, a committee appointed for that purpose, by a meeting of hopgrowers at Brooks, are uniting in an effort to make a success of a hopgrowers' meeting, to be held in Salem, May B, at il o'clock. The object of the meeting is to perfect plans for regulating the quantity of hops produced during the present season.

A circular letter is being sent out to all the hopgrowers of the state, asking them to hold local meetings, and to choose delegates to attend the meeting at Balem. The letter contains a copy of resolutions.

Blanks have been prepared, and the growers will be asked from time to time to make detailed reports of the hop crop of their locality, the acreage this season and last, the number of bales produced last season and expected this year, and the general conditions of the growing crop. From these reports statistics will be compiled, and the actual condition of the hop crop of the state will be detar-

The efficers of the association have se-ceived from Sacramento, Cal., an account of a meeting of hopgrowers held at that place May 5. The meeting was called for the purpose of formulating a pian for the organization of an association that will regulate the production of hops by restricting the acreage, and to take gen-eral charge of the industry, not only in California, but in all the hop-producing states.

George Brewer, the originator of the plan, was present, and explained the ne-cessity for such a movement. The foilowing resolutions were adopted:

"Resolved, That it is the sense of the hopgrowers now assembled at Sacramenta, that an association be formed by the hopgrowers of California, to co-operate with the growers of other states, to the end that the hopgrowing industry may be fostered and improved.

CANCER Cannot be Cut Out or Removed with Plantons

Surgical operations and flesh destroying plasters are useless, painful and dangerous, and besides, never cure Cancer. No matter how often a cancerous sore is removed, another comes at or near the same point, and always in a worse form.

Does not this prove conclusively that Cancer is a blood disease, and that it is folly to attempt to cure this deep-seated, dangerous blood trouble by cutting or burning out the sore, which, after all, is only an outward sign of the disease—a place of exit for

To cure a blood disease like this you must cure the entire blood system—remove every trace of the poison. Nothing cures Cancer effectually and permanently but S. S. S.

or ordinary blood medicine can do this. S. S. S. goes down to the very roots of the disease, and forces out the deadly poison, allowing the sore to heal naturally and permanently. S. S. S. at the same time purifies the blood and builds up the general health.

A little pimple, a harmless looking wart or mole, a lump in the breast, a cut or bruise that refuses to heal under ordinary treatment, should all be looked upon with suspicion, as this is often the beginning of a bad form of cancer.
