THE SLY OLD GAME

Union Candidates Have Support of Mitchell Men:

EVADE STATING THEIR POSITION

They Mean to Fool Some One, and the Writer of This Letter Is Not the One to Be Fooled.

FOREST GROVE, Or., May 29 .-The main question with many of Bryan's followers at present is: Are there field? My object in writing this is not to change any one's vote, but to let the Mitchell Republicans know that while we were foolish enough to let them get control of our political machinery in the state, still there is a limit to our ignorance and that limit is reached. As to my own polltics. I have never voted a Republican er gold-standard Democratic ticket yet. Jefferson says, "Eternal vigilance is the price of liberty"; and I say, "Eternal poverty is the price of negligence." Yet, so sure was I that everything was all right in our state that when the first rumors of Mitchell's fine work raised a slight fog in our polisical sky, I thought nothing of it. When I had good evidence of it. I still doubted, and suspected that it was the work of McKinley Republicans who were trying to

We swallowed this with about the sume relish I swallowed my first chew of tobac-The sight of our leaders and Mitchell's political grass widows thick as three in a d was not reassuring to one who knows the effect of such association on a young party not yet the age of consent. We see o, that Union candidates up in the Valley, having been smoked out, openly avow their intention of voting for a Republicar as second choice for United States Senator. By using vigilance in Multnomah Coun-

ty the Cleveland Democrats were kept from capturing everything or amything, Later Mitchell gets in his work, and we now have a Union ticket there, composed of Democrats (Bryan, Cleveland and Mitchell varieties), Republicans (free-silver, gold-standard, Mitenell and various other species). Populists (middle-of-the road, straddle-of-the-road and some in the brush), all on one cicket,

Now, what is the object of this fusion of parties and confusion of principles? To beat the Simon-McKinley crowd? Very well; so far so good. That mixture would surely beat the devil, But who would win? What will it profit a party to gain a John H. Mitchell and lose all his prince-

actions that when a vote is cast for a United States Senator by a man of the opposite party, there is something crooked, Those two Populists of Illinois who voted for Palmer because he was a free-silver oun, ejected the one who afterwards headed the Gold Democratic ticket. Taubebut that was not the first instance, nor will the Republican votes of Montana that elected Clark be the last.

Now for our own county: That the Union candidates expect and have reason to expect the entire vote of the Mitchell men, is too well known to require proof. Why will they vote for them? Some of us who are not on the inside, men, too, whose standing in the party of Bryan is fully equal to the candidates on the Union tick-et, considering the above undisputed facts connection with the generally circulated but disputed rumor that our Legislative

managers say? No, on account of polley: that the party platform is sufficient; that to doubt them is to insult them, and we must trust them; that to tell openly which men who originated it were Simon-Scott Republicans, that it was done for money, What do they mean by policy? Honesty Why would it defeat them to tell openly where they stand? This is a confession

which their managers have assured each faction that they were the ones that were "in it." They mean to fool some one; that is, deceive them, get their vote under false pretenses, deprive them of the right to cast an intelligent ballot. What the wicked Republican party obtains by purchase we reformers hope to get by robbery. Of course it would be an insult for us fellows to doubt them after they have been honest enough to own they are going to sell out one side or the other. I wender if it would be an insult if the other side were to doubt them, too. Of course, in case of a sale, I know it has been cusomary for farmers to buy up politicians, and I suppose that in this deal the mo-

FORECAST OF THE ELECTION. Probabilities in the Several Counties -Favorable for Republicans.

Several more responses of politicians in the several countles to The Oregonian's request for estimates have been received. The large registration of voters has left a considerable margin of uncertainty and made most of the political managers heatnes about making predictions. Here is

Lake County.

LAKEVIEW, Or., May 29.—in compil-ance with your request 1 send you the estimate of the vote in Lake County, 25 follows: The registration shows 857 names, of which probably 850 or 880 will vote at the June election. There will probably be only Fusion and Republican tickets voted for stuty and district officers, of which the Republican candidates will have

160 and the Fusion 350 or 260. This being Daly's home, he will probably be about, 80 to 120 votes behind Tongue, although be is claiming a large

ority over Tongue. majority over Tongue.

Wolverton should have 10 majority, and Bailey, for Dairy and Pood Commissioner, probably 10 to 100 over his opponent. For Joint Senator, Williamson should beat Bennett 10 to 175. The Republican nominees for Joint Representatives when the layer 15 majority except Emmett. ould have 150 majority, except Emmett who will probably exceed that by 19 to 29. Watson, for District Attorney, should beat Ramnus (Fusion) about 100.

The Republican Clerk will have from 150 to 15 majority. The vote on Sheriff will be very close, with the chances in favor of Duniap (Republican). The vote on estioner and Treasurer will also be For School Superintendent, the ican, Willits, will be elected by a

od majority. For this county, the candidates for Sheriff are making the only hot fight, the Republican being supported by most of the Popullate and a terme following of

disaffected Democrats, while the Democratic nomines has many personal friends among the Republicans who will support him. There is no other tickets for county officers except Republican and Democratic Name of Democratic Na L. F. CONN.

An active Republican of Yambill County submits the fellowing estimates:
"Cariton, Or., June 1.—The number of voters registered in Yambill County is 3417. I estimate that the Republican votes of this county will be about 1700. That the votes of the Bryan party will be about 1800. The Perhibition your will be from 150. The Prohibition yote will be from 100 to 125. I do not think that there will be much scratching done by either party, excepting as to the candidates for Sheriff. The yete for Sheriff will be very close, but otherwise I am inclined to think the Republicans will elect their whole ricket."

Umntilla County.

PENDLETON, Or., June 1.-I find that there is no one that can give an intengent estimate of the result of the coming gent estimate of the result of the coming election. The large registration in this county has made all farecasts unreliable, and the canvass has been conducted go quietly that enthusiasm, for either side, is lacking. There are very many voters that will give no expression as to their preference for candidates, and, in some instances, for parties. I would therefore, prefer not to venture to predict the result.

Both Sides Claim Clackamas. OREGON CITY, Or., June 2.—Tonight closed the campaign in Clackamas County, and the county and Legislative candidates of the Republican and Citizens tickets each held final rallies here. Judge O'Day of Portland, was the principal speaker at the Citizens meeting. The campaign managers of both parties claim that each will win a complete victory on county candi-

Forecast for Yambill County. M'MINNVILLE. Or., June 2.-The eampaign of 1900 has been fought, and a glance over the field indicates that Yambill County will be safely Republican. Congressman Tongue, Judge Wolverton and Mr. Balley will receive pluralities ranging from 20 to 20, while the county ticket is safe for the Republicans, with the exception perhaps of Sheriff and Com-missioner, upon whom a special fight has been waged, and they, too, stand a good

MEDFORD, Or., June 2-Jackson County is safe for the Republicans. Conservative party leaders express all confidence in the election of the entire Re-publican ticket. The only candidate in doubt, Narregan, for County Judge, is now being conceded by many of the Union candidates' supporters.

Says Fusionists Will Carry Linn. LEBANON, Or., June 2.—Hon. M. A. Miller, who has been making a thorough canvase of Linn County, says the Union ticket will be elected next Monday by a large majorily. He also says that Dr. Daly will run considerably ahead of his ticket in the county.

> MUCH POLITICS AT MEDFORD. Prospect Favors Election of Mos of the Republicans.

MEDFORD, Or., June 2—People of all solitical creeds have througed the streets of Medford today. Populists were out in force to hear Hon. W. M. Howard, of Alabams, in the afternoon. In the even-ing J. B. Osborne, of Georgia, addressed Populists at the Open-House, while Gen-eral J. B. Weaver, of Iowa, favored the Democracy, which had taken possession of a large warehouse fitted up for the occasion. Republicans were in promi-ment evidence all day, and seemed to reap much good from the rally. Uncer-tainty exists regarding the prospects of two or three candidates, but most of the Republican ticket will be elected.

SALEM, Or., June 2.—The joint canvass of Marion County by the Republican and Fusion candidates for county and Legis.ative offices closed this evening with a mass meeting in Marion Square. About 1000 people were in attendance. The meet-ing was addressed by most of the candidates on both tickets. The arguments ad vanced were much the same as those used at the beginning of the campaign. A MISTAKE

The Pirst District has in Mr. Tongue an intelligent, in-dustrious and faithful repre-sentative. He understands the needs of the state, and the needs of the state, and has endeavored with unusual fidelity to promote all its interests. He has experience and capacity. He is the kind of Congressman who achieves results. He is sound on main questions. He voices the views and emissions. the views and sentiments of Oregon accurately in the Na-tion's councils. He wants the fing to fly forever in the Philippines. That is what the state wants. The alter-native to Tongue is Daly, who stands for financial inflation and National contrac-tion; who is a down-hauler of the flag; and who would misrepresent the true attitude of the state in its progress toward greater and higher things.
