Do Not Wart Monny.—Creditors of the Union Banking Company do not appear to need their money. For some time defunct institution, has been trying to get depositors to call and chim the last dividend recently declared. In some instances the amount due individuals approximates \$100. There are numerous claims of from 150 to 530. Assignee Hacheney has vaintly striven to induce depositors to take this last dividend, and unless the money is called for he will not know what to do with it. He must keep an account of everything received or paid out, and up to the present time has been to considerable expense advertising, which is not allowed as a charge against trust funds. Mr. Hacheney sincerely hopes that he will be relieved of these funds, and again urges all rightful owners to call.

PREPARE FOR WARE WEATHER.—Why sent to meet the union last oversity as meeting from his home.

PREPARE FOR WARM WEATHER - Why sunt from the heat in your kitchen from the warm weather which is at hand and warm weather which is at hand and will continue? This you can avoid by using a gas stove. If your home is not connected with our mains, take advantage of our liberal offer for this month only to extend a service pipe from our street mains to your basement free of charge, thus reducing the expense to the mere cost of the stove, which includes all connecting. Do not delay your order, as only a limited number can be installed each day. We guarantee the successful operaa initied number can be installed each day. We guarantee the successful opera-tion of every stove, and furnish thor-ough instructions to every purchaser. Portland Gas Company, 172 and 174 Fifth

Laborers Scarce.—John Scott, superintendent of construction at the Walla Walla Pentientiary, while in Portland yesterday stated that crops of that section of the country are excellent, but farmers and fruitgrowers are facing a serious problem to obtain help to care for them. So many men have left the Northwest in quest of gold in the far North or gone to war in the Philippines that laborers are very scarce. Mr. Scott says that Walla Walla farmers will make a strenuous effort to induce workingmen to come to that eecworkingmen to come to that sec-

PIANO PRICES THAT TALK.

With Heidinger's Big Stock, Rental Pinnes Coming in, and Big Shipments in Transit, We Must Make Quick Work in Selling.

This is the season of the year when rental planos come in thick and fast, and this, coupled with the fact that we have just bought out the large plano house of G. A. Heidinger & Co. and together with our large stock of Knabe. Hardman, Ludwig. Fischer and Schmer planos, which we control, we have planos galore. We are going to sell a lot of planos right away. We will sell a lot of second-hand planos, and new ones, too, at "prices that talk." The Heidinger assortment includes the well-known "Steck." "Krakauer," and the "Sterling," and all we want is a chance to show these planos and the prices we will quote will do the work.

## Special Exhibition of Fine Pianos

A Display That Would Create a Furore in the Largest Music Centers.

Eilers Piano House, in Their New Store, at 351 Washington, Is Opened With the Very Finest Display of Chickering and Weber and Kimball Pianos Ever Seen in Portland.

Chickering and Weber and Kimball Pianes Ever Seen in Portland.

Excepting a few finishing touches here and there, our new store is ready for business, and we herewith extend to our many friends and the public generally a cordial invitation to visit the most attractive and best appointed store devoted to the sale of pianes and organs in the entire West.

We propose to make this store the recognized headquarters of Fortland's musical interests. Perfect satisfaction in every instance has been the watchword that has built up the phenomenal trade enjoyed by Eliers Plano House in the past, and this principle will be rigidly adhered to in every transaction, great or small, by Eliers Plano House in the new store.

We are better equipped than ser before to furnish the very finest planes and organs to retail buyers at lowest possible prices, and on most favorable terms of payment. This we propose to demonstrate in a most substantial manner in our special exhibition sale of fine planes, which commences tomorrow morning. This sale includes the very choicest creations of the three leading American plano-makers, and you will find here now the very finest and costilest planes ever offered for sale in the West.

We wish to call special attention to the new styles made by Weber. The elder Weber was a genius in the realm of tone production, and it has often been said that the tone quality which Stradivarius bestowed upon the violin Weber imparted to his plano-forte, and this wonderful tone quality and the marvelous durability for which the Weber plano has so long been distinguished have never been excelled or even approached by other plano-makers. New and chaste designs in all the varigities of beautiful and expensive woods are now shown in our warearoom—not simply one or two planes, but dozens of them—we ship them in carload lots, and, handling them in large quantities, we are able to quote prices considerably below the regular-established Weber retail figures, 500. 1576 and 1850.

And a few words about the Chickering—the grand

world.

We have here now the most exquisite productions of this time-honored factory—the new small Chickering upright, with lis most wonderfully pure and rich and powerful tone qualities, and the large cabinet grand Chickering upright; such sweetness and power, such exquisite tone coloring and shading is found only in Chickering pianos. You have here 20-odd of these costly instruments to choose from.

And in Kimbali pianos we are showing the finest assortment ever displayed in the West. The new Kimbali styles are simply superb, in every detail of construction and tone quality. The famous world's fair exhibition styles in cases of fancy oak and beautiful dark rosewood deserve special mention. Another design is an exact reproduction of the Kimbali as exhibited at the Omaha expanition last year, where if carried off the gold medal in competition with many leading makes. These we show in cases of beautifully dappled English wainst and fancy San Domingo mahogany—they are beauties. In addition to these we have the wonderful Crown piano, the instrument with the many tones, which imitates a dozen different instruments perfectly, and the Angelus Orchestral, a beautiful little instrument, that can be rolled in front of any piano and which automatically piays the choicest music with the most perfect expression, and absolutely correct, as to tempo, playing as well—yes, even better, than the most accomplished planist could. Don't fail to see and hear it. Ellers Piano House, Portland's high-grade planostore, in our new Music Building, 351 Washington street from.
And in Kimball planes we are showing
