POINTS TO REMEMBER

Before you invest in a suit make it a POINT to look into the little POINTS of "MOYER" QUALITY CLOTHES.

Remember they're a POINT ahead of others in style, making and durability, and a POINT behind in price. A combination of dash, style, fit and finish are POINTS that have built up our clothing business.

Note the distinguished hang of a "Moyer" coat, examine the inside and outside tailoring, look at the beautiful finish of the fabrics, compare the prices with others and you'll see the POINT.

We want to tell you today of the many good POINTS in our

\$15 BLUE SERGE SUITS

All sorts of serges are sold in all sorts of stores, and even experts can't always tell the good from the bad—but it comes out in the wear.

Last year we sold hundreds of Blue Serge Suits. We told you to bring them back if anything went wrong—not one showed up—must have given satisfaction. We're selling them this year with the same request—bring them back if not right. Good way to buy clothes. Our \$15 Blue Serge is of either a medium wide wale or close-woven; absolutely fast color. Coat round cut or double-breasted style, and splendidly tailored all through.

OTHERS AT \$12, AND UP TO \$20.

A word about our immense showing of Straw Hats at from 75c to \$3. We don't know how we came to leave them till last, for they are important enough to "go on ahead with the band," which they generally do. Even a drowning man would catch at one of these "straws," and it would save him—about 20 per cent on hatters' prices.

WHEN YOU SEE IT IN OUR AD. IT'S SO.

Dunlop Tires Are Hand Made

Most pneumatic tires are made by forming rubber (mixed with quantities of sulphur or similar substance) around a lining of cotton cloth and then curing the rubber portion of the tire by subjecting the whole tire, cotton and all, to the heat of a vulcanizer. It cures the rubber all right, but it kills the cotton.

The Dunlop Tire is not made that way. By our "hand-made" process we preserve the cotton in all its original strength and elasticity, producing a comfortable and resilient tire, and not a dead and flabby one.
