

INTER-AMERICAN SPORTS

AMERICAN AND BRITISH CRACKS COMPETED IN ENGLAND.

Men From This Side Won Eight Out of Twelve Events in Which They Competed.

LONDON, July 7.—The American athletes won eight out of 12 amateur events for the championship of Great Britain. The Amateur Athletic Association championship games were held at Stamford Bridge, and as the Americans competed in only 12 of the events, they won all but four of the contests in which they took part. Such a record is without parallel. More especially is it noticeable when it is remembered that they opposed the best amateurs, not only from England, Ireland and Scotland, but the colonies as well.

The New York Athletic Club got the lion's share, taking the weight-lifting, hammer-throwing, pole vaulting and four-mile runs. Pennsylvania was second, winning the high jump, the hurdles and the long jump. Georgetown University won the 100-yard dash. Princeton University secured second place in the 100-yard dash and the high jump, while Chicago University secured the same place in the quarter-mile run, and Pennsylvania added to this record by winning a second place in the pole vault. Syracuse University failed to put in an appearance, both her men not arriving in time to enable them to participate in the events.

If a few American crack athletes had not been prevented either from running entirely, or been so out of form, owing to the climate, probably every event would have been won by the American team. Kraenzlein had hard work in the long jump. P. O'Connor, the Irish-American, was a close second, with 22 feet 4 inches and 2 feet 1 1/2 inches, respectively.

The final of the half-mile run was very exciting. Princeton's captain, Cregan, carried the lead, but was overtaken by the greatest excitement, Tyson, the holder of the championship, gradually overhauled him and matched victory from America in comparatively poor time, which Cregan showed had beaten it, if he had been in anything like his usual form, but like the majority of theblers, he seemed to have staid by his extended stay in England.

Kraenzlein had hard work in the long jump. P. O'Connor, the Irish-American, was a close second, with 22 feet 4 inches and 2 feet 1 1/2 inches, respectively.

Races at Alexandria.

LONDON, July 7.—At the Alexandria races today American jockeys captured all the races. The judges' handicap of 1000 sovereigns for horses which have been placed first, second or third in a certain number of races was won by the American, Dennis Hogan, without difficulty, although the latter's record is over 48 out of 50.

"Silver Certificates."

LONDON, July 6.—(To the Editor.)—This morning I received your order, and was glad to hear that the University of Pennsylvania, and Riley, of Boston, entered this year, but did not run.

The second heat of the half-mile run was captured comparatively easily by J. B. Denham, who defeated Walter E. Drumheller, of the University of Pennsylvania, and Edward M. Meeking, also of the University of Pennsylvania. Denham seemed to have a very great political scheme in everything now, from the market price of silver, to the certificates issued in lieu of silver dollars.

FOR THE MONUMENT FUND.

PORTLAND, July 7.—(To the Oregonian).—We had our herewith \$35 1/2 of the net proceeds of the Queen Victoria birthday concert given at the Armory, May 25, by the British residents of this city, under the auspices of Mrs. Macleay, in aid of the fund to erect a monument to Oregon's heroic dead.

In contributing our mite it is gratifying to appreciate we are aiding a most worthy object, and one that shall be a patriotic inspiration to coming generations.

With full trust in the speedy success of your undertaking, we remain, most sincerely yours, GEORGE S. SHEPHERD, Chairman of Committee. D. G. DUNCAN, Treasurer.

Representatives of the Populists and Silver Republicans attended the meeting.

Nearly every state in which the Populist and Silver Republican strength is necessary to carry the state for the Democracy was pledged to Bryan and Stevenson. The exceptions were Nebraska, Kansas and South Dakota, representatives of these states saying they thought it doubtful whether they would be carried for Bryan, unless a Populist should remain in the field. At the same time they claimed they did not care to sacrifice to carry the state for Bryan or Watson, even on a smaller scale. Mr. Watson was laid on the danger of losing four Senators in these three states.

The Silver Republicans said there would be no danger of carrying the Mountain States, but they had little hope of the Pacific Coast. The matter of running a ticket will probably be determined after a conference of leaders at Lincoln, as it is understood many will meet Mr. Bryan there Monday.

Acting Chairman Edmondson, General James B. Weaver and Thomas Patterson were the only speakers. Edmondson, Tillotson, ex-Senator Dubois and Representative Shaforth spoke for the Silver Republicans. All of the Silver Republicans announced their hearty support of the reform forces, and the indication was that all parties were pulling together for the Bryan and Stevenson ticket. The committee at 12:30 P. M. adjourned sine die. A number of the leaders left for Lincoln this afternoon, to confer with Mr. Bryan.

Practical fusion between the Democratic and Populist parties on the Presidential ticket has been decided upon by the National Committee. Unless present plans are changed, however, the Democratic Vice-Presidential candidate will not be endorsed, whether or not Charles A. Bryan is elected, as he is not the candidate of the Populist party, as this it is feared, would result in a large defection to the Middle-of-the-Road Democrats.

Mr. Towne will go to Lincoln at the invitation of Mr. Bryan. The whole situation will be thoroughly worked out by Mr. Bryan and Mr. Towne's decision in regard to the Vice-Presidency. He will not announce his decision until after the conference with other leaders in both the Democratic and Populist parties and until he communicates with the Populist National committee, which meets in several days at least, he will take no further action.

In case Mr. Towne decides to withdraw his name from the Presidential candidacy, the Populist party at the National Committee will select another candidate. The sentiment, apparently, is against the endorsement of Mr. Stevenson on account of his record in carrying the State of Kansas, Nebraska and South Dakota, where the Populist vote is larger than that of the Democrats. The Populist strength is greater, the understanding will be that the electors on both tickets will favor Bryan and Towne. This applies to the conference with other leaders in both the Democratic and Populist parties and until he communicates with the Populist National committee, which meets in several days at least, he will take no further action.

Quick Work Needed in China.

Pendleton Tribune. A war with China may develop a kind of soldier entirely new on the battle-field. Already the Chinese forces are looked upon with some fear and if the troubles are prolonged until they gain some experience with modern arms the possibilities are that with their countless numbers, the combined armies of eight nations will have many a long and hard battle before the Celestials are subdued or peace restored. It is true that the Chinese are ignorant of modern warfare, but their lack of fear of death, their belief in fatalism, and their hatred of the invading foreigners will drive them into battle and hurl them against the bayonets of the enemy, regardless of the cost. When one army is destroyed another can take its place and not be missed from the enormous population of the empire. A Chinaman is slow

to wrath, but once his ire kindled it becomes a fixed power, unchangeable as the face of the god he worships. If the borders of China become thoroughly garrisoned, there will be no carrying across the border a final truce is called. Now is the opportunity for the international forces. While the enemy is unarmed, unfortified and unarmored, quick work would save thousands of lives and probably a very great war. Napoleon once said that when the Chinese enter the arena of warfare he will stand aside, a man understood the qualities necessary for a good soldier better than the great French general and this remark must have been prompted by an acquaintance with the Chinese character.
