BOXERS ARE ACTIVE

Again Making Trouble Near Pekin.

TROOPS GO TO SUPPRESS THEM

Reverses in Manchuria Cause Three Russian Regiments to Leave the Chinese Capital.

PEKIN, Sept. 12, via Shanghai, Sept. If.—A squadron of the Sixth Cavalry will leave here tomorrow to relieve a native Christian village, which was attacked by Boxers 46 miles southeast of Pekin. Sev eral small parties have been attacked between Tue Chow and Hoskiawan, where British and American troops are stationed. Civilians going to Tien Tsin are warned

not to travel without a military escort. verses in Manchuria, where 200 miles of railroad has been destroyed and a number of stations have been burned. There has been much fighting and many Russians e been killed. Three regiments have Pekin on their long overland march to Manchuria.

A gradual reduction of the Russian forces in Pekin has begun.

A MESSAGE FROM CONGER. But State Department Declines to

Make It Public. WASHINGTON, Sept. 15 .- Minister Wu was an early caller at the State Department today, and spent nearly an hour in conference with Acting Secretary Adee. He notified Mr. Adee verbally of the appointment of Yung Lu as an envoy, but had no further information to communicate. He was rather in search of news himself and was much interested in a short dispatch from Minister Conger, de-scribing the conditions in Pekin. The artment, while declining to make this message public, authorizes the state ment that it indicated no change had taken place in the political conditions in

Russia has not yet officially notified our Government of any change in its programme as to the evacuation of Pekin. In fact, nothing has been heard from Russia on this point since the United States' reply was returned, save in one short note, explanatory of some obscure points in the first Russian communication. It is probable that the absence of furmmunication on this subject is to be explained by the fact that the Russian Government does not confess to any change in its original programme. merely gives a different interpretation the details of that programme from the

inderstanding that obtains abroad.

The United States Government is following precisely the same course as to its own note and reply, so that the effect of these diplomatic actions is to leave the military commanders of both the United States and Russia in Pekin practionly free to determine for themselves the dety of evacuation, according to the onditions of the agreement.
Since the first manifestation, months

ago, of a disposition on the part of the naval commanders of some of the powers at Take to interfere with the movements of Li Hung Chang, our Government has been advised of no further opposition to his projected trip to Pekin. Consequently officials here are pussled by certain press dispatches indicating that he may be detained through international jealousies at outh of the Yangtse. If this report should prove true it would only go to confirm the fears of the Administration as to the possibility of an international conflict at almost any moment.

SALISBURY'S POLICY.

All That Is Known Is That the British Will Remain in Pekin.

NEW YORK, Sept. 15 .- A dispatch to the Tribune from London says: Lord Salisbury has been at the Foreign Office, but there are he immediate signs that the situation in China has been cleared. Londing the Lord Londing China has been at the drying, which is now in full operation in Cliark County, will end about October list. The season is fully two weeks earlier don editors certainly are as much in the dark as they were when the Premier was in the Vosges. The Times is keeping abreast with Dr. Morrison rather than following any official cues in forecasting and ning a secret understanding between Germany and Russia. It has been current belief in diplomatic circles that an understanding of this kind would be brought about, but it has been based natural inferences rather than upon Russia and Germany acted in concert

at the close of the war between China and Japan and obtained naval stations suggestion that they would repeat this process in the existing crisis and there has been nothing in the account. and territory. It has been the natural been nothing in the negotiations over the retirement of the allied forces from Pekin to modify this inference. Practically diphave been convinced that the German Emperor, after supporting England strongly in South Africa during the not be depended upon take up British interests in China, but more likely to make terms with

The validity of Dr. Morrison's Inferences is accepted by well-informed men in dip-iomatic circles. It is in the natural order of events that the German Emperor, who has ambitions of his own in the far East should have a good understanding with Russia respecting the far East.

Lord Salisbury's own policy remains a mystery and only one thing can be asserted with any degree of confidence. That that the British forces will remain in Pekin indefinitely. England being without a diplomatic ally in the Chines cation will naturally maintain an attitude of masterly inactivity and decline to send away her troops until the Imperial Gov-ernment has been reconstructed and some effective measures have been taken for curing the punishment of the guilty

Barl Li and Dr. Mumm. LONDON, Sept. 12 .- A special dispatch

from Shanghal, dated Friday, September is, says that prior to the departure of German Minister, Dr. Mumm von Schwarzenstein, exchanged views with the Chinese statesman. The dispatch adds that it is reported at Shanghai that the suggestion that a Russian cruiser escort Li Hung Chang to Taku was dropped owing to the objection of Admiral Seymour.

statement is reiterated that Hsu the Emperor's tutor, recently

No Sign of Boxers.

A Poor Apology.

Dalles Chronicle. A Bryanite exchange apologizes for Bryan's garbling of the quolation from Lincoln's inaugural address, in Bryan's speech on Labor day, by saying that "the quotation was perfectly correct, but of course Bryan did not give the whole message." Of course not. But the charge proven against Bryan, without a shadow of peradventure, is not that he did not ote the whole message, but that he dishonestly refrained from quoting enough of the context to show what Lincoln meant. When Lorenzo Dow took for his text. "Top not come down," in order to make an attack on the way women used St. Paul and Louis Walch. The Valencia St. Paul and Louis Walch. The Valencia to dress their hair in his day, the quota-tion was "perfectly correct," but he gar-ber 1.

bled a text that says: "Let him that is on the house top not come down to take anything out of his house," which has no more relation to "top knots" than Bry-an's garbled extract had to his demagogic effort to create strife between capital and

CANNOT COLLECT THE FEE.

Salem Steambout Ordinance in Conflict With Federal Law.

SALDM. Sept. 15.—John A. Jeffreys, employed by City Recorder Judah to represent the City of Salem in the matter of collecting the dockage license fees from steamboat companies, has decided that the city cannot collect the fee. The City Council passed an ordinance some time ago providing "that all steamboat companies whose boats land in this city shall pay an annual license fee of \$50." The companies affected by this ordinance refused to pay unless they had assurance that the tax was only a temporary mea-sure. The city would not give this assurance, but employed an attorney to investigate the legal phase of the ques-tion. In a written opinion given to Recorder Judah today, Mr. Jeffreys says: "I find that the steamboats belonging to the companies operating upon the Willamette River are registered and working under a Government license. It is therefore my opinion that the license ordinance in question invalid, for the reason that it is in conflict with the commerce clause of the Federal Constitution, and that in attempting to collect licenses under said ordinances we would be defeated in the courts."

It was expected that the settlement of the question regarding the validity of the steamboat license would also dispose of the telephone license question, but as the telephone companies are not governed by the same laws, the latter question is still open.

Store Foundry Convict Labor. The Loswenberg-Going Company today paid into the State Treasury \$1069 53 in payment for convict labor employed by the company at the Penitentiary Stove Foundry during the month of August. This is the largest sum paid for convict labor in one month during the present administration. The proprietors of the foundry pay the state \$500 per quarter for the lease of the stove foundry and pay \$5 cents per day for each convict

Filed Certificates of Nomination The certificates of nomination of the candidates of the People's party and Dem-ocratic party for Presidential electors were filed in the Secretary of State's of-

Thought the Rain Is Over. Torrents of rain fell in this vicinity this afternoon and evening, but late tonight the sky cleared, and it is thought the rain

RUSSIA WANTS LUMBER. Cost and Delivery of 30,000,000 Feet Investigated.

SEATTLE, Wash, Sept. 15.—A well-founded rumor has been going the rounds of the large lumber firms operating on the Sound lately, that a representative of the Russian Government was investigating the cost and probabilities of quick delivery of 30,000,000 feet of lumber at Vladivostock. The first inquiry was reoeived by a large mill in Tacoma a few weeks ago, and early in the month came a telegraphic notification from San Francisco to another large Sound mill that the Russians had come to this section to investigate the facilities section to investigate the facilities of the milis for turning out the product. It is said that all inquiries have been based on the requirement of speedy de livery, which will probably be taken as having a most important bearing on the war operations in the Orient. It is even reported by one informant that the grade of lumber asked for implies that it is to be used for military encampments, as though extensive military operations were

PRUNES DRYING IN CLARK COUNTY. Will End in About Two Weeks-Crop Greater Than Estimated.

VANCOUVER, Wash., Sept. 15.—Prune drying, which is now in full operation in Clark County, will end about October than usual. Estimates of experienced fruit men place the crop at 40 to 50 car The Times is keeping loads of dried fruit. This is nearly double the estimates made before the beginning of the drying season. Pickings from orchards, from which no crop was first reported, are adding thousands of pounds to the aggregate. The quality of the Italians, or Fallenburg prunes, which is the principal variety raised here, is much finer 30s to 40s in proportion to the whole crop than ever known in the county. The crop than ever known in the county. The crop is practically all contracted for in this county at prices ranging from 4% cents to 5 cents for 40s to 50s, and 4% cents to 5% cents for 30s to 40s. The price has advanced from % cents to one per pound during the past month,

> FILED SCRIP ON BIG LAND TRACT. Northern Pacific Railroad Secure

30,000 Acres in White Pine Belt. LEWISTON, Idaho, Sept. 16.-At the local land office today, Earl L. Marvin, of St. Paul, representing the Northern Pacific Railroad, filed scrip on 30,000 acres of land in the White Pine belt. The land located is on Washington Creek, a tribu-tary of the north fork of the Clearwater River, and adjoins 10,000 acres recently scripped by Governor Schofield, repre-senting a syndicate of Wisconsin. It is said here that the land located today will be transferred by the railroad company to a big Eastern lumber company, and that other white pine deals of greater magnitude are pending.

TRAIN DITCHED NEAR ROSEBURG. Driver Axle of the Engine Broke-No

One Was Hurt. ROSEBURG, Or., Sept. 15 .- South-bound train No. 15 was wrecked four miles south of here, at Green's Station, this morning at 5:30. The driver axle of the engine broke and the engine, mail, express and baggage cars were thrown in the ditch. No one was injured. The track was torn up for about 100 yards, but will probably be cleared early

TOWNE SPOKE IN SEATTLE

Discussed Silver and Imperialism and Predicted Bryan's Election. SEATTLE, Sept. 15.-Charles A. Town spoke here tonight to an audience num bering several thousand. He discussed silver and imperialism and predicted Mr Bryan's election by a big plurality. He was in fair voice and very close at-tention and much applause was accorded

James H. Thems, of Forest Grove. FOREST GROVE, Or., Sept. 15.—James H. Thoms, aged 72 years, died at his home here yesterday. He had been a great suf-ferer from an affection of the spine for the past 15 years. Mr. Thoms was born in Maine in 1838, and moved to Minnesota in 1848. Seven years later he was married to Miss Annette F. Hamblet, of that state who survives him, with seven children Deceased came to Oregon in 1890, and with the exception of a few months' residence at Corvallis, had lived here continuously.

Vessels at Nome. SEATTLE, Sept. 15.—The ateamship Cleveland arrived this evening, 12 days from Nome, with 164 passengers and 550,000 in gold. The following vessels were in Nome harbor September 1: Charle

The Copeland System Now Perfected So That It Includes the Treatment and Cure of All Chronic Diseases at a Price Within the Reach of the Most Slender Purse.

Kidney trouble. Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is

To those unacquainted with the great work carried on at the Copeland Institute the reach and range of that far-famed medical system and its admirable adaptation to the needs of every class of invalids may be indicated by the diversity

of disease accepted for expert treatment. 1. The Copeland system includes ca-tarrh and all catarrhal maladies. In this hard branch of practical pathology Doctor Copeland ranks with the very few nized masters now living, but under the nominal assessment plan all catarrh pa-tients receive one entire month's treat-ment, medicines included, for the sum

usually paid for examination alone.

2. The Copeland system includes treatment and cure of deafness, the systematic restoration of the lost or impaired sense of hearing, under brilliant discov eries credited entirely to Doctor Copeland, being now a thoroughly verified reality, however unique and marvelous as a medical evolution and achievement. Here, too, the expense of treatment is limited under the nominal assessment

CATARRH AND DEAFNESS.

Mr. John Walters, West Portland, Or., well known, having resided in this vicinity for 25 years: Last Winter I had grip, which developed into a bad case of catarrh. My head was so stopped up that I could scarcely breathe. There was watery discharge from the nose and dripping into the throat, keeping it irritated and sore. I coughed a great deal, especially on getting up. I lost all sense of taste or smell. My ears became involved. A discharge set in and my hearing became very dull.

The left ear was almost Totally Deaf. I had to turn the right ear to understand what was being said; even then I would have to be spoken to in a very loud tone of voice. I was also terribly annoyed by ringing noises in my head. At night the

character of these noises would change,

and I seemed to feel my Heart Beat and Throb In my ear. If I laid on my left side this would be so bad that I could not seep.

My general health was also greatly impaired. I could not eat, and lost over 20

pounds in a short time.

Upon the advice of friends I began treatment at the Copeland Institute. improved from the first, and now am entirely well. The catarrh has been thoroughly cured, and my

Hearing Fully Restored. I was never in better condition than I am now. From my own personal experience I can heartily recommend the land treatment to all catarrh sufferers.

medicines included, until cured. 3. The Copeland system includes asthma and bronchitis, the superior curative potency of the new treatment in chronic inflammatory diseases of the air passages being predicated on the greatly reduced period of time requisite to their permanent mastery. Total expense—treatment and medicines included—\$5 a month. 4. The Copeland system includes incipient consumption, with a treatment held to be absolutely effective in the cure of all affections of the lungs inside the line of clear tuberculosis. Nominal expense as-

sessment-one entire month's treatment,

medicines included, \$5.

5. The Copeland system includes diseases of the nervous system, improved methods of treatment accomplishing the permanent mastery of this class of infirmities with less delay than is possible under the old-school theories. Expense limited to the same rate-\$5 a month medicines included.

6. The Copeland system includes dis-eases of the stomach, the liver and the

treatment by an accomplished expert without extra expense beyond the assessment of \$5 a month, medicines included. The Copeland system includes chron-ic kidney trouble and its correct scientific treatment-\$ a month, medicines in-

matism and all affections of the skin, with expert treatment, under the same nominal assessment of \$5 a month, medicines included. 9. The Copeland system includes

all maladies that require time treatment or a certain period of uninterrapted professional attention for their final and lasting cure. But the key to the system in its economic aspects is that, whatever the ailment or infirmity, the sufferer is actually afforded one entire month's treatment, all medicines included, at the precise sum usually paid for

HOME TREATMENT.

Doctor Copeland requests all who are affing, all who feel a gradual weakening or all who realize that their health is being undermined by some unknown complaint, to cut out this slip, mark the questions that apply to your case and he will diagnose your case for you:

"Is your nose stopped up?" "Do you sleep with mouth wide

"Is there pain in front of head?" "Is your throat dry or soce?" "Have you a bad taste in the morning?

"Do you cough?" "Do you cough worse at night?" "Is your tongue coated?" "Is your appetite failing?" "Is there pain after eating?"
"Are you light-headed?" "When you get up suddenly are you dizzy?"

"Do you have hot flashes?" "Do you have liver marks?"
"Do your kidneys trouble you?" you have pain in back or shoulder-blades?" "Do you wake up tired and out of sorts?" 'Are you losing flesh?"

For this Doctor Copeland's services are free. for this Doctor Copeland's services are free. It means no charge will be made, not a penny will be received. It means no promises to pay—no future obligation is implied or demanded. It means what it says. To one and all it is unequivocally and absolutely free.

"Is your strength falling?"

CATARRH AND BRONCHITIS.

Mr. J. E. Nolan, 205 1-2 Morrison street, Portland, with Mason, Ehrman & Co., wholesale grocers, for the past 20 years, speaking of the marvelous efficiency ency of the Copeland treatment for catarrhal troubles, said: No one can have any conception of the Splendid Skill They Show

in the handling of desperate cases of dis-

case at the Copeland Institute, except those who have been sufferers and who have gone there for treatment. I never would have believed half of what I now know they are accomplishing had it not been demonstrated to me by actual expe My catarrhal trouble came on gradually. I had nasal catarrh quite a while before I realized it. I was in a state of

nervous discomfort from the miserable stuffed-up condition of the nose and head, and Before I Knew How Serious it was the inflammation had involved the throat and bronchial tubes, causing a sore, distressed feeling through the chest and a tickling in the throat, giving rise to a violent cough. My cough became so constant day and night as to deprive me

of rest and sleep, and threatened me with complete exhaustion.

I had heard of the remarkable results of the Copeland treatment in catarrh. I made up my mind to try it, and I was completely surprised at the promptness and thoroughness with which the treat-ment mastered my trouble. The treatment brought me

by the police at New Whatcom last week for violation of the ordinarea wheels to carry lights after dark.

session September 28. Last year it suf-fered several unpleasant reverses, but it is now established on a new basis, and there are prospects for a satisfactory The Huffman wagon bridge, which spans Hangman Creek at Tekoa, is being rebuilt at the county's expense. The heavy timbers are being replaced with

Colfax College will reopen for the year

Onyx has been discovered on the farm of A. N. Snyder, six miles west of Col-fax, on the Palouse River. It is clear and beautiful, and awakens admiration wherever shown. The extent of the discovery is not known.

new ones, and the floor will be entirely

relaid.

Rev. Duncan Wallace, who has been pastor of the First Cumberland Presby-terian Church in Walla Walla for the past five years, has accepted a call to First Cumberland Presbyterian Church of Fresno, Cal.

The Northern Pacific Railway Company is soon to begin the construction of coal bunkers at Tacoma, similar to the electric conveyor bunkers now in operation. The new bunkers will be built on the hillside between Elevator B and the Puget Sound flouring mills. They will have a capacity of about 12,000 tons. It is apparent that state funds will not be sufficient to run the various public instituions. If the present rate penditure continues until next April, the

Soldiers' Home, the Penitentiary and the Eastern Washington Insane Asylum will be asking for legislative aid or for loans. From present indications the deficiency Fish will be taken for spawning poses at the Kalama salmon hatchery this year by means of traps, instead of

gillnets, as heretofore. This

The apportionment of state funds to the

bureau has been unable to secure onequarter of the number expected. He is still filling large orders for pickers in Western Washington, and will continue placing them until the middle of the It seems that there is not a very good prospect of harmonizing the two warring factions of Pierce County. The anti-Rogers Democrats object to the apportion-

ment of 135 delegates to the Silver Re

publicans, for it throws into the hands

of the latter the balance of power. If the

Silver Republican apportionment is cut

down to a reasonable number the objecting Democrats say they will go into the convention. The dumping of ballast into the bay by sailing vessels coming into the port at Whatcom is causing agitation. The Italian bark Altear, which arrived from Callao several days since, is at the bottom of the trouble. Old water-front men

say that she dumped her ballast into about eight fathoms of water. The law says plainly that there must be not less than 20 fathoms of water where ballast is discharged. The City Council has instructed the Harbormaster to investigate the case and report. The farmers and business men of Kent held a meeting Thursday afternoon to consider the injunction recently issued at

the instance of the Commissioners of

Pierce County to restrain King County residents from taking any action that will

result in diverting the waters from the

White River down the Stuck River

belief that the dam recently built was on King County soil, and that the Stuck River was formerly the main channel.

SUNDAYS-From 10 A. M. to 12 M.

In the Superior Court of Thurston Sedro-Woolley school district for the en-County, W. E. Boone has been given suing term is \$1021 77, as against \$131 74 judgment against the State of Washington for the sum of 2000. The case is an old one, and arises out of a start made in 1892 to construct an adjunct to the State University, to be known as the "Building for Administration and Belles. Letters." A bonus was offered for plans Lettern. and specifications: those submitted by Mr. Boone were adopted, and he was to receive \$14,000 for the same, \$5000 of which was subsequently paid. For some reason the building was never erected, and Mr. Boone was given judgment for

the remainder due on the contract, The Japanese influx from British Coof the fishing season on the Fraser, At Blaine the other day the citizens draws a party of Japanese through the streets and back across the line. The invaders slip over in small groups, evidently as-sisted by well-informed guides. There are thousands across the line and on the Fra-ser awaiting a chance to get into the United States. They are of the class brought over last Spring by such vessels as the framp ship Miles, which landed 1100 from Japan at one trip for 36 per head, having fed them during the voyage on three meals of rice per day, at a cost of 3 cents per meal. The present force of officers is vigilant, but is incapable of coping with the invasion.

An Editor Robbed.

NEVADA, Cal., Sept. 15.-The Downeyville stage was held up by a lone high-wayman near Nigger Tent today. W. F. Eachbacher, editor of a Downeyville paper, was the only one robbed on the

ergans to carry off and keep the system clear of all morbid, effete matter. This poison through the general circulation is deposited in the joints, muscles and nerves, causing the most intense pain.

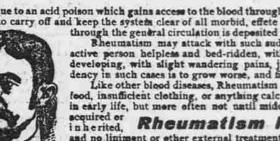

Rheumatism may attack with such suddenness and severity as to make within a few days a healthy. active person helpless and bed-ridden, with distorted limbs and shattered nerves; or it may be slow in developing, with slight wandering pains, just severe enough to make one feel uncomfortable; the ten-dency in such cases is to grow worse, and finally become chronic. Like other blood diseases, Rheumatism is often inherited, and exposure to damp or cold, want of proper food, insufficient clothing, or anything calculated to impair the health, will frequently cause it to develop

in early life, but more often not until middle age or later. In whatever form, whether scute or chronisequired or Rheumatism is Strictly a Blood Disease, and no liniment or other external treatment can reach the trouble. Neither do the preparations of potash and mercury, and the various mineral salts, which the doctors always prescribe, cure Rheumatism, but

ruin the digestion and break down the constitution. A remedy which builds up the general health and at the same time rids the system of the poison is the only safe and certain cure for Rheumatism. S. S. S., made of roots, herbs and barks of wonderful solvent, purifying properties, attacks the disease in the right way, and in the right place - the blood - and quickly neutralizes

the blood in a pure, healthy state. Mr. J. O. Mailey, 123 W. 15th Street, Indianapolis, Ind., for eighteen months was so terribly afflicted with Rheumatism he was usable to feed or dress himself. Doctors said his case was hopeless. He had tried fifty-two prescriptions that friends had given him, without the alightest relief. A few bottles of S. S. S. cured him permanently, and he has never had a rheumatic pain since. This was five years again. We will send free our special book on Rheumatism, which should be in the hands of every sufferer from this torturing disease. Our physicians have made blood and skin diseases a life study, and will give you any information or advice wanted, so write them fully and freely about your case. We make no charge whatever for this service. Address, SWIFT SPECIFIC CO., Atlanta, Co.
