"77".

The use of "Seventy-seven" renders the system impervious to the changeable weather.

Colds

There are more colds contracted between the hours of 7 P.M. and 7 A.M. than at any other time. Bring for beds in a cold room or over open cooking, as well as in a dry room. In the spring, the first sign of changeable weather is the appearance of the first cold. The present use of "77" ensures the health of the system, the blood going through the nose and breaks the rule of panic attack when surprised by the changeable weather.
