SPO RTI

of waiting for Oregon was adopted, it has evidently been determined to stick to it, through thick and thin, however loud-ly the Salem players demand the recog-nition which they deserve. The Team's Chances.

With McMillan out of the game, the chances of the team against Salem and Oregon have been questioned. Heretofore, there was no reasonable doubt, in the there was no reasonable doubt, in the mind of ortical observerse, that Multho-mash outclassed both teams. Multhomah's defeat of Oregon was more conclusive than Saism, although each made 5-0, and the Oregon team played a better game against Multhomah than against Balem. The Saism team, however, has been strengthened by the addition of Bishop, the former Oregon haid/back while the the former Gregon half-back, while the Multnomahs have been weakened. He-lem's score of 20-0 against Chemawa, which eleven was tied, 0-0, by the Mult-nomah junior team, does not necessarily indicate the possession of an excessively strong eleven. Even without McMillan, Multnomah should be able to maintain iteolf against Salem, it having equally good mategial and training. Against Oregon the same is true. The first game was won by the superior line, and this is al-most intact. Hard practice and quick work should almost offset the sivanings of Bugene's week of constant practice in

is a splendid field captain, and Smith and Hill are a pair of halves that can play in any company. Big Seeley, at guard, is one of the most valuable forwards, and Traeger and Burnett are the best tackles that ever represented the cardi-

nal. A week ago Stanford beat the heavy Rellance sleven by a score of 44 to 0. Yesterday Berkeley was able to score but 11 points against the same clubmen, who, in the second half, rushed the ball to California's two-yard line. Unless Herkeley's plus shows a desided improve Berkeley's play shows a decided improve ment within the next two weeks, Stanford should win out on Thanksgiving Day. The Oregon then have left for Berkeey, where they play California on Saturday. They were to have met Nevada on the 15th inst. but the Sagebrush team has canceled the date, whereat the Ore-gonians are greatly disappointed.

AMATEUR HARNESS RACING.

Movement Spreading to Establish

New York, Nov. 12.-There is every indication that the United States is to become the great sporting center of the 20th century. Our pacers and trotters have lorg outshone anything that could be amount in the unit of the game. Warren played a hard game, and made many gains by nis line bucks, and his punting was a feature of the game. Warren played a hard game, and made many gains, particularly the 45-yard straight buck. Smith had a se-vere cold and did not play his usual game. The team will play with the Uni-versity of Oregon freahmen November 24. be produced in other countries, and the breeding of blooded stock has been carried to such a stage of perfection here that our horses are capturing some of the biggest racing stakes in Europe,

Those who have watched the gradual lowering of the records effected by our crack favorities of the turf feel satisfied that the limit of performance has been far from reached, and it is probable that the horse of the 20th century will show anything but a decadent type. In the opinion of the most competent judges, the coming American horse will stand head and shoulders over his blooded prototype. and shi the Arab.

The unprecedented interest which has been manifested in sport recently by the been manifested in sport recently by the formation of genutemen's driving clubs throughout the country calls the question in a very decided manner. In order to paramet the love of true aport, it is pro-popsed to organize a central governing hody for all the clubs in the country, so that records imay, be kept and abuses ex-terminated as far as possible. Movement Sprending.

The formation of driving clubs, amateur The formation of driving clubs, amateur associations and speedway organizations has now extended to almost cevry city Connell and Trowbridge both made good has now extended to almost every city and town of prominence in the United States. In order to obtain the best resuits from this interesting development it is felt to be highly desirable to adopt some system of regulating meetings, formulating general rules, and keeping absolutely authentic records which shall ap-ply solely and distinctly to amateur rac-ing, either to wagon, cart or sulky, as may be the case.

With a view to the formation of such a body, I am communicating with the officers of the leading driving associations

with the officers of he National Trotting Association, so that a precise understand-ing will be arrived at with that body as to special rules for amateur rading, and the proper method for carrying on ama-teur or matines rading without giving the horses a mark or record. From present indications, the plans out-

lined will open up a new and vastly in-teresting field for amateur owners and drivers, and will elevate this noble sport to the front rank among our National recreations. H. H. KANE, M. D., President of the Read Drivers' Associatio of New York.

AMONG JUNIOR FOOTBALLERS.

Talk of Competitions, Past, Present and Future.

The same between the Portland Academy and Portland High School was the big event of a week ago. The Academy team came out of the contest victorious and won its first football game since football has been taken up by the students of that school.

The Bishop Scott Academy team also lost in Astoria by a score of 15 to 6. The local team was no match for the Astorians, who are a lot of young players of the town and much heavier than the cadet team. During the game Captain Monow, of the B. S. A. eleven, suffered a painful accident. A muscle on his left leg was torn lose, but the leg No signal code or Morgan Murph's was not broken, as was first reported. The Academy team is gaining strength very week and it hopes to defeat the High School boys. A game between these two elevens will probably be played within a week.

Portland Academy.

The Portland Academy boys are much elated over their victory in the game with the High School team. They will, most likely, not play a return game this eason, as their faculty requires them to stop playing by Thanksgiving, and all of their dates up to that time are filled. Stillman, the big guard of the team

played an excellent game for his side. He blocked all the High Scool plays that tried to pass him, and, on the offense, he was always a factor in the interference. Williams made many gains by his line

Second Multnomabs. The second Multnomah team met the Chemawa Indiana yesterday for the sec-

ond time this season. The eleven has been working hard for the last week and the new men are rapidly getting in shape. Captain Wood has resigned from his po-stillen, and the new captain will probably be either Holbrook or Wilhelm. This team will probably have games with some of the Eastern Oregon players before the season is over.

The High School.

The High School team has secured Carain McDonnell for conch. He is an oldtimer at the game, has, as everybody knows, played on the Multnomah's best up a good game when it goes to Seattle

next month. gains; Harkins played a good game at full back, and Trowbridge made several long punts. Woodcock, on the line, play-ed a fair game, but on the whole, the line of the line of the line of the line of the line. was very weak. Frank Trowbridge played a steady game at quarter. Fow of the fumbles made could be credited

GETTING BIG AND STRONG

Physical Education and Exercise Breeding a Race of American Giants-Our Athletes.

NEW YORK, Nov. 11 -- That the athlete will occupy a prominent place in the Twentieth Century goes without saying, and that we are rapidly becoming a Nation devoted to physical education is also apparent.

The prominent business men of the twentieth contury will to a certain extent come from our large citles, for the simple reason that our large cities are becoming the center of our entire world-financial and commercial-and an education that will make a leader in the twentieth century will have to be acquired in the busi-

ness centers. It is an admitted fact that the physically perfect, strong, robust mun is the one best qualified to battle with this world's affairs. The result is that gymnasiums are going up all over the country, clubs are being organized for sport of every description, such as golf, cycling, etc.; in fact, everything is being done to build up the body physically. In our new schools in the City of New York the most important part of their construction is a well-equipped symmatium. We did not have those things 10 years ago, and the business men of today that are prominent and elderly did not have a physical education, but, nevertheless, the majority of them came from country to unjointy of term came from country towns and districts where they were forced to take physical educ tion. In a mitural way, such as working on the farm and out of doors, and taking good care of their bodies.

Will Be Stronger and Larger.

That the race will become stronger and larger is also apparent, and the clearest exemplification of this was the prom-inence of the American youth and their superiority in physique and athletics at the International Games held at Paris this year. While many exhibits from America-works of art, inventions, etc.were awarded prizes for their excellence, nevertheless there was some doubt in some minds as to the correctness of such awards. The decision was questioned and always will be, but on the athletic field, where it required life, strength and physique, America just swept the bo spoke volumes for the future of the American youth. The words of the Em-bassador Ponler, at the hanquet given in honor of the American athletic victories by Commissioner Peck, will never be for-gotten by those that heard them. Look-ing around upon the athletic assemblags, he said: These are the men that in the future will be our leaders. As they led the field today in athletics, so will they lead in the future our Armies and our Navies and in the affairs of State." Athletics are sure to benefit the American race, as they have the English race. England is a great country and the home of outdoor recreation, yet we Americana, who have been only 20 or 15 years in the who have been only so or a pairs in the schield field, have excelled England to-day in many respects "In athuetic com-petion we certainly do, athhough, as a people. I do not think we are as much interested in recreation as they are in Perstance England. Go Hand in Band.

the league gets good players, puts up

Future Golf Events.

although ready to play, has not received credit to many an older and heavier a challenge or request for an outside eleven. It is the general opinion among

game. Last week the juniors held their monthly athletic competition with four events-the high jump, a potato race, 30-yard dash and fence vault. The junitor class is divided into fantastic groups, and the contest was won by the "Bumboes." with 325 points. The "Neverwins" were second, with 235, and the "Ragtags" third, with 183. The "Bumboes" also won the relay race, against the "Neverwins." gaining an additional 10 points in the monthly score. However, the "Neverwins" had a change of luck and gave their title the like by dely athletic competition with four eventsof luck and gave their title the lie, by de-feating the "Bumboes" in baseball by Il to 3.

"Blues" Defeat "Pinks."

In the senior competition last week the "Blues" defeated the "Pinks" in the relay race. 'The "Reds" lost the basket-ball game to the "Whites," by a score of 3 to 4. The "Pinks" won the relay race from the "Reds." score 2-0, while the "Biuts" of the formation. gave the "Whites" a defeat in baschall, 9-6. Physical Director Ringler, of the asthe "Reds," score 2-0, while the "Blues" gave the "Whites" a defeat in baschall,

sociation, has received a letter from Secrelary Hepbron, of the Athletic League of the Y. M. C. A. Associations, stating that the following records by J. A. Wil-cox, of the Portiand association, have been allowed as American indoor records: been allowed as American indoor records: Running high jump from springboard. 7 feet 7 inches; running high dive, 12 feet 3 inch; one-haif mile run, 23 iaps. 2 minutes 16% seconds. The following were also allowed as Northwest association records: Fence vault, 6 feet 3 inches, by V. Paquet; run-ning high Rick, 5 feet 5½ inches, by A. W. Barber.

Rowing Club Affairs.

At the meeting of the Portland Rowing Club, last Monday evening, presided over by J. McI. Wood, the retiring president, the club's affairs were shown to be in a flourishing condition. The club is now one of the strongest aquatic organizations, in point of membership and prop-erty owned, in the United States. The board of directors elected for the ensu-ing year is as follows: L. C. Stille, R. C. Hart, R. L. Glisan, W. L. Brewster, F. Friedlander, W. A. Robb and W. W. Morse. This board elects the other offi-

Stanford men that Oregon is the toughest proposition that they have dealt with this season, and that had the Northerners been a few pounds heavier, the story might have been a different one. The Oregonians were outweighed, an

average of 16 pounds to the man, they put up a good, hard game, indulged in no kicking or wrangling, and never played for wind. Their sportsman-like conduct won them golden opinions. they leave many friends at Stanford Uni versity.

Individual Play.

Captain Ziegler, the gritty little end, in certainly one of the cleverest players in the West. He played all over the field, and his tackling made Oregon's left wing hard to round. Ziegier was ably backed up by Jakway and Smith. and every lit-tle yardage was made through their part

although they played a steady uphill game. Stubling replaced Waddell in the second half. On the right wing Oregon was weak

Thurston was no match for the clever Tracger, and Bush was unable to break through the solid interference which was always there to protect the runner. Both Thurston and Bush played stubbornly, but they were up against weight and emperience that proved invincible.

Scott Hurt.

Quarterback Scott was hurt in the first scrimmage and retired to the back field, Payne playing quarter on the defensive.

Scott exercised splendid judgment in di-recting the plays and remained in the game to the last, displaying an unusual

simulation of grit. Behind the line Smith was a towar of strength. He was a sure ground-gainer, and his defensive work was superb, Starr and Goodrich alternated at right half. and Goodrich alternated at right half, both displaying equal defensive ability. The line plunges made by Goodrich. In the second half, placed many yards to Ore-gon's credit, but Smith was the surest ground-gainer for the Webfoot team. Fullback Payne made a number of pretty line bucks and twice used the "kangoroo leap" to advantage. During the game he made 18 punts averaging 18 yards, and his kick-offs averaged 45 yards, one of them landing within a few feet of Stanford's goal. In the first half he tried for field goal, but failed to put enough force behind the kick and the ball sailed under the crossbar. Stanford's Offence.

powerful offensive play. The formations are quick, the backs fast and the general

cers or the leading driving associations throughout the country. I am preparing to have a conference held at some cen-tral point in the near future, at which to have a conference held at some cen-tral point in the near future, at which delegates from all the driving associations eleven, has the matter in charge, and final delegateg from all the driving associations will be present. Thai athletics and physical education go hand in hand with the building up of the grain, no one can dispute. The old adage, "A sound body makes a sound mind," holds good today. Our leading educators of the present times are so impressed with the fact that there is not a college of any prominence that has not its well equipped gymnasium and gymnastic insiructor, together with its football field and crack teams, with specializes in charge of each department. Our clubs of any importance have their gymnasiums,

The City of New York gives a fair example of endeavor to build up the youth of the present day into strong and robust men, in its pisygrounds for the young. The Outdoor Recreation League has sereral of these playgrounds in operation. It is a model institution of its kind, is main-tained by voluntary subscriptions and managed by men who devote their enand tire time and attention to it without any compensation. These recreation grounds are situated in our thickly populated dis-tricts, and their object is to give fresh

air and necessary exercise to the poor children living in those districts. Last year New York took up the ques-tion of public baths and swimming. All this goes to show that physical educa-tion and exercise is good for the system and that the outcome will naturally be that the next generation will be larger

and stronger than the present ane. If you travel the world over and see the young men that are entering upon the 20th century, men who will be the fathers of the future; if you place them aide by side in athletic competition, you will be convinced that the leaders of the 50th century will be glants in every respect, physically, mentally and morally, J. E. SULLIVAN.
