THILAMOOK, Or., Nov. 34.—The dam of the electric sawmill, near Hobsonville, in Tillamook County, broke at 4 o'clock this morning. The mill was situated in a guideh, and when the dam broke, the im-mense body of water carried away the electric sawmill. The plant was washed down a quarter of a mile and complete-ly demolished. It lies covered with debris enar the bunkhouse. The dynamo and power-house escaped. Had the accident occurred during the day, the mill hands would have been swept away as well. ## FIGHT FOR COUNTY SEAT

MOVEMENT TO CHANGE LOCATION IN MALHEUR COUNTY.

Ontario Will Make Great Effort to Wrest Distinction From Vale-Will Donate \$10,000 Building.

ONTARIO, Or., Nov. 24.—A movement bas been inaugurated here for the removal of the county seat of Malheur County from Vale to this place. At a meeting called on the spur of the moment Thursday evening, \$200 was subscribed for the project. This is a good example of Ontario enterprise. The subject will be brought before the coming Legislature and a determined effort made to secure favorable action.

David Wilson, a large property-owner here, lagrees to donate the grounds for the county buildings and to enter into a bond, with gilt-edge security, to complete and present to Malheur County a Courthouse to cost \$10,000, the building to include jail, vauits and other necessary fixures. With such a guarantee, the people of Ontario expect the Legislature to grant an election. The matter was before the last session, but for some reason failed to pass. The necessary number of property-owners signed the petition, and it is asserted here that Huntington played the deg-in-the-manger act, and assisted in the defeat of the bill. Huntiand it is asserted here that riumington played the dog-in-the-manger act, and assisted in the defeat of the bill. Hunt-ington was ambitious to have a new county formed out of Baker and Malbeur, with that place for the county seat. with that place for the county seat. But this time Ontario proposes to get in on the ground floor with its promises in writing, with ample guarantee for their

True, Ontario is at one end of Malheur County, which embraces a large amount of territory. It is more than 100 miles from one end to the other, yet Ontario, and many other points in the county, urge its claims for the county seat and present a plausible argument. Ontario is the only railroad point in Malheur County, and is a great shirping point. This the only railroad point in Malheur County, and is a great shipping point. This naturally makes it the central point of business. It is raid that no one ever attends court without visiting Ontario before returning home. Also that the people of some of the most thickly settled portions of the county have to come to Ontario first by rail and then go to an additional expense to get to the present county sost, Vale, which is 16 miles in the interior. This is especially true of the population of Jordan Valley, one of the oldest and most densely settled sections of the county. Jordan Valley is 60 to 50 miles from Caidwell, Idaho. The citizens of that valley have to travel to Caidwell by private conveyance, thence by rail to Ontario, and thence by stage to Vale, which gives them a journey of about 190 which gives them a journey of about 100 which gives them a journey of about 180 miles, with three modes of travel, in order to reach the capital of Malheur County. There is no road suitable for travel between Jordan Valley and Vale, and the section is interspersed with hills and mountains. It is generally asserted that Jordan Valley is for Ontario to a unit. Even people from the other end of the county favor Ontario.

The meeting Thursday is good evidence.

## DEATH OF AN OREGON PIONEER OF 1862

PHILIP THOMAS SHARP.

THE DALLES, Or., Nov. 24.-Philip Thomas Sharp, who died at his home near here. November 14, was a California pioneer, and a conspicuous figure in the settlement of Eastern Oregon during the early '60s. Born in Ogdensburg, N. Y., he moved, when young, to Ohlo, whence he and his two brothers, attracted by the Western gold discoveries, started across the plains, reaching California in 1849, where they engaged in mining until 1862. In this year he married Miss Mary Howland, of Shasta County, with whom he moved to Oregon, immediately engaging in freight transportation business, first for the Oregon Steam Navigation Company, and later on his own account. He established the first pack train from The Dalles to Canyon City. Settling in Grant County, Mr. Sharp became a prominent business man of that locality, conducting a general merchandise store at Canyon City and superintending an extended pack-train traffic to and from The Dalles and other trading points. Attacks from hostile Indians were a continual menace to packers in those days, and Mr. Sharp carried the marks of more than one wound received in these skirmishes. In 1874 he moved to Wasco County, settling on his Three-Mile ranch, near this city, where he resided up to the time of his death. Four children-Edward F. Sharp, of this city; William H. Sharp, of Five-Mile; Frank H. Sharp, now residing in the East, and Mrs. Grace Gordon, of Portland-survive him. Mrs. Sharp died here in 1893,

friendship there must be equality. There should not be distrust, or envy, or jeal-ousy. These infelicities are fatal flaws, ousy. One may be keen-eyed to discern a friend's weakness, and sincerely compansionate over a friend's errors, but unless asked, and then very sparingly, one will not tell a friend her faults, nor in any emergency will a truly loving and noble friend discuss the folbles and defects of her friend with a third person. Here obtains the rule of noblesse oblige.
