A LESSON TAUGHT BY THE CROWDS

NOT THE \$5.00 RATE GENEROUSLY GIVEN FOR ALL DISEASES

But the Skill and Faith and Fame of the Practice Account for the Throngs of People and the General Interest .-- Doctor Copeland Gives the \$5 Rate for All Diseases, Medicines Included.

It would be a very simple-minded person who would attempt to account by the f5 rate in and of itself for the crowds thronging the Copeiand offices, for the public interest, for the general grati-tude and for the very avalanche of letters

from sick people. The fact that an institution was giving medical treatment for \$5 a month would certainly account for none of these things. certainly account for none of these things. Of course, sick people like to feed that they are receiving medical care at a small cost, but that is only a minor considera-tion. What sick people want to feel and know, what their loving and anxious families and friends want to feel and know, is that they are receiving the very best medical treatment that can be ob-tained.

the consumptives or to the children. Bad treatment and bad teaching are bad, even if "given free." No, the throngs of patients, the interest and the gratitude are accounted for not by the S5 rate, but by the fact that all these mode know that under this rate the consumptives or to the children. Bad treatment and bad teaching are bad, even if "given free." No, the throngs of patients, the interest and the gratitude are accounted for not by the 5 rate, but by the fact that all these people know that under this rate they are being admitted to the benefits of a practice that has commanded for years the respect of the profession and the public. They know that under this fee, low as it seems, they are obtaining care and treatment that they could not obtain any-where for any fee, high or low. They know that under this opportunity they may be relieved of diseases which no other method of treatment has ever been able to benefit.

best medical treatment that can be ob-tained. If the Copeland practice were a mere a public blessing, an offer of \$5 or an offer of "free treatment," for that matter. Would be received with indifference. If some horse doctor offered to treat-devi himself or some devilish person of tered to teach etiquetts and mathematics to little boys and girls at \$5 a month, it would not imply any great humanity to DISERACES

Porto Rican Contract Laborers.

CHICAGO, Dec. 1.-A special to the Tribuns from New Orients says: Under direction from Washington, the Porto Rican immigrants who arrived here on the Arradia under contract to work on sugar plantations in Hawall were allowed to land, and today took a special train for San Francisco. No restrictions were placed on them, nor were they required to give bond, as Chinamen do when pase

ing through the country. The in migration authorities took the position that Porto Ricans are people of the United States, and therefore not subject to the restrictions placed on foreign immigrants by the immigration law, which shuts out all contract labor.
