New Railroad Plans Trend Will Be Presented to Our
Delegation in New York

In the interest of personal benefit, enthusiasm is
waxing for a railroad to run from Portland to
northeastern Oregon. Many people have been
amused with the reports of the circuitous and
time-consuming railroad plan that now proposes to
run from Portland to the vicinity of the head of
the Columbia River.

An ambitious plan for a railroad to run from
Portland to northeastern Oregon has been
presented to a delegation of the Portland
Railroad Company. This plan is based on the
idea of providing a railroad along the lines of
the Alaska territory. The route chosen is
along the Columbia River and through the
northeastern part of Oregon.

When this project was first suggested, it
was received with some skepticism. But
as more information became available,
people began to see the possibilities of
such a railroad.

The project has been met with
enthusiasm by many people in the
region. They see it as a way to
stimulate the economy and
create jobs.

Some of the concerns are
whether the railroad can
be completed and
operated safely.

In the meantime,
people are looking forward
to the day when
this railroad will
become a reality.
