

TRUBLE IN BALKANS

An Explosion Is Likely to Occur Any Day.

THE MACEDONIAN MOVEMENT

Italian Statesman Accuses Austria-Hungary of Carrying on a Propaganda in Albania.

ROME, June 8.—Signor Guicciardini, the reporter of the budget committee, speaking in the Chamber of Deputies on the Albanian question, said it was, in his opinion, critical, as the movement in Macedonia might precipitate a surprise at any moment. He cited a series of incidents which, he maintained, went to show that a propaganda was carried on in Albania by Austria-Hungary, and asked whether such a propaganda was recognized by the declarations made at Vienna and Rome regarding the maintenance of the status quo, which, in his opinion, was unstable. Other speakers referred to the unrest in the Balkans. These utterances, taken in connection with Count Kolouchowski's recent speech, indicate that the statesmen fear that trouble is imminent in Southeastern Europe.

SECOND DAY OF THE DUEL.

Regis Wounded by Laberdeque and the Affair Stopped.

PARIS, June 8.—The duel with swords which was begun yesterday in the Parc des Princes between Max Regis (the anti-Semite Mayor of Algiers) and M. Laberdeque, an Algerian journalist and which was adjourned after 19 resolute thrusts had been fought, was resumed this morning. M. Regis was seriously wounded in the forearm, a copious flow of blood resulting, and the duel was thereupon stopped.

The duel today lasted only a few seconds. M. Laberdeque, who is a fine swordsman, yesterday confined himself to the defence, but this morning, after half a dozen passes, he lunged and pricked M. Regis in the right forearm. The latter wished to continue the duel, but the seconds refused to let the fight continue. A quarrel then broke out among the seconds and several spectators, which included Malota, a writer on the Aurore; Thomeux Salzbacher and others. Several challenges were exchanged and finally friends succeeded in leading away M. Regis, who was furious over the second's decision. Before he left the ground, M. Regis shouted to M. Laberdeque: "I fought you to show I was not afraid of your sword. You are, nevertheless, an assassin."

INGRATITUDE OF DREYFUS.

His Shameful Treatment of His Lawyer, Labori.

LONDON, June 8.—The visit to England of Maitre Labori, the distinguished French advocate, has developed the fact that the relations between himself and Dreyfus have greatly changed since the Rennes drama. M. Labori's friends say that Dreyfus has treated his "savior" shamefully. They declare that the last time Dreyfus visited Paris he was accompanied by M. Labori, and has in other ways shown what they stigmatize as an utter lack of gratitude. M. Labori does not conceal his appreciation of these circumstances, which he has been declaring in private that Dreyfus was wrongfully convicted, and the slightest suggestion to the contrary is sufficient to send the advocate into a passion. He has denounced Dreyfus's detractors, and whatever may be the personal relations between himself and the prisoner of Devil's Island, he certainly has not lost any ardor in behalf of his famous client.

THE LONDON THEATERS.

Mrs. O'Connor's Play, "The Lady From Texas," Not a Success.

LONDON, June 8.—The theaters generally are not doing much business. Mrs. T. O'Connor's play, "The Lady From Texas," which she has been endeavoring to give her what encouragement they could, as if she failed it would almost break her heart, has not helped her play. "The Lady From Texas" is a play which has been unanimously severely. The production, however, is a triumph for Kitty Cheatham, the American actress, and seldom has a play received such a notice. The play certainly is not a play which the critics disapprove.

BERNHARDT AS ROMEO.

The French Actress May Not Be Able to Master the Part in English.

LONDON, June 8.—Mrs. Sarah Bernhardt informed a representative of the Associated Press that there is still some doubt as to whether she will play Romeo to Maude Adams' Juliet. Her acceptance of the offer was made jokingly, but was taken seriously. Mrs. Bernhardt added: "I would love to play Romeo in English, but I scarcely think I could ever sufficiently master English to do so."

Divorce Decree Rescinded.

LONDON, June 8.—Sir Francis Jeune, president of the High Court of Justice, has rescinded the decree of divorce granted to the Marchioness of Anglesy, November 7 last. The arguments on the application of the rescinding of the decree were heard in Camera.

Boer Lagers Surprised.

CAPE TOWN, June 8.—The British surprised two Boer lagers at different points today. The Colony yesterday night captured 42 prisoners and a quantity of ammunition and supplies. In a railroad wreck near Pretoria, June 7, nine soldiers were killed and many injured.

Not Believed in Vatican Circles.

ROME, June 8.—No credence is given in Vatican circles to the report circulated that the United States Government intends to establish a legation at the Vatican, though this, naturally, would be very agreeable to the Vatican.

Russians Talk on American Goods.

ST. PETERSBURG, June 8.—The Minister of Finance has raised the duty on American bicycles 30 per cent, and on several American resins 20 per cent, the new rates become effective a fortnight from yesterday.

Speech From Spanish Throne.

Beautiful French Girl Incarcerated in a House for 25 Years.

PARIS, June 8.—The sensation of the week has been the arrest of Mme. Monnier, a rich, miserly land owner, living in the neighborhood of Poitiers, and her ex-subject, started naked, and she was anonymously notified of the woman's detention, entered the house and found Mme. Monnier shut up in a room in darkness, lying on a mat, stark naked, and so emaciated that she appeared to be a living skeleton. The room was covered with filth, bones, refuse, food, worms, rats and all kinds of vermin. The unfortunate woman, who had partially lost her reason, was taken to a hospital. It was thought she would die, but she is now improving.

TRAIN WRECK IN KANSAS.

WICHITA, Kan., June 8.—The Frisco passenger train which left here at 1 o'clock for the East was wrecked at Greenwood at 4 o'clock this afternoon, but so far as heard from no one was killed. Conductor E. C. Acres' leg was broken and he was seriously injured. A wrecking train which left here at 5 o'clock carrying physicians has not yet returned. A telegram received here late tonight from the scene of the wreck says that seven persons are very seriously injured. No names have been obtainable so far.

FELL FROM A DOME.

Commander Bull Seriously Hurt at Pan-American Exposition.

BUFFALO, N. Y., June 8.—Commander J. H. Bull, of the United States Navy, in charge of the Hydrographic Service at the Pan-American grounds, fell from the dome of the Government building today. His skull was fractured about the left eye, and one of his legs was broken. The hospital authorities say that, while his injuries are serious, he probably will recover.

Appointments During Recess.

WASHINGTON, June 8.—Representative Mercer, of Nebraska, called at the White House today to ascertain the policy of the President in the matter of reappointment of Postmasters and other Federal officers whose terms expire during the recess of Congress. He learned that generally speaking, where it was the intention of the President to reappoint the present incumbents, the appointments would be held over until after Congress convened. In this way the necessity of filing two bonds will be avoided. In the case of officers having fixed terms, it may be necessary to make the appointments during the recess.

Greene-Gayser Case Again.

NEW YORK, June 8.—Abram J. Rose, counsel for Captain Benjamin Greene, John F. William T. and Edward H. Gayner, accused of conspiracy with ex-Captain Carter, United States Army, to defraud the Government in connection with Southern harbor improvements, made a move today to question the validity of the indictment before the United States Supreme Court. He did this by revoking the bail bonds under which the four men were held for their appearance to stand trial in Savannah, Ga. The men were surrendered to the custody of the United States Marshal, but a few minutes later they were taken before Judge Lacombe on an application for a writ of habeas corpus. The application was denied by the Judge, and Mr. Rose took an appeal. The bonds of the four defendants were then renewed, and they were at once released. The matter will now be taken before the Supreme Court in Washington, but cannot be argued before Fall, as the Supreme Court does not meet until October. The questions at issue are the validity of the indictment of the defendants by the United States Government at Savannah, the drawing of that grand jury and the question of jurisdiction.

CONCESSIONS FROM HONDURAS

Suit to Compel Tracy's Syndicate to Surrender Them.

NEW YORK, June 8.—A hearing was given today in Jersey City in the suit brought in the United States Circuit Court to compel the Honduras Syndicate to surrender concessions obtained from it by the Government of Honduras. General Benjamin F. Tracy, ex-Secretary of the Navy, was examined by Jacob F. Shiphrd, the promoter of the original Honduras Company. It is claimed that General Tracy and others, after receiving the project and plans of the Honduras Company, formed the Honduras Syndicate, and obtained valuable concessions, which should have gone to the Honduras Company. General Tracy said he had been informed that Mr. Shiphrd had dropped out of the enterprise, but that there was no reason why he or others should drop out. Mr. Shiphrd had promised to see him, but failed to do so. Evidently he was connected with the signing of the papers. He thought that Mr. Shiphrd would prefer to have him on the inside. He told his associates in the enterprise that Mr. Shiphrd must be kept from the project, and that the compensation of \$50,000 given to Mr. Shiphrd was extravagant. General Tracy said the relation of counsel never existed between himself and anybody in connection with the Honduras project, and that he was never in Honduras. He said that Mr. Loomis' mind had been created in Mr. Loomis' mind that his relation was that of counsel. After some further testimony in the same line, the hearing was adjourned until next Saturday.

A GOOD MARKET THERE.

Japan Buying Much Railway Material in England.

WASHINGTON, June 8.—The United States is surpassed only by Great Britain in the matter of Japanese imports of machinery, locomotives and other engines, according to a communication received at the State Department from London, June 7, at Yokohama, Great Britain, he says, continues to receive more than half of the money sent out of Japan for these manufactures, while the United States received only one-fourth of the total amount last year. The total amount invested in this class of manufactures by the Japanese last year was \$5,675,546, about one-fifth being for locomotive engines.

BRITISH PACIFIC CABLE.

Preparations Under Way for Laying the Longest Line in the World.

WASHINGTON, June 8.—The State Department is in receipt of information concerning work on the British Pacific cable, which is to connect the Dominion of Canada with the Australian Confederation. The new cable is to be 30,000 miles in length—the longest ever constructed—and will be transported and laid by one ship, which is now being built for the purpose. Consul Abraham Smith, at Victoria, B. C., informs the State Department that a surveying party has located the landing site of the Canadian end of the cable at a point on Kelp Bay, near Banfield Creek. It is about seven miles from the entrance to Barclay Sound, and something over 100 miles from Victoria. The location is reported to have been admirably adapted for the purpose.

May Cause Retaliation.

NEW YORK, June 8.—The Tribune says that some of the leading physicians of this city think that the order issued by T. M. Powderly, Commissioner-General of Immigration, debarbing immigrants affected by tuberculosis of the lungs from entering this country may result in some countries adopting retaliatory measures. They further think that these probable measures may be of such a nature that consumers who might be benefited by a trip abroad may be compelled to stay here, and that the stand taken by this Government in dealing with immigrants having tuberculosis may, moreover, lead to action by states and municipalities, which would practically keep consumptives at home.

Roosevelt Will Visit Colorado.

COLORADO SPRINGS, Colo., June 8.—Vice-President Theodore Roosevelt has promised to visit Colorado Springs in August for the purpose of attending the quarter-centennial of the Jungfrau. He is to be accompanied by Senator Patterson, Governor Orman and Chairman Smith, of the Democratic State Central Committee, urging him to come. He will probably make several speeches. Afterward he will go trout fishing.

Suicide on a Passenger Train.

ALBUQUERQUE, N. M., June 8.—A man, supposed to be Herman S. Johnston of St. Louis Mo., cut his throat with a razor in the doorway of the chair car of a Santa Fe passenger train at Winslow and fell dead. The car was crowded, and several ladies fainted. A returning soldier from the Philippines, driven crazy by the sight, leaped from the car window and ran across the rails a long distance before being overtaken.

Cold June Weather in Iowa.

FATE OF MAJOR CHARLES M. ROCKEFELLER IN LUZON.

DIED, DID NOT KILL HIMSELF

The News Was Received From a Ninth Infantry Man, a Captive in the Filipino Camp at Tarlac.

SYRACUSE, N. Y., June 8.—A letter from Paul J. Spillane, of the Ninth Infantry, stationed in the Philippines, has been received by a friend in Watertown. It states that while Spillane was a prisoner of the Filipinos at Tarlac, he learned from insurgent officers the fate of Major Rockefeller, whose mysterious disappearance early in the war has puzzled the American Army. Major Rockefeller, according to the Filipinos, was taken prisoner and held in captivity. Spillane says that the story of the Major's suicide, after learning that he had killed his own son in battle, is untrue, as Rockefeller was in no engagements.

A PROLONGED STRIKE.

Mechanists' Union Accepts Employers' Challenge.

TORONTO, Ont., June 8.—The International Machinists' Association today passed a resolution to the effect that after due consideration, we accept the challenge of the National Metal Trades Association, and after accepting this declaration of war we cheerfully pick up the gauntlet and hurl it back in defiance. We never will accept modification of our demands and resume labor until the cause for which we struggle is triumphant and a shorter workday is an accomplished fact.

Their Demands Granted.

LIMA, O., June 8.—The striking machinists in the Lake Erie & Western Railroad have been granted a 10 per cent increase. This includes helpers, blacksmiths and boiler-makers.
