COMMERCIAL AND FINANCIAL

week, brought with it much activity in business. Merchants all reported a large trade both in city and country, larger trade both in city and country, larger than in corresponding weeks of any year. talls, \$1 5062; two-pound talls, \$2 2562 30; These conditions have a true reflector in beavy bank clearings. beavy bank clearings.

Wool in Eastern Oregon has livened up lately, but Willamette Valley has been relatively dull. Large sales are recorded at Pendleton, Baker City, Shaniko and places in Eastern Washington at prices ranging from 9 to 11 cents. A sale of 175,000 pounds at 914 cents at Baker City by a single holder is regarded to be in-dicative of an easing-up disposition on the part of growers. The new crop and the prospect of having to sustain its ad-ditional weight is taken as the immediate

The present time is the intermission between the wheat seasons, so that little is doing in the cereal. Freights have been stationary, with signs of further steadiness. Salmon, which has hitherto been an important product, apparently will not cut a large figure in the yearly sum of busi-

All fruits are backward this year, eslast week. The San Francisco market has declined in the past few days, but this has had no effect at Portland, because Oregon has awakened to the fact that it per pound, has hardly enough for its own needs. Dealers were perhaps too eager to export and may have to import new product from California.

Eggs have slightly lessened in receipts and consumption has picked up a little. Butter is at best quality and continues to go into storage. Prices are firm and immediate rise is not looked for by most dealers. Store butter has been a little dull on account of lessened demand from California. Tillamook cheesemakers are coming around to the demand of dealers and are beginning to send in their product.

Domestic vegetables are now in full supply in all varieties of the season. Produce from San Francisco will arrive by steamer today. Oats and barley are firm,

Dealers had a hard tussie with poultry all week. The market was glutted and all prices took a slump. Spring chickens had the best sale. Ducks, goese and turkeys had almost no buyers. Veal was improved over the preceding week, but bogs and sheep were a little slow.

WHEAT-The first week in June has brought out little comfort to those who were expecting higher prices for wheat, If all reports are to be accepted at face value, this country is about to harvest a record-breaking crop, which will enable it to offset in a large degree the shortages reported elsewhere. It is not yet too late for considerable damage to the Spring wheat crop, and for this reason the market for some time yet will be governed largely by the weather. Old wheat has been so thoroughly cleaned out of the country that there is not much business doing at the present time. So far as known, everything under engagement for old crop loading has been fairly well pro-vided for, and this leaves the market in the hands of the millers. Export values for Walla Walla are about 50 cents to 60 cents, according to the rate asked for ships. This is about 1½ cents above the San Francisco price for No. 1 shipping. which shows Portland to be a better mar-ket than the California port.

Freights are inactive at about 41s 3d. and the uncertainty as to what steamers will do is preventing any more chartering until the crop is nearer a certainty. The foreign demand for flour is at very low ebb, and this enables the millers to maintain a more independent position in the scramble for wheat than would be possible if they were compelled to keep the mills grinding. The condition of the growing crop in the Pacific Northwest continues excellent, and with an increased acreage East of the mountains and a splendid outlook in the Valley, the chances are certainly in favor of a bumper crop if all goes well until harvest, The California wheat market is weak, un-der the influence of a big crop and high freights. As to conditions the San Franimercial News, under date of

"In California the weather during the week has been favorable-cool during the first half, and later warm and sunny, producing rapid growth. In some sections of the Sacramento Valley the heaviest yield for the past seven or eight years is expected, while the valley, as a whole, will produce considerably more than the average. In the San Joaquin Valley the crop will be fully up to the average. All through the Santa Clera average. All through the Santa Clara Valley, from Monterey, San Benito and San Luis Obispo Counties, come reports of a large crop of good quality."

Chicago Grain and Provisions. CHICAGO, June &-Bears in the wheat pit had the better of the news before the beginning of the session, and July wheat opened 42%c lower, at 73c, on heavy throughout Kansas and Oklahom where moisture was badly needed. The impression created was that the Kansas crop would be about equal to last year's. The rains, with somewhat lower cables pressure to sell was not general, as the better crop prospects appeared to war-rant, and this feeling of reluctance was supported by later reports that possibly the Kansas rains would interfere with reaction in the price to 73%c. The market fluctuated narrowly and gave evider considerable bull support, and there was also a fair campaign of profit-taking, July wheat closed firm and 46%c to

Corn was steady over a narrow range of prices, with business chiefly of a speculative character . July closed 14814c lower, at 4814614314c. Oats were active and fairly steady. July

unchanged at 25%c.

The good demand for lard was the mainstay of the provision market. July pork, lard and ribs each closed 2%c im-

Walla, 29s 6d; English country markets, item. The effect of this increase was shown in a corresponding rise in depos-its, and as this in turn necessitated a very much larger reserve, the excess sur plus suffered a decline of about \$8,000,000, the loss of nearly \$3,000,000 in cash holdings having been an appreciable factor in this respect. The present excess stands at \$12,341,500, as against \$21,253,050 for the preceding week. The decline is equivalent, therefore, to \$7 per cent, which for lent, therefore, to \$7 per cent, which for one week's operation is unusually large. The increase in the loan item can be attributed in part to Union Pacific convertible bond operations, which called for heavy accommodations during the week, and the fact that one bank which had a great deal to do with the transaction reported an increase in loans of about \$8.000,000 strengthens this theory. In ad-dition, however, it is known that commission houses have been borrowing heavily, especially on long time, and this also assisted in swelling the volume of

outstanding loans. With reference to loss in cash of \$2,981,... 400, it is to be remembered that the statement of the banks for the previous week accounted for only about half the gold taken for export, and the remainder probably shows in the present exhibit. The cash totals are still nearly \$1,000,000 at variance with known operations for the week, but this is attributed to the the week, but this is attributed to the misleading system of averages on which the stafement is compiled. It is worthy of note that a discrepancy of about \$10,000,000 now exists between the clearing-house statements and the most accurate preliminary statistics based known operations extending over a period of three or four weeks, and the assumption that the condition of the banks from a cash standpoint is better than shown in the present statement is not warranted. The excess surplus, how ever, is large enough at this time to min. imize the effect of the heavy changes noted, and it is not regarded as likely that money quotations will show material fluctuations. Advices from important centers are to the effect that difficulty is experienced in holding rates at their

The statement of the associated banks for the week ending June 8 shows: Loans, \$887,599,100: increase, \$21,684,400. Deposits, \$972,118,800; increase, \$19,720,600 Circulation, \$30,933,400; decrease, \$160,000 Legal tenders, \$77,341,500; decrease, \$821,

Saturday is Cleaning Day in Holland

Mary A. Pixotto in Scribner's.

Mary A. Pixotto in Scribner's, But it was generally understood that our models would not pose on Saturday, that day being exclusively devoted to housecleaning within and without. Early

in the morning every stick of furniture is carefully rubbed and wiped and taken

out of the house. Then the women, with their skirts tucked up, entirely flood the rooms with bucket after bucket of water,

brought up from the canal by means of the shoulder yoke. With broom and brush they source and scrub the red-tiled floor,

and finally pull up a plug in one corner to let the water out-let us hope into the canal.

While the floor is drying a great pol-

ishing goes on in the street. Quaint old brass lamps and candlesticks, tobacco boxes and ash trays, buge milk cans-all

are burnished until, like golden mirrors, they reflect the red-cheeked, white-capped

The lacquer man is busy on Saturday. He goes from house to house painting the

roof to pavement, and every trace of mold

removed, for in this low, wet air the green moss gathers quickly. Then the brick

pavements are drenched and carefully

dried, and I have even seen the women slip off their sabots and tiptoe to their

doorways in their woolen chaussons, so

LONDON, June 8.—Atchison, 88%; Canadian Pacific, 107%; Union Pacific preferred, 32%; Northern Pacific preferred, 101; Grand Trunk, 11%; Anaconda, 2%. MORGAN'S BIG SCHEME.

Plans an International Bank to Have

a Capital of \$1,000,000,000. NEW YORK, June 8.-According to the London correspondent of the World, it is reported there that J. Pierpont Morgan is engaged in arranging for the establish-ment of a great Anglo-American bank, with a capital of \$1,000,000,000.

It is said that it is proposed to abolish all of the principal financial agencies and banks already engaged in Anglo-American business. The proposed institution, it is said, is intended to be the principal agency for

the already vast and rapidly growing banking transactions between Europe and America Mr. Morgan is understood to have asso-Air. Morgan is understood to have asso-ciated with him in the stupendous under-taking not only the principal capitalists who aided in the organization of the United States Steel Corporation, but also

the Rothschilds.

Locally, the World says; "Several times since the panic of May it has been reported in Wall street that Mr. Morgan intended to organize a bank with \$100,000,000 capital. These reports have been invariably denied at the office of J. P. Morgan & Co. The creation of a bank with a capitalization of \$1,000,000,000 is an undertaking of a nature so coloasal that nothing approaching it has ever been hinted at before. The aggregate of the capitalization of the 64 national banks in Greater New York is barely \$100,000,000. and flowers, I'wo banks only are capitalized at \$10 000,000 each—the National City and the when order is partially restored and the National Bank of Commerce. The great—scanty midday meal is partiaken of. In the 000,000 each—the National City and the National Bank of Commerce. The great scanty midday meal is partished of an interest bank in the world—the Bank of Eng. afternoon washing is resumed. The exest bank in the world—the Bank of Eng. afternoon washing is resumed. The exest bank in the world—the Bank of Eng. afternoon washing is resumed. The exest bank in the world—the Bank of Eng. afternoon washing is resumed. The exest bank in the world—the Bank of Eng. afternoon washing is resumed. fand—has a capital of £14,553,000 sterling, or about \$72,765,000. The Bank of France has a capital of 182,500,000 france, or about \$26,500,000. The combined capitalizations of the Bank of France, the Deutsche Bank of Berlin, the Bank of England and the Banque Imperiale Ottomans, the government bank of Turkey, falls fur

short of \$1,000,000,000. "When it was reported last month that Mr. Morgan intended to organize a bank in this city with a capital of \$100,000,000, the project was declared to be impracti-cable by conservative banking men because of the National banking laws, which impose a tax upon the capitalization of

"August Belmont, the New York representative of the Rothschilds, who, according to the London dispatch, are a clated with Mr. Morgan in the vast banking scheme, is not at his home in Hemp-stead, L. I., and nothing could be learned in New York City concerning the rumored

organization of the mammoth bank." Bank Clearings.
