CITY NEWS IN BRIEF

Amusements Tonight.

CORDRAY'S THEATER—Cummings Stock Co. in "Woman Against Woman."

SON MENTIONED TO SUCCEED FATHER.—According to the city charter, the Common Council is empowered to select a successor for the late A. F. Nichols, who was Councilman of the Tenth Ward. The subject will come up before the Council at its meeting Wednesday of this week. The only name mentioned for the place so far is that of Frank A. Nichols, son of the deceased, who is a druggist of Upper Albina. The Councilmen present at the City Hall yesterday afternoon favored the young man, and thought his selection would be a fitting tribute to a worthy and honorable citizen. It is not known whether the son will accept the position if tendered him. Section 22, of the charter, in reference to vacancies in the office of Councilman, says: "In the office of Councilman, by appointment of the Council, to continue until the 1st day of July, after the next general election."

NO MAIL DELIVERY TODAY.—There will be no delivery at the carriers' window at the postoffice today between the hours of 10 and 11 A. M. Those who have been accustomed to draw out their Sunday letters in this way will save themselves considerable trouble, worry and question-asking if they remember that today is the day for the letter-carriers' excursion to Seaside. The men that handle the mail will be given the whole day off, according to the custom in many of the Eastern cities, since the outing comes only once a year. Every Sunday there is an anxious crowd at the carriers' window waiting for letters of business, messages of pleasure and sadness, or dainty billet-doux. Today the crowd will gather around the window in vain, if they do, and the suspense will not be broken until Monday morning.

TAX ON MONEY ORDERS TAKEN OFF.—The announcement was made yesterday by Assistant Postmaster Matthews that after July 1 the war tax of 2 cents on each money order would be taken off. Instructions to that effect have been received from Washington, D. C., by the Portland postoffice. This reduction will amount to a great deal in the course of a month, and will be welcomed by people who make a regular habit of purchasing orders from the Government. There was no inconvenience, however, in the collection of the tax by the Government, as the amount was calculated directly in the price of the orders, and stamps were not affixed to the orders.

FEW CALLS FOR AID.—The City Board of Charities is not troubled much with transient men seeking aid these days, as work is abundant, and there is no excuse for a healthy man being hard up. Considerable help is being afforded women and children all the time, however, as some of these have been deserted by their lawful supporters, while others are unfortunate in the management of their affairs, and so need temporary assistance. The secretary thinks he has easy times now, compared to a few years ago, when he had Coxey's Army to take care of for a period of four months.

IMPROVING SECOND STREET.—Smyth & Howard have kept a force of men busy on Second street, south of Morrison, the past week, sawing off the ends of sidewalk planks, in order to make room for the cement curb to be laid previous to paving the street with wood blocks. The old Belgian blocks, forming the gutter on each side, have been torn up, and the task of leveling for the macadam bed will be commenced this week. The improvement involves a distance of five blocks, to Madison street, and will add materially to the appearance and utility of that important thoroughfare.

NO CHEAP STRAWBERRIES.—Housewives who have waited this season for cheap strawberries for putting up have thus far been disappointed, as first-class berries have been no lower than 5 cents a box. In former years the fruit usually got down to 2 or 3 cents, and then the canning and bottling would go on by wholesale. Local canneries now take all the surplus, and so strawberries are no longer a drug on the market. The strawberry season is now slowly drawing to a close and so berries will get no cheaper in 1901.

SOCIETY LINNEA.—The Society Linnea has elected officers for the ensuing six months as follows: Erik Nelson, chairman; Ida Wilson, vice-president; Tilda Holm, recording secretary; Samuel Holm, financial secretary; E. Helmer, treasurer; Carrie Olson, master of ceremonies; Ingrid Swanson, librarian; Andrew Johnson, deputy librarian, and Gustav Anderson, trustee to serve 18 months. Installation of the newly-elected officers will be held next Friday evening.

NO QUORUM.—Yesterday afternoon was the regular meeting time of the street committee and health and police committee of the City Council. Owing to the nonappearance of a sufficient number of members to form a quorum, no meeting was held. The committee will probably get together tomorrow afternoon at 3 o'clock, when the usual routine business previous to the regular Council meeting will be transacted.

WORK BEGUN.—Men and teams have begun the work of excavating at the southwest corner of Sixth and Hoyt streets for a business structure to be erected for Clossett & Werlein. The building will be a two-story frame, with stone basement, and have a frontage of 100 feet on Sixth street, by 50 on Hoyt. Four stores will front to the eastward and the upper story will be used for offices or rooms.

WHY NOT spend the vacation at Yaquina Bay, where can be had excellent fare, good fishing, good boating, safe bathing, alluring rides and rambles? The courses and exercises of the Summer School of 1901 at Newport will afford great variety of instruction, diversion and entertainment. No other resort offers equal attractions and advantages. *

THE most popular Coast resort is Flavel, and this is without question. Although having over 100 rooms, this beautiful and comfortable palace will be crowded with a select set of patrons; even at this time there is a scramble for the choice rooms. Hotel Flavel was constructed and furnished at a cost of over $150,000, it is beautifully situated, and the management this year is sparing neither pains nor expense in making it the most famous coast resort north of Monterey, Cal. Music each evening by paid orchestra; dancing parties for guests and invited friends twice each week; lawn tennis; croquet grounds; shady nooks with finest hammocks; billiard parties; bowling parties; riding, driving, boating and launch parties; fishing grounds; clam digging; crab gathering and excellent bathing grounds are some of the diversions of the place. The dining-room this year will be given special attention by Colonel Harvey; sea food of every kind each meal. This hotel is easy to reach; first resort out of Portland on Astoria & Columbia River Railway; boats land in front of hotel. Long distance telephone in office; every convenience. For rates and reservations, address Hotel Flavel, Flavel, Or., or J. L. Mitchell, secretary, 615 Marquam building, Portland, Or. Phone Main 642. *

POPULAR SUMMER SEASIDE SCHEDULE, re-established by the Astoria & Columbia River Railroad: Beginning Saturday, July 6, and every Saturday thereafter during the Summer season, the popular Portland-Seaside express will leave Union Depot, Portland, at 2:30 P. M., and run through direct, arriving at Astoria at 5:50 P. M.; Gearhart Park, 6:40 P. M., and Seaside, 6:50 P. M., making direct connection at Astoria with the steamer T. J. Potter for all North Beach points. Beginning same date the morning train, leaving Portland daily at 8 A. M., will run through to Gearhart and Seaside without change of cars, making direct connections at Astoria with steamer Potter for North Beach points, and the evening train, leaving Portland daily at 7 P. M., will enable passengers to make connection the following morning with train leaving Astoria at 8:15 A. M. for Clatsop Beach points, and with steamer Nahcotta, leaving Astoria early in the morning daily for North Beach Points. *

MONSTER CARP.—A carp weighing 18 pounds, and looking big enough to weigh twice as much, was caught at the foot of Stark street yesterday by Petries Banamo, a Greek, whose name, being translated into English, is plain Peter Brown. The carp was caught with a small hook and line such as one used in fishing for pike and chubs, and a piece of half-boiled potato for bait. He ran out 200 feet of line before he could be checked and broke the line as he was being hauled into the boat, but Brown did not let him get away. The carp was of the golden variety, having scales all over the body. These scales are nearly square and are an inch in length and width. Brown, who lives on a scow at the foot of Stark street and fishes for a living, says he has seen but one larger carp. He asked 60 cents for his catch, said it was worth 75 cents, but finally accepted 50 cents for it. If two or three carp of 20 pounds or so could be secured they might be worth sending to Buffalo.

FOR THE BEACHES.—Tickets are now on sale at the A. & C. Railroad ticket office, 255 Morrison street, and Union Depot, Portland, to all points on Clatsop Beach, via rail direct, and to all beach points on the I. R. & N. Co., via the A. & C. R. to Astoria and steamer and rail from Astoria, at the popular beach rate of $4 for the round trip. All excursion tickets issued by the O. R. & N. Co., Vancouver Transportation Co., and Columbia River & Puget Sound Navigation Co., from Portland to Clatsop and North Beaches, will be good to return from Astoria on the trains of the A. & C. R. R. Passengers desiring to return by rail from North Beach points should take the steamer Nahcotta, leaving Ilwaco in the afternoon; passengers going to North Beach points via rail to Astoria can cross the bay from Astoria on the steamer Nahcotta in the morning or the steamer T. J. Potter in the afternoon, the latter steamer touching Astoria daily on her down trip. *

OREGON HUMANE SOCIETY.—This society, which stands for the protection of dumb animals, and which has been supported in its good and beneficent work for more than 20 years by a few persons, through a resolution of its board of directors on June 12 is now to begin an active effort to secure members, in order that its usefulness may be largely increased. To this end, W. G. Ballard, an Oregon pioneer of 1852, has been secured to canvass the city, and it is hoped that the citizens will give him a reception in keeping with the importance of the work he is to assist in promoting.

RECEPTION TO DR. AND MRS. LORD.—The John Burroughs Bird Society will give a reception to Mr. and Mrs. William R. Lord next Tuesday evening in the Unitarian Church. Mr. Lord, the founder of the society and author of the first book upon the birds of Oregon, is about to leave Portland, to make his home in the East. Friends and lovers of birds are invited to attend.

NEW VARIETY OF STRAWBERRY.—A new variety of strawberry has been "invented" by the resourceful Mr. Magoon. It is a cross between the Timbrel and the champion of champions in the berry line, the Magoon. The new berry is of the same size as the Timbrel, which is the parent stock, and has a delicate flavor. It has not yet been named.

MANY are going to Flavel this year; the best families of Portland are being booked. Hotel complete in every department. Clubhouse especially attractive and in charge of Mr. White, of Portland Hotel bar. Flavel is booming; it's grand, and it's the place for rest and for comfort. *

WANTED IN SAN FRANCISCO.—George Beecher, alias Brooks, who was arrested Friday night with jewelry in his possession, for which he could not satisfactorily account, is being held to await the instructions of Chief of Police Sullivan, of San Francisco, who states that Beecher, otherwise known as Russell, is wanted in San Francisco for grand larceny. "I do not know on what charge I am arrested," said Beecher last night. "The jewelry I had when I was arrested was given me by my girl, who lives in Denver, Colo. I am a waiter by trade and worked four months in a San Francisco restaurant, but I know nothing of a charge of grand larceny against me by a Mrs. Amy Johnston, of that city. I come from Troy, N. Y., and my brother-in-law is a Police Commissioner in a New York town."

BISHOP SCOTT ACADEMY.—Professor A. C. Newell, one of the best-known of Western educators, who now has charge of the Bishop Scott Academy, is meeting with gratifying success in his efforts to extend the usefulness of the school. The institution was never in better condition than it is at present, and its prospects were never brighter. The next term will open with a large attendance and the students will be guided by a numerous faculty of able instructors. Professor Newell fully appreciates the educational needs of this region. He will make the Bishop Scott Academy more useful than ever.

ADVANCEMENT.

An Extract From America's Great Music Paper.

"For many years," says the editor of the Musical Courier, in speaking of the progress made by the great house of Vose & Sons of Boston, "For many years those upon whom has devolved the conduct of the Vose business have ever had before them the one word, advancement. Year after year the standard of the piano has been raised; its qualities have been improved. One of the distinguishing excellences of the Vose piano is its tone. It is easy to identify a Vose piano by its tone. The Biblical truth—'by their fruits ye shall know them'—might be paraphrased to apply to pianos, and made to read: 'By their tone ye shall know them.' The name Vose was never before so prominent in the musical world; it never meant so much as it now means."

Do not fail to see the introductory display of the 1901 sample Vose pianos tomorrow at Eilers Piano House, in the New Music block, entrance 351 Washington street, Portland, Or.

OSTEOPATHY

The brain is the great power-house; the spinal cord is the underground cable, the cranial nerves are the overhead wires, and the spinal and sympathetic nerves are the distributing lines for the nerve currents. All power is supplied from the brain to every part of the body. The nerves are conducting lines for distributing this power. The bones, the muscles and organs are the machinery to be run. The arteries carry the materials of nutrition. The veins carry the return blood and the waste matter. All these tracts must be kept open. Any obstruction to nerve force or flow of fluids will cause disease. The osteopath finds these obstructions and removes them. Is your case a puzzle to your family physician? It costs you nothing to consult Dr. L. B. Smith, a graduate of the American School of Osteopathy. Examination at your home by appointment.
