CITY NEWS IN BRIEF

THE DISTRIBUTION OF 50,000 COPIES .-There is often much careiess talk indulged in by the uninitiated regarding the mised distribution of some special publication, of which its promoters may have guaranteed an edition ranging all the way from 25,000 to 100,000 copies. In speaking of this matter several days ago, Mr. A. L. Craig, general passenger agent of the Oregon Railroad & Navigation Company, said: "With all the facilities our road, with its numerous ramifications, enjoys for making a wide distribution of valuable printed matter, I doubt my ability to find addresses to which I could send 19,000 copies of any publication with profit. A list of 5000 names, even, would be exceedingly hard to compile. When The Oregonian tells me that it will publish an edition of 50,600 copies of any special issue, I know that the entire edition will be sold and distributed to the best advantage The Oregonian, in my mind, is fully warranted, from valuable experience gained, in giving an assurance to the public regarding the promised distribution of any special publication which may be published over the name of the paper itself, however large the edition which the publishers may feel justified in printing." The small pocket handbook commemora. tive of the Lewis and Clark Centennial, which The Oregonian will publish some time in September next, will possess merit In its general attractiveness, in the ability of its leading articles, in the reliability of its statements, and in the handsome appearance of its numerous illustrations, that will commend it to the careful attention of anybody to whose notice it may be called. The publication of the first edition of 50,000 copies has already been contracted for. All the work of printing will be done in Portland. The price of the book to any address in the United States or Canada, postage prepaid, will be 7

BULGE IN WOOD BLOCK PAVEMENT.-The new wood block pavement on the north-west corner of Fourth and Yamhill streets swelled yesterday until it resembled the dome of a Courthouse. Then the top burst and a portion of the pavement settled sgain, though the greater part per-sists in standing aloof from its concrete bed. Laboring men employed in mixing morter for the new Y. M. C. A. building used the new pavement as a morter bed, hence the abnormal swelling, as the blocks were dry when they were not down about were dry when they were put down, about a week ago. If a rain had fallen on the new work, the swelling would have been more general, in the opinion of those in-terested. The blocks were set on the sand cushion, which rests on the concrete foundation, and then more sand was sifted in between the crevices. Some property-own. ers think lath or thin boards should be used to keep the rows of blocks apart and then fine gravel thrown in between.

CLEAR UP OAK POINT,-Oak Point, at City View Park, will be cleared up under the direction of the Sellwood Sub-Board of Trade. At the meeting Friday evening the improvement committee was auhorized to proceed with the work. Oak Point is an elevated peninsula projecting into the Willamette River. It is partly covered with oak trees. There is much underbrush on part of the ground, and it is this that will be cut away. To show the hearty of City View Park and its the beauty of City View Park and its possible waterways the board considers it necessary that the point should be im-proved. The work will be started at once, permission having been obtained from the lessee of the property. No eak

ALL GOT THEIR MONEY'S WORTH .- JUStice Vreeland yesterday decided the case of W. H. Findley against N. T. Henton, to replevin a buggy and recover \$50 damages. Professor Reid was to have lectured here last week, but owing to the difficulties he encoun-tered on Mount Rainier he will not be able to return before the middle of the week, after which announcement will be made.

APOLOGIEED AT REVOLVER'S MUZELE. For a fancied insult to Mrs. James Scott, in a hotel on Fourteenth street, near Sain a hotel on Fourteenth street, near Savier, the woman's husband, James Scott, compelled G. W. Huriburt to apoldgize at the point of a pistol. Huriburt has caused Scott's arrest on a charge of assault and battery. Scott has filed a counter charge against Hurlburt, but the latter cannot be found. Hurlburt got the ear of the police first, and he said that not content with receiving his apology for any discourtesy offered Mrs. Scott, the trate husband had thrashed him. So Scott was arrested, but no sconer had Scott reached the police station than he unfolded a tale of assault against Hurlburt. The latter, however and had packed his trunk and has no been seen around the neighborhood since. Scott says that he took Hurlburt in when Hurlburt was unemployed and cared for him as if he had been his own brother. MADE TROUBLE AT THE POOR FARM .-

Mrs. Jane Bestine, also known around Whitechapel as Mrs. Brown, will face Mu-nicipal Judge Cameron tomorrow for visiting the county poor farm Friday and threatening to kill the matron and her own daughter. The girl was taken to the poor farm after enduring privation around Second and Couch streets, and when Officer Hawley, of the Boys' and Girls' Ald Society, found her, he said she was afflicted with a disease difficult to The child was taken to the poor farm for treatment, and Mrs. Bestine en-dured the separation until Friday, when her wrath reached the boiling point and ahe isid siege to the farm, demanding her daughter. She scratched the matron's face and made threats against Officer Hawley, if she could get hold of him. She was arrested when she returned to the city, after the police got a telephone mes sage of her doings at the poor farm,

RAISED A ROW AT HIS SWEETHEART'S Home.-A tale of true love that has no run smoothly was investigated yesterday by Municipal Judge Cameron, John Sweeney was charged with creating a disturb-ance at his sweetheart's home, at Seventh and Couch streets. The evidence was that Sweeney has been paying Miss Amelia Earle, 17 years old, attention for some time past, and that while the girl smiled on his suit, her father did not and re-fused him admittance into the house when he called last Friday night. Sweeney promptly smashed in the door and prom-ised to make matters interesting for his prospective father-in-law, when Police. man Gibson and Bailey arrived and es-corted Sweeney and Amelia to the police station. Sweeney was locked up, but the girl was permitted to go on her mother's promise to take care of her. Sweeney was released on \$20 ball for a hearing tomor-

COIN FOUND IN AN EXCAVATION.-While Con Found in an Excavation.—While workmen were excavating yesterday at the northeast corner of Twelfth and Taylor streets, they were surprised to come across sliver coin buried in the earth. Children in the neighborhood joined in the search, and some of them were fairly successful in getting some of the buried coin. In a very short time the lot looked as if a thousand hens had been at work, and hardly a yard of even soil was visible. and hardly a yard of even sell was visible.

termed a "trust." It is not altogether improbable that such a combine will soon in Boston, under the auspices of Messrs. Chickering & Sons, the pioneer American come into existence. If it does, it will

come into existence. If it does, it will mean higher prices, the same as it has meant higher prices in every other industry.

It is a well-known fact that good planos are being sold in Portland today for less money than is obtained for them in any other district in the United States. Eilers Plano House up-to-date methods have accomplished this result. Eilers Plano House will always continue to be the "big profit-killer" of the Western plano and organ business, and will employ every legitimate means of bringing the pianoforte within the reach of every Western home. piano manufacturers, an exhibition of ex-traordinary interest. It is proposed to demonstrate the century's progress in pianoforte making, and the development of musical matters generally.

In the meantime Messrs Chickering & Sons wish to obtain good specimens of every style and type of plano representing different periods of the last century,

and they offer, therefore, for such in-struments unusual prices in taking them in exchange for new planos.

Messrs. Chickering & Song will also be very grateful for any offers to lend them instruments of whatever nature, or mu-sical matter having an unusual or hishome.

But if the combination of piano manufacturers is consummated, we will not be able to buy pianos so low as heretofore, and this means higher retail or seiling

toric interest, and for any suggestion that will enable them to carry out the scheme in the most complete, interesting and in-structive manner.
