THE SUNDAY OREGONIAN, PORTLAND, NOVEMBER 17, 1901.

COMMERCIAL AND FINANCIAL NEWS

Portland bank clearings for the week ending yesterday were the largest on record, and reflect the highly satisfac-tory condition of business in this city. Haavy wheat seiling is responsible for a large portion of the lively business now in evidence, but there are a number of other contributing factors of no mean importance. More hops have been sold during the week than in any similar period this season, and fruit, potatoes, onlone and smaller farm and dairy prodending yesterday were the largest on tory condition of business in this city. Heavy wheat seiling is responsible for a large portion of the lively business now In evidence, but there are a number of other contributing factors of no mean Importance. More hops have been sold during the week than in any similar period this season, and fruit, potatoes, onlone and smaller farm and dairy prodnets swell the total amount of collateral available for trade purposes to big proportions. The lumber business is still booming, and is limited only by the transportation facilities. The car shortage has been remedied to a considerable extent, and is helping out sumber-shippers

There was a general clean-up made of poultry on Front street yesterday, and some ordinary stock was sold very cheap. With so much of the common stock offering, better grades were naturally affected to a considerable extent, and, the average run of prices yesterday was much below that of the day previous. Onions and potatoes both held firm yesterday, best grades of the former moving freely at \$2 per cental, while potatoes wore selling over a range of fic to \$1 per sack. The grocery markets were steady, with no change of importance. An ex. cellent trade is reported in seasonable Oct. 25 Sirene staples in all lines. A shortage of tank cars has caused a temporary shortage of gasoline in this city, and the market for Aug. 3Lord Shaftesbury this commodity is in good shape for cornering.
