

### GREAT GERMAN SUGAR TRUST.

#### The "Kartell" Responsible for the Bearing Down of Prices.

LONDON, Nov. 23.-The British sugar magnates assert that their investigations have revealed the existence in Germany of a great trust culled the "Kartell," which has been in existence about a year, and that it is chiefly owing to its agen-cy that sugar has been forced down in ry that sugar has been forced down in England, and other countries to the low-est point in the history of the industry that Germany today is enabled to dictate to the world the price of that commodity. The exact extent of the "Kartell" was resolution approving the government's action by a vote of 107 to 87. fliscovered, they say, only quite recently. The magnitude of its operations supplies the missing factors in the present slarm-ing condition of the sugar market.

The abolition of this organization will be one of the chief objects of the Nations other than Germany attending the forth-Specimens of Robes to Be Worn coming Brussels conference. Aiready British firms have entered into negotia-tions with leading American sugar inter-ests and tables are now being drawn up LONDON, Nov. 22.-Active preparations are on foot for the coronation of King Edward. The Duke of Norfolk, horediests and tables are now being drawn up showing the transactions of the "Karteil" with a view of submitting them to the authorities at Washington. The British Government will be urged to empower its representatives at the Brussels Confer-ences to threaten retailatory and counter-valling measures until the "Karteil" is broken up or at least modified. The intest figures available in London show that Germany now produces onetary grand marshal and premier Duke and Earl, this morning summoned well-known London costume-makers to Narfolk house, where, spread out on wicker frames, were-specimens of the robes to be worn by the peers and peeresses, at the next year's great function. show that Germany now produces one-third of the world's supply of beet sugar, of which she exports no less than 1,250,000 on which she exports no reschant action ions after completely supplying her own population. These exports, which are al-most one-fifth of the world's available supply, are sent out at a loss to German manufacturers, but thanks to the "Kar-tell," plus the bounty, they are able not only to make up for this, but to reap a handeene profit is addition to gaining abhandsome profit, in addition to gaining ab-solute control of the sugar market. The "Karteli" is run very secretly, but

Speaking of the agriculturists alone, but on the whole community, the adoption of effective counter-measures can no longer be dedead, tears ran down the Premier's cheeks, and the slitting of the Chamber layed. One of the bill's essential aims is to was suspended for some minutes in order to allow him to regain his composure. The opposition was led by M. Delyannis, place home agriculture in a more favor-able position by affording it such greater customs protection as will alleviate the disadvantages. Although it is not exwho accused the Ministry of weakness and of being responsible for murder. Vast and noisy crowds surrounded the Chamber of Deputies while the debate was pected that grain imports can be entirely

dispensed with, it is highly desirable to have the permanent home production sufficient for the greater part of the nation's requirements. In any case, the depend-ency of home prices on internal prices will continue. The possibility of feeding the people is being rendered more and more difficult, and this necessity certainiy imposes the obligation to exercise the

greatest caution. Neverthelens, should i be found that this burden is laid on the consuming public the burden must be borne, in order that dangers far more sett-ous to the state shall be avoided.

Respecting commercial treatles with other countries, the government is ready, after the tariff bill is disposed of, to enter in due course into negotiations to these ends with those countries desiring to do so The recessing of the tariff bill will no prevent the country from effecting new ommercial treaties. Notwithstanding the uncertainty of politics and the com-mercial future the tariff bill provides for more severe compensation measures. It is desired that the new tariff becom effective January 1, 1904. As, however

As, however, there is little probability of new com-mercial treaties becoming operative at the same time, desirable as this may be, the bill reserves that the fixing of the date upon which the new tariff shall become effective shall be by imperial decree, with the assent of the Federal Council.

NEW YORK, Nov. 23 .- Referring to the recent articles in the British press favoring an Anglo-Russian understanding, the St. Petersburg correspondent of the Lon-don Times and the New Tork Times quotes an article opposing the suggestion in the Novoe Vremya. This paper builties Great Britain, saying she has fallen greatly from her former high estate, us is shown by her concessions to the United States and Germany. The correspondent draws the moral that Great Britain ought not to sacrifice her in-terests in Persia because of indignant Germany, but rely on herself alone. Then, he says, Russia would be ready to co-operate in finding ways of fulfilling the missions of both countries with the least imposture unworthy of the honor of expossible friction.

LONDON, Nov. 22 -- Literary London is stirred to its depths by a remarkable criticism of the late Robert Louis Ste-

Rosina Brandram, who appeared in its first production, will be a member of the cast. Beerbohm Tree has started rehearsals of Stephen Phillips' "Ulysses," which he regards as the most ambitious production ever at-tempted. The principal parts will be taken by Mrs. James Brown Potter and Lily Hinnburg. Among these who took part inthis week's concerts were Rosa Olitska and Angela Anderson, the Amer-
