Excited Meeting at Paris-Willing to

tin Resigns.

Sell at Any Figure-M. Hu-

PARIS, Dec. 21.-At the meeting of the

figures and declarations contained in the

andatory power to close the discussion by proposing a fixed price. We hope this simple categorical offer will exercise a

favorable influence upon the future ne-

the Army, and M. Bourgeois will replace MM. Hutin and Choron.

holders almost unanimously voted to adopt the proposition set forth in the report,

empowering the board to conclude the sale and concession to the United States of all the Panama Canal Company's prop-

ertics, subject to the limitations specified

canal at any price, in order to save some

of our money," seemed to be the prev-alent feeling and gist of th espeeches

of the shareholders. About 250 sharehold. ers were present, including a number of ladies. In the absence of M. Hutin a

A storm broke out directly after the re-port had been read. The shareholders were greatly excited by the news that M.

Hutin had resigned and demanded explan-ations of what had occurred at the meet-

ing of the board at which he had resigned. The chairman's delay in reply-ing to questions led to vituperations,

which were launched at the heads of the

directors by several shareholders, whose modest attitude indicated that they had

been severe sufferers on account of the Panama failure. Eventually, the proceed-

ings degenerated to such a tumult that

pollcemen were summoned to expel one of the noisiest shareholders, who approached

the directors' table, thumped it with his

fist, yelled at the top of his voice and shook a handful of papers in the face of

the chairman. The intrusion of the po-licemen raised such pandemonium that

they felt compelled to withdraw, and the

ing urged the adoption of the hoard's proposals, as being the shareholders' only sal-vation. One speaker said it was palpably

impossible for the company to finish the

canal, as it could not raise money any-where in France or in the rest of Europe.

He added that a large shareholder, M.

Bunau-Varilla, who had published an appeal to the shareholders and others at the

beginning of the year to contribute funds

to carry on the work, secured promises of only 200,000 francs. Other speakers ap-

pealed to them to cease the tumult, as the moment was decisive in regard to the

Finally the chairman rose and made a statement which soothed his hearers. He

said there was no contradiction in the

resignation of Hutin and the expressions of appreciation of his labors contained in

York Times, has agreed to a bill inflict ing from six days to two months' impris-onment with a fine of from 16 francs to 500 francs on any cyclist or motor car driver who, after causing an accident, attempts to run away.

Riots at Buda Pest. BUDA PEST, Dec. 21 .- Serious riots by anemployed workmen occurred this afternoon, resulting in the arrest of many per-

sons and serious injuries to both the po-lice and rioters. The demonstration was organized by the Social Democrats. Five thousand unemployed men paraded.

TRUSTS DEAD, SAYS SCHWAB

Consolidations, He Declares, Con ducted on Opposite Principles.

CHICAGO, Dec. 21.-In a speech to-night before the Bankers' Club, Charles M. Schwab, president of the United States Steel Corporation, declared that "the trust is a dead business proposition, built the restriction of trade, the increase of prices and the throttling of competition." In distinction from "the trust," he de-clared that consolidation had for its guiding principles the reverse of this trinitythat instead of restricting it expanded trade by creating new avenues and re-ducing the prices of commodities produced. For particulars he discussed the United States Steel Corporation, plead-ing that it was with this consolidation that he was most familiar. Me was the second speaker. W. B. Ridgeley, Controller of the Currency, preceded him, and two others followed him-H, H, Hanna, of Indianapolis, and Professor J.

P. Hugget, of Coe College. "Before a company of bankers it is, of course, unnecessary to defend the principle of consolidation," said Mr. Schwab, "Men in your business are of necessity too well grounded in industrial science to be affected by the timorous advocates of old-line methods or the silly outcry against consolidations as 'trusts.' No one has consolidations as trusts. No one mas a clearer appreciation than myself of the evil that lurked in the trust scheme. I say 'lurked' advisedly, because the trust is a dead business proposition, with which we will never again be troubled. It was an experiment and to that end served its numerous. But it was founded on misconpurpose. But it was founded on miscon-ception and promoted along lines of seif. destruction. Its fundamental principles were the restriction of trade, the increase of prices and the throttling of competition -a trinity that would wreck any proposi tion, business, political or social. The con-solidation, as organized today, has for its guiding line the very opposite of this. Instead of restricting trade it expands trade by creating new avenues and re-ducing the price of the commodities ducing the price of the commodities which it produces. It is enabled to do this because the chief advantage of consolida tion is the reduction in the cost of the articles produced."

CHICAGO'S COAL FAMINE,

Most Serious Aspect of the Shortage Is Passed.

CHICAGO Dec. 21.-Chicago has passed the most serious aspect of the coal short-age, and after Monday manufacturing establishments and big downtown build-ings will be in a better position to fight the possibility of anything approaching a the possibility of anything approximate a famine. The coming of Sunday and the apparent break in the cold spell are the two things that coal men believe will bring about this change in conditions. Tomorrow the great majority of the coal supplies of various plants will remain adjustment of with the peet 45 hours undisturbed, and within the next 48 hours the railroad managers say that they will be able to pour enough soft coal into the be able to pour enough soft coat mis the city to prevent any further shortage. The actual shortage and a scare resulting from it, accompanied by a frantic rush for coal by the owners of office buildings and factories, have combined to disrupt prices and derange the fuel scales worse than at any time during the year. All kinds of prices have been asked and paid within the last two days.

Senator Hoar Still Has a Leaning Toward the Tagals.

IS IT AN EPIDEMIC?

Vital Statistics Show an Alarming Increase in an Already Prevailing Disease-Are Any Exempt?

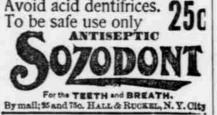

At no time in the history of diseas has there been such an alarming increase in the number of cases of any particular malady as in that of kidney and bladder troubles now preying upon the people of this country.

Yoday we see a relative, a friend or an acquaintance apparently well, and in a few days we may be grieved to learn of their serious illness or sudden death, caused by that fatal type of kidney trouble-Bright's disease. Kidney trouble often becomes ad-

vanced into acute stages before the afflicted is aware of its presence; that is why we read of so many sudden deaths of prominent business and professional men, physicians and others. They have neglected to stop the leak in time.

While scientists are puzzling their brains to find out the cause, each individual can, by a little precaution, avoid the chances of contracting dreaded and dangerous kidney trouble, or eradicate it completely from their system if already afflicted. Many precious lives might have been, and many more can yet be, saved by paying attention to the kidneys.

It is the mission of The Oregonian to efit its readers at every opportunity and therefore we advise all who have any symptoms of kidney or bladder trouble to write today to Dr. Kilmer & Co., Bing-hamton, N. Y., for a free sample bottle of Swamp-Root, the celebrated specific which is having such a great demand and remarkable success in the cure of the most distressing kidney and bladder troubles. With the sample bottle of Swamp-Root will also be sent free a pamphlet and treatise of valuable information.

Review, in advocating a trial of state regulation of vice, declares that "London's streets nightly bear witness not only to state recognition and tolerance of vice, but to ruinous indifference to the course it takes and the manner in which it works.'

WHY DID NINE FAIL?

(Continued from First Page.)

could not be answered by the applicants, and hoped for better luck next time. Dr. O. F. Ireland, who was the fortu-nate one of the 10 to pass the examina-tion, was raised near Monmouth, this state, and attended the Normal School there of forwards motion to the North several causes, but the usual cause is catarrh, the mucus dropping there, afterwards going to the North-western College of Dental Surgery, in down into the throat and Chicago, from which institution he was swallowed. "The examination graduated. hardest I have ever seen," said Dr. Ireland yesterday, "and I am not surprised that so many went down. I was fortu-nate in having had access to the questions submitted by the Minnesota State Board for several years pist, and they are as hard as the ones submitted here.

was one of the earliest workers for dental laws in the state, defended the examin-ations, and in an interview said:

"I do not believe that it is the intention of any member of the State Board of Dental Examiners to make their examinations in any way prohibitory. No doubt they require a more thorough knowledge of the theoretical and practical principles of dental science than ever before. And this is as it should be, for dentistry has so far advanced in its requirements during the past few years that an examination such as was given candidates at that time would today be no adequate test at all of their ability to practice the dentistry of the present time.

"I have seen the list of questions for but

MASTERY OF DISEASE

The Copeland System Now Perfected So That It Includes the Treatment and Cure of All Chronic Diseases at a Price Within the Reach of the Most Slender Purse.

\$5 a Month---All Medicines Free---\$5 a Month

To those unacquainted with the great work carried on at the Copeland Insti-tute the reach and range of that far-famed medical system and its admirable adaptation to the needs of every class of invalids may be indicated by the diver-sity of disease accepted for expert treatment.

The Copeland system includes catarrh and all catarrhal maladies, the treatment and cure of deafness, of asthma and bronchitis, incipient consumption, diseases of the nervous system, the stomach, liver and bowels, rheumatism, kidney diseases, and all affections of the skin and blood; under the nominal assessment of \$5 a month, including all appliances, medicines and treatments until cured.

The advanced methods employed in thetreatment of the maladies here enumerated are the development of many years'experience in the largest and most di-versified practice ever known, and their success is indelibly written in the multitude of recorded cures.

The Proper Cure for Sufferers. Great numbers of people suffer from the malign poisons of catarrh, as from other chronic maladies, without any correct or definite idea of the nature of their afflic-tion. The following symptoms have been bring this with you to Drs. Copeland and definite idea of the nature of their affliccarefully arranged to enable many sufferers to understand just what it is that alis them. Many diseases, known under various specific names, are really of a catarrhal origin and nature. Every part of the mucous membrane, the nose, the

bronchial tubes, and in time attacks

was needed. They therefore adopted the proposition contained in the report, but as it was thought that the negotiations ited States might run smoother without M. Hutin, the latter resigned The meeting, appeased by this explana-tion, then approved of the proposition made in the report.

MASSO OUT OF IT.

Cuban Candidate for Presidency Offended at Root's Action.

HAVANA, Dec. 21.-The supporters of General Masso, in his candidacy for the Presidency of the Republic, have decided to take no part in the coming elections, fixed for December 31. All the candidates of the party have withdrawn, and the Masso members of the Provincial Boards have been requested to resign. These were decided upon after the re-of a letter from Governor-General steps Wood, refusing to grant the party representation on the Board of Scrutiny or an extension of time in which to modify the voting list. At a meeting of the norty leaders a res.

lution was adopted declaring that "the Central Board is a coalition of partisans, and that General Masso, after exhausting every means to insure impartiality, rectitude and justice at the coming elections. has become convinced that, neither in official circles in the United States nor m Cuba does the intention exist to see that the elections are carried out with suffi-cient legality to reflect the real wish of the Cubans, who are desirous of independence and anxious to elect freely their first constitutional government." It was voted to inform Secretary Root of the ecision arrived at, and also to publish a manifesto to the country.

La Lucha applauds the withdrawal of the Masso candidates, and says that without the guarantees asked from Secretary Root every one knows that the election will be a falsification of the will of the majority. "The Masso coalition," says La Lucha, "should not lend themselves to the betrayal of the public will, and should not co-operate in a policy which tends to lay the foundation of the republic on a gigantle fraud."

Besides the so-called Conservatives with him, Masso is said to have a strong foilowing among the blacks in the country districts, and it is intimated in Havana onight that this element may not take kindly to the present condition of things

and may cause trouble. The Discussion, the Palma organ, as-serts that the withdrawal of Maseo's gupporters is due to the fact that they are a brity and the candidates have less mir no chance of being elected.

Killing Reciprocity Treaties. WASHINGTON, Dec. 21.-A careful poll of the Senate committee on foreign rela-tions indicates that the new men were added with a view to preventing any reciprocity treaties from receiving favorable action. Neither Spooner, Fairbanks nor Kean, Republicans, are favorable to any of the treaties, and it is doubtful wheth-er these much-talked-of documents will ever see the light of day. Even if they uld te reported from the foreign relations committee, the finance committee stands ready with a club to kill them. The make-up of the foreign relations com-mittee, however, was for the purpose of preventing them from ever getting before

Texas Convict Labor.

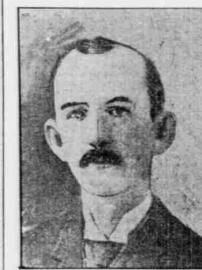

HOUSTON, Tex., Dec. 21.-Governor Sayers has returned from a visit to Brazoria County, where a meeting of the penitentiary board was held. He an-

tion all controversies embraced under the proposed Pan-American convention unless either party to the dispute prefers that a special court be established to try the case. In case it is agreed to submit the case to The Hague court, the parties to the dispute agree to accept the procedure and rules laid down by The Hague

MAY TAKE GAGE'S PLACE,

Governor Crane Offered the Treasury Portfolio.

BOSTON, Dec. "21 .- A close friend of Governor W. Murray Crane today con-firmed a report from Washington, published today, stating that the Governor had been offered the Treasury portfolio by President Roosevelt, and had asked

W. Murray Crane,

for time until next Monday before de ciding whether or not he would accept. Family and business considerations are the cause of the Governor's hesitation.

WASHINGTON, Dec. 21 .- While no official confirmation can be obtained at the White House, it is believed that President Roosevelt has offered the Treasury portfolio to Governor Crane, of Massa-chusetts, and the latter now has the tender under advisement. One of the difficulties in the way of Governor Crane's acceptance is understood to be his connection with the paper company at Dal-ton, Mass., which furnishes the paper for Government notes. This paper

prepared by a secret process and the Government's contract with the Dalton Company is a large one. Should Gov-ernor Crane accept the Treasury port-follo, it is considered probable that he would dispose of his interest in the paper company.

Mrs. Roosevelt's Reception.

WASHINGTON, Dec. 21 .- Mrs. Roose velt held her second public reception of the season this afternoon at 2:15. Hun-dreds of ladics availed themselves of the opportunity to call on her. The Marine Band played throughout the reception.

Negro Frozen in Alabama

MOBILE, Ala., Dec. 21.-All records for December weather in Mobile were broken early this morning, when the thermome-ter registered 15 above zero. A negro A negro unced that he has definitely decided to | was frozen to death in Baldman County. respondent of the London Times and New

discussed the doctrines His Majesty had laid down in his speech. The Emperor good humor emboldened several of thos present to disagree from him, and the rather plainly intimated that they believed injustice to some of the first artistic names in Germany had been done in saying that their work brought art do the gutter. His Majesty returned argu ment for argument, as he loves a fight of any kind, and he is described as having been lively in repartce. The sitting was prolonged for several hours.

The completion of the 32 groups of statuary in the Sieges Allee, Emperor William's gift to the nation, is the text of a number of articles surveying the artistic merit of the series. The general opinion seems to be that it is of doubtful value. The whole series is tiresome and

monotonous. The cost, which His Majesty paid out of his own pocket, exceeded 2,000,000 marks.

O. C. Barber, W. A. Smith, of Glasgov vice-chairman of Bryant & Mays; George W. Pater, managing director of the Dia-mond Match Company's Liverpool works J. W. Bartholomew and Mr. Graves, directors of Bryant & Mays, met at Mann-heim this week to consider the reports of their agents, who have been negotiating for the absorption of the match factories of Europe. Some important concerns are not willing to sell on the terms offered. After a conference the directors separ-ated, two of them going to Norway and Sweden, expecting to close with four of the largest works there, though even regarding these some of the conditions are not yet settled. Mr. Barber will sail from Liverpool for the United States December 25 with the propositions which he will lay before his American associates.

This is a gloomy Christmas in Germany. Half a million persons are unem-ployed, and the consequent wretchedness darkens the holidays. Even the well-todo are most indifferent. They are unable to avoid seeing the misery of the cellardwellers in Berlin, while reports from every part of the empire indicate that ex-traordinary demands are being made on the poor funds and private agencies for the relief of the destitute. Several new charitable societies have been organized in Berlin, and three or four times more than the usual holiday contributions to the poor have been distributed, yet the distress seems scarcely diminished. The Municipal Councils of Cologne, Stuttgart, Leipsic, Berlin and other cities are dis cussing the question of municipal aid, without reaching anything very definite. The provincial government of Weisbaden has determined to distribute relief from the provincial treasury. One amelloration of the situation upon which both trades unions and employers have agreed is the dismissal of foreign laborers, many thousands of whom-Czechs, Poles, Italians and Russians-obtained work in Germany during the boom period. The government approves of the dismissal of these mer and of giving preference to Germans. The manager of the great Laura Iron Works. Silesia, in discharging 500 foreign rkmen, said the authorities had advised in Silesia. taking this step. Other large establish-

ments have taken the same course, and the government of Anhalt has discharged and expelled from the duchy all foreign laborers in the government establish-ments. Expulsion of foreigners by the local authorities have occurred in other parts of Germany. The census of the unemployed in Berlin shows that 59,593 persons are out of work here.

Must Face the Music.

NEW YORK Dec., 21. - The French Chamber of Deputies, says the Paris cor

night at the 22d annual dinner of the New England Society in the City of Brooklyn, Senator George F. Hoar, of Massachusetts, who was the guest of onor, said: There was a wireless telegraphy that

came down across the ages from the nen of Marathon and Thermopylae to the men of the Mayflower, and came from the men of the Mayflower to the men of the Revolution, and came from the men of the Revolution to our splendid youth of 1861. It is not everywhere on earth that the receiving stations of these sig-nals are to be found. Possibly there is a spot in South Africa today where a race

ch farmers have been able to comprehend the message. I trust there are some men still left in the United States who have ears to hear. Possibly Agul-naldo may have got a little intimation of It."

Races at Oakland.

SAN FRANCISCO, Dec. 21 .- One of the best cards of the season drew a large crowd to Oakland today, and good sport was witnessed. Headwater broke the Cal-ifornia record for six furlongs. The dis-tance was covered in 1:12%, the previous record being 1:12%. The star attraction was the match race at five furlongs be tween Old England and San Nicholas for \$500 a side and \$500 added by the association. Old England was always a favorite, and proved an easy winner. The summary

Six furlongs, selling-Coustn Carrie won, Afghan second, Rio Shannon third; time 1:13% Five and a half furlongs, selling-St.

Philippina won, Dr. Scharff second, Shell Mount third; time, 1:07. One mile and a quarter, selling-Position

won, Commonwealth Attorney second, Elmido third; time, 2:08. Six furiongs, free handlcap-Headwater won, Sombrero second, Mercer third; time,

1:12%. Junior stakes, seven furlongs, purse

\$1500-Crusados won, Botany second, terscratch third; time, 1:26. Match race, five furlongs-Old England beat San Nicholas easily by three lengths;

time, 0.50. One mile and 50 yards, selling-Colonel Ballantyne won, Courtier second, Romany third; time, 1:44%.

Roosevelt Was Not Assaulted.

WASHINGTON, Dec. II .- Both at the White House and at the British Embassy an emphatic denial is made of the pub-lished story of an assault alleged to have been made upon the President Thursday afternoon. The President himself de-clares the story is not true, and author-izes the denial of it. Lord Pauncefote, the British Ambassador, who is said to have been a witness of the assault, emphatically denied the statement.

The story of the assault grew out of the fact that an intoxicated man was lurching along Massachusetts avenue Thurs-day afternoon as the President was tak-ing his daily walk, and that the man brushed against the President. A secret service agent arrested the man, is understood he was shortly afterwards released. The stary was that the Presi-dent had been struck in the presence of Lord Pauncefote, and it was printed in New York today.

Immorality on London Streets.

LONDON, Dec. 21 .- The hopeless answe of the Home Secretary, Mr. Ritchie, to the deputation from the Westminster Council, protesting against the flagrant immorality witnessed in the streets of London, has given zest to the press and religious campaign having for its object the remedying of the present conditions, It is maintained that the scenes witnessed in Piccadilly and other well-known streets are worse now than at any time in the

one subject in the examination, but, as it is regarded by the disappointed candidates for licenses as being the most difficult, I take it that I can speak with some authority on the subject. Modern dentistry being a profession which has had its birth and growth to its present high standard among the professions in the remarkably short space of 60 years it is no argument to say that because a person has passed eximinations to entitle him to practice in some other state 10, 15 or 20 years ago, he is able or competent to practice now.

"For such strides have been made in the last decade that, unless one were constantly keeping up, by reading and study, he would be entirely unfitted to do more than the simplest operations, and those in but an indifferent manner. In my opinion, the failure of the candi-dates to pass the recent examinations before the State Board of Dental Examiners is due to one of three reasons. Either they are men who have been graduated at a time when the dentistry of the past 10 years was not taught, been engaged in practicing along a straight line, with no attention to the advances that have been made by their fellow-practitioners, or they have failed by neglect, or, otherwise, to review the indution subjects which they were taught

"Or they have been men who are perhaps, recent students, without the neces-sary preliminary education to fit them to properly grasp the work they have been attempting to do. The State Board of Examiners must keep up in its questions the standard as it is advanced by thoughtful, progressive practitioners and by the colleges. But a few years since

THE FEAR OF HUMBUG

Prevents Many People From Trying a Good Medicine.

Stomach troubles are so common and in most cases so obstinute to cure that peo-ple are apt to look with suspicion on any remedy claiming to be a radical, perma nent cure for dyspepsia and indigestion Many such pride themselves on the their acuteness in never being humbugged, especially in medicines. This fear of being humbugged can be

carried too far, so far, in fact, that many people suffer for years with weak diges-tion rather than risk a little time and money in faithfully testing the claims made of a preparation so reliable and universally used as Stuart's Dyspepsia Tab lets.

Now Stuart's Dyspepsia Tablets are vastly different in one important respect from ordinary proprietary medicines, for the reason that they are not a secret patent medicine, no secret is made of their ingredients, although they are sold by all druggists under protection of trade-mark, but analysis shows them to contain the natural digestive ferments, pure aseptic pepsin, the digestive acids, Golden Seal, bismuth, hydrastis and nux. They are not cathartic, neither do they act powerfully on any organ, but they cure indigestion on the common-sense plan of digesting the food eaten thoroughly be fore it has time to ferment, sour and cause the mischief. This is the only secret of their success.

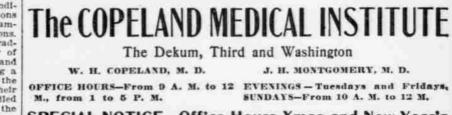

Cathartic pills never have and never can cure indigestion and stomach troubles, because they act entirely on the bowels, whereas the whole trouble is really in the stomach.

Stuart's Dyspepsia Tablets taken after meals digest the food. That is all there is to it. Food not digested or half diis to it. gested is polson, as it creates gas acidity headaches, palpitation of the heart, loss of flesh and many other troubles which history of the metropolis. The Saturday are often called by some other name.
