

URGENT DEFICIENCY BILL

CHAIRMAN CANNON REPORTS THE MEASURE TO THE HOUSE.

It Carries Appropriations Aggregating Over Sixteen Million Dollars—Exclusion Bill Reported.

WASHINGTON, Jan. 18.—The House of Representatives was in session less than an hour today. Only routine business was transacted, the most important feature of which was the reporting by Cannon, chairman of the committee on appropriations, of the urgent deficiency bill. The bill will be called up for consideration next Monday.

Kahn (Rep. Cal.) introduced the Chinese exclusion bill agreed upon by all the Pacific Coast interests at representing their views. It was referred to the foreign affairs committee, and Kahn says hearings will be begun next week and the bill urged to speedy consideration in the House.

Joy (Rep. Mo.), chairman of the committee on accounts, precipitated a discussion involving some of the patronage of the House by presenting a resolution providing for the appointment of two additional messengers. The resolution, after explanation, was adopted.

Cannon, chairman of the committee on appropriations, reported the urgent deficiency bill and gave notice that on next Monday he would call it up for consideration. He also reported the bill carrying appropriations aggregating more than \$16,000,000. In answer to an inquiry, he expressed the opinion that near the close of the present session it would be necessary to pass another urgent deficiency bill. He could not say, however, how much the next bill might carry.

The following bills were passed: For the protection of owners in the Indian Territory, and providing that they may issue bonds to an amount not exceeding 5 mills on each dollar of taxable property of the municipality for the construction of the waterworks, streets and schoolhouses; providing that the amount of the official bond of the United States Marshal of Alaska may be increased to \$5,000 in certain circumstances.

The Senate amendments to the House bill appropriating \$50,000 for a Government exhibit and floor space at the Charleston Exhibition were passed.

The House, on motion of Payne, adjourned until Monday.

The Republican members of the House who have been urging a caucus to consider a reduction of war taxes have decided not to press the matter until the ways and means committee completes consideration of the Cuban reciprocity question now before it.

The Urgent Deficiency Bill. WASHINGTON, Jan. 18.—The urgent deficiency appropriation bill carries \$16,465,000, distributed among the different departments. The navy items include \$4,000,000 for armor on ships now under construction. Among the more important items included in the bill are the following: Reduction of the naval appropriation as provided for in the war revenue reduction act, \$3,100,000; establishment of permanent military post at Manila, \$500,000; military ordinance, \$250,000; naval ordinance, \$200,000; expansion of the military post at Manila, \$200,000; rural free delivery, \$25,000.

Probably the item of most current interest just now, in connection with the Prince Henry, is one appropriating \$40,000 for the contingent expenses of the State Department. It has long been the custom of the State Department to hold a small fund of this character for the entertainment of visitors and to meet other diplomatic emergencies which may arise. The amount carried in the bill for this purpose is not necessarily meant that it will all be used for the entertainment of the royal guest, but as much will be available as is needed.

JUDGE BAKER'S APPOINTMENT.

Senate Committee Agrees to Report It Favorably.

WASHINGTON, Jan. 18.—The Senate committee on judiciary has agreed to report favorably on the nomination of Hon. Francis E. Baker, of Indiana, to be Circuit Judge in the seventh circuit. The opposition to Judge Baker's confirmation was withdrawn last week, and the connection with his case were discussed at some length.

There was special reference to the fact that his father is District Judge of the Indiana district, and the point was made that with the son occupying the Circuit bench it would fall to his lot to review his father's decisions. There was, however, a general expression of the opinion that the prominence of a man's father should not be allowed to stand as a bar to his own preferment. It was suggested also that in such cases the father's own deficiency could be depended upon to find a proper solution of the problem. This view was accepted and the decision favorably to report the nomination was not opposed.

DEMOCRATIC POLICY.

Questions Will Be Referred to a Caucus of the Minority.

WASHINGTON, Jan. 18.—The Democratic steering committee of the House of Representatives reached a decision today on a line of policy to be recommended to the caucus of the minority in the House. The committee also agreed to request Representative Hay, of Virginia, chairman of the Democratic caucus, to call a caucus of the minority for the purpose of passing upon the report of the steering committee. The steering committee is made up of 12 Democratic members of the House. They were appointed soon after the session of the caucus began to take under consideration various resolutions which were proposed, declarations of the attitude of the Democratic party and its representatives in Congress. Unusual secrecy was observed as to the agreement reached today, a resolution being passed binding each member to absolute silence. The only announcement authorized by Chairman Richardson was that an agreement had been reached and that pending its submission to the caucus it would not be made public. It is understood that the agreement is to the effect that all questions shall be referred to the full caucus, so that the latter body will have an opportunity to discuss the various questions of party policy which have been under consideration.

Democrats and Philippine Tariff.

WASHINGTON, Jan. 18.—The Democratic members of the Senate committee on the Philippines were in consultation for several hours today over the proposed sub-proposition for the Philippine tariff bill. They are agreed on all the essential features of their position. In general they say they will recommend that in the end provision should be made giving the Philippines their independence, but in the meantime providing for free trade between the United States and the Philippine Archipelago, such as is maintained between the United States proper and other territories.

Best-Sugar Men Protest.

WASHINGTON, Jan. 18.—A delegation of sugar manufacturers from Michigan appeared before the President today and protested against the proposed reduction of the duty on Cuban sugar. The delegation was escorted by the representative William Alden Smith, of Michigan. They presented the President with a memorial which calls his attention to the plank in the Republican platform of 1896 condemning the Democratic Administration for not keeping faith with the sugar interests of the country and its redemption, the enactment of the Dingley law in July, 1897.

PREFERENCE TO VETERANS

RIGHTS OF EX-SOLDIERS IN MATTER OF APPOINTMENTS.

The President Issues an Order to Each Executive Department—Other National News.

WASHINGTON, Jan. 18.—The following executive order has been issued, directed to each executive department: "The attention of the department is hereby called to the provisions of the laws giving preference to veterans in appointment and retention. The President desires that wherever the needs of the service will justify and the law permits, preference shall be given alike in appointment and retention to honorably discharged veterans of the Civil War who are fit and well qualified to perform the duties of the places which they seek and are filling."

NEELY AND REEVES.

Alleged Cuban Postoffice Embezzlers Contradict Each Other.

HAVANA, Jan. 18.—When the trials of the cases resulting from the Cuban postoffice embezzlement resumed today the cross-examination of C. F. W. Neely was continued. Neely said that his "O. K." on bills under the miscellaneous head only

LEADING DENTISTS WHO WILL ADVERTISE

DR. T. P. WISE.

Sticklers for ethics in the dental profession received a severe shock when they read the announcement published recently that Dr. William A. Wise, one of the most prominent and progressive dentists in the State of Oregon, had decided to withdraw from the Oregon State Dental Society, and giving as his reason for pursuing this course that the rules of that organization place obstacles in the path of progressive men, that have a tendency to dwarf ambition and make a mere drudge of the dentist. Dr. Wise, in common with a number of other members of the same profession, who perhaps lack the doctor's courage, believe in legitimate advertising, and in future it is the intention of Dr. Wise to use printer's ink liberally. This step has not been taken hastily or through any grievance with other members of the society, but after mature deliberation, aided by a firm conviction that the ethics of the dental society was a stumbling block to the advancement of the younger members of the profession. That the stand taken by Dr. Wise for liberty of action in the matter of advertising is approved by the public is best attested by the continuous flow of people to the well-appointed offices of the Wise Bros. in the Falling building. Dr. William A. Wise, who has practiced dentistry in Oregon for 15 years, is a member of the State Board of Dental Examiners, having been appointed to that position last March by Governor Geer. Dr. T. P. Wise is a graduate of the Northwestern University of Chicago, and has been in active practice for seven years. He came here from Ohio about six months ago, for the purpose of assisting his brother.

NO SIR, I WANT PE-RU-NA!

Found No Relief in So-Called Catarrh Remedies.

Tried Remedies With No Benefit.

Never Found Relief Until Pe-ru-na Was Tried.

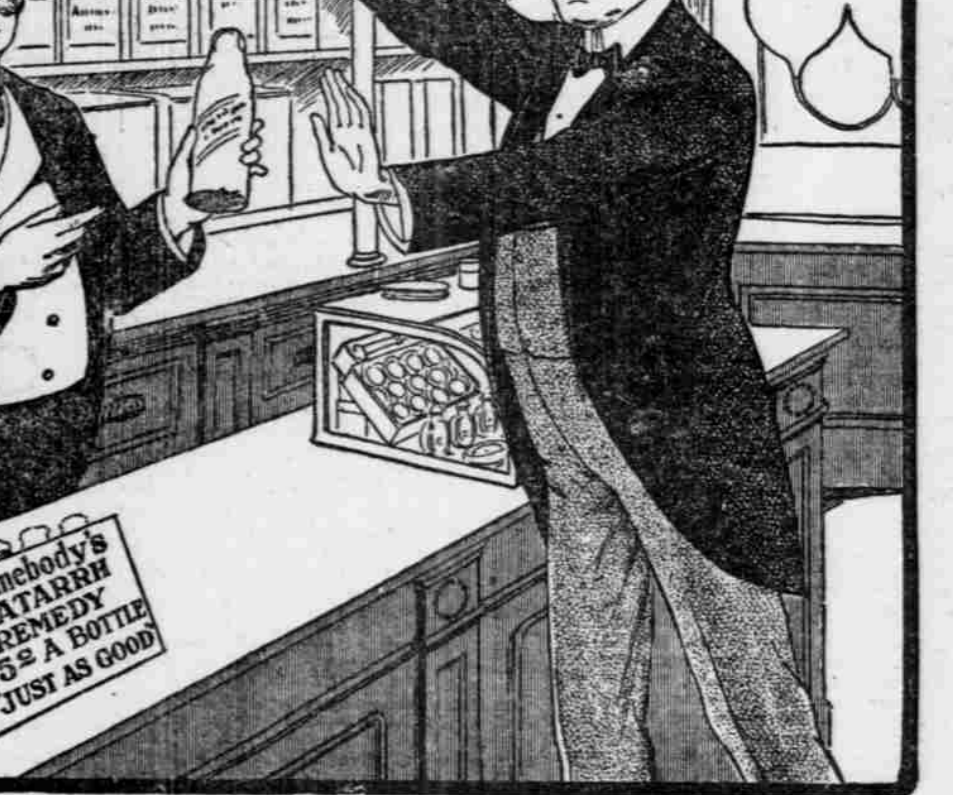

Tried Many Remedies.

Doctors and Medicine Failed to Benefit.

Tried Medicines—None Helped.

Men prominent in public life, including Governors, Senators, Congressmen, Generals, Mayors, Lawyers and Physicians use and recommend Peruna. Write for book of testimonials of prominent men.

Ask your druggist for a free Pe-ru-na Almanac. Every druggist has them.

Found No Relief in So-Called Catarrh Remedies. Mr. J. G. Steffe, Superior, Minn., writes: "For four years I had been a continual sufferer from that dreadful disease, chronic catarrh. I tried all kinds of so-called catarrh remedies, and found no relief. I was advised by a friend to write to you about my case, which I did, and you kindly advised me to take a course of Peruna. I commenced at once and was surprised how it relieved me. I am happy to say I am a well man today. I take pleasure in recommending your great remedy to all who are afflicted with catarrh." J. G. STEFFE.

Tried Remedies With No Benefit. Mr. John M. Winstead, Kimbro, Tenn., in a recent letter, says: "I have been afflicted with catarrh for about 10 years, and I have tried different remedies with no benefit. About two years ago I bought a bottle of Peruna and commenced using it according to directions. It relieved me so much that I continued using Peruna until I had used five bottles; then I hardly felt the effects of the catarrh at all." JOHN M. WINSTEAD.

Never Found Relief Until Pe-ru-na Was Tried. Mr. J. Woffel, Sumner, Neb., writes: "I had the catarrh 20 years. I never found any relief until I commenced taking Peruna. Anyone who has catarrh that will take Peruna according to directions is sure to be cured of catarrh. I am completely cured of catarrh and I thank God and Dr. Hartman." J. WOFFEL.

Tried Many Remedies. Mrs. Lydia Dretzler, Frankfurt, Ind., writes: "Our boy, Grover, had been afflicted with chronic catarrh of the head, nose and throat for eight years. We tried many remedies, but they did no good, and he applied to several doctors, but they failed to cure him. We received one of Dr. Hartman's pamphlets, and I wrote to him for advice, which I received. Our boy has taken 10 bottles of Peruna and we consider him cured. We think Peruna a great medicine." MRS. LYDIA DRETZLER.

Doctors and Medicine Failed to Benefit. Bruno S. Buch, 938 Randolph street, Philadelphia, Pa., writes: "I have been troubled with catarrh for the past few years, and not being benefited by doctors and other medicines, I was advised by a friend to give you Peruna a trial. After having taken three bottles, I felt greatly relieved and with the addition of a few more bottles I was cured of all my troubles." BRUNO S. BUCH.

Tried Medicines—None Helped. J. Kossik, of Moorhead, Minn., says: "Peruna is a great remedy for catarrh. I tried a number of kinds of medicine, but none helped me. I took Peruna according to your instructions, and will say that I am well again and think Peruna a great medicine for catarrh." J. KOSSIK.

Men prominent in public life, including Governors, Senators, Congressmen, Generals, Mayors, Lawyers and Physicians use and recommend Peruna. Write for book of testimonials of prominent men.
