# FACTORIES OF CALIFORNIA

### CENSUS SHOWS AN INCREASE OF 19 PER CENT IN 10 YEARS.

### Capital Is 40 Per Cent Greater Than It Was at That Time—Report by Cities.

WASHINGTON, Jan. 18.—The census preliminary report on the manufacturing industries of California shows 17,582 establishments, increase 19 per cent; capital, $205,395,025, increase 40 per cent; average number wage-earners, 91,047, increase 25 per cent; total wages, $47,425,947, increase 15 per cent; miscellaneous expenses, $16,190,282, increase 25 per cent; cost of materials used, $188,125,002, increase 57 per cent; value of production, including custom work and repairing, $302,874,861, increase 42 per cent. The capital and value of products for cities separately reported follows:

Los Angeles—Capital, $11,742,838, increase 72 per cent; products, $21,297,537, increase 115 per cent.

Oakland—Capital, $6,361,651, decrease 4 per cent; products, $9,174,257, increase 7-10 per cent.

Sacramento—Capital, $7,402,313, increase 23 per cent; products, $11,785,631, increase 13 per cent.

San Francisco—Capital, $80,103,367, increase 7 per cent; products, $133,064,415, decrease 2 per cent.

San Jose—Capital, $3,409,517; products, $4,410,062. San Jose was not reported separately in 1890.

### URBAN POPULATION.

### Figures Regarding Its Growth in the North, South and West.

WASHINGTON, Jan. 18.—The Director of the Census today gave out a statement regarding the growth of urban population, North and South, which shows the following facts:

The large cities, taken collectively, are growing nearly twice as rapidly as the rest of the country; the percentage of the population of Northern States living in large cities is nearly three times as great as the corresponding percentage in the South; the North has a rate of increase no greater than that of the South; the large cities in the North are growing much faster than those of the same size in the South, but this difference is balanced by an accordingly rapid growth of small towns and cities in the South, and especially by the rate of increase of Southern rural population. The statement says these results seem paradoxical but are correct.

Director Merriam's statement is designed to explain how the deduction that the South, for the first time, is now growing as rapidly as the North, harmonizes with the well-known facts that in the North the proportion of inhabitants living in cities is much larger than it is in the South, and that as a rule cities increase in population much more rapidly than country districts. The statement shows that in the North the proportion of the population living in large cities is more than three times as great as it is in the South. The population living in cities of over 25,000 inhabitants increased 41 per cent between 1890 and 1900, partly by the growth of the 124 cities of that size in 1890, and partly by the addition during the following 10 years of 36 other cities to the list. The population of the country outside these cities increased between 1890 and 1900 14.9 per cent. The 160 cities of the United States each of which had over 20,000 inhabitants in 1900 increased in population 32.5 per cent between 1890 and 1900; the rest of the United States, excluding Alaska and the recent insular accessions, increased 17.1 per cent. Of the total population of 75,994,575 in continental United States, 19,718,312, or 25.9 per cent, live in cities of 25,000 inhabitants or more.

The proportion of inhabitants of the three sections, the North, South and West, into which the census divides the United States, follows:

North, total population, 47,379,699; population of cities of 25,000 or more, 16,196,580, or 34 per cent.

South, total, 24,523,527; cities of 25,000 or more, 2,488,553, or 10 per cent.

West, 4,091,349; cities of 25,000 or more, 1,033,179, or 25 per cent.

The per cent increase of population living in places of sizes indicated, from 1890 to 1900, by sections, follows:

Twenty-five thousand and over—North, 42.2; South, 31; West, 47.3; in United States, 41.

Eight thousand to 25,000—North, 22.7; South, 26.9; West, 17.9; in United States, 23.1 per cent.

Four thousand to 8000—North, 27.6; South, 87.3; West, 50.7; in United States, 36.7 per cent.

Incorporated places of less than 4000—North, 27.9; South, 44.4; West, 46.5; in United States, 33 per cent.

Rural—North, 1.2; South, 17.9; West, 22; in United States, 9.4 per cent.

The figures, concludes the statement, show that the present growth of population is a result in the North of a very rapid growth of large cities, a slower growth of small cities and a very slight growth in the country, and a result in the South of the rate of growth of large cities below the average for the country, balanced by a striking growth of small cities and an increase of rural population twice as fast as the average for the United States.

### No Move Yet for Return of Lucas.

SALEM, Or., Jan. 18.—Deputy District Attorney John H. McNary has not yet decided whether he will ask Governor Geer for a requisition upon the Governor of Washington for rendition of James Lucas, who was arrested yesterday at Seattle. Lucas was a subcontractor at the Chemawa Government building, and skipped out, leaving labor bills to the amount of $200 unpaid. A warrant was issued charging him with larceny by bailee. McNary is investigating the question whether Lucas committed a crime or whether he is liable only to civil proceedings.

### Big Shipment of Malt to the East.

DAYTON, Wash., Jan. 18.—A shipment of 200 tons of Columbia County malt is being made to Muskegon, Mich., from this city, the bulk of the product being loaded on cars today. This is one of the largest shipments ever made from this city at one time. The malthouse owned by S. Weinhard is undergoing improvements of an expensive character. The plant is being enlarged and a new drying system has been installed. The time necessary for drying heretofore has been 24 hours, while in future it will be reduced one-half. The process of reducing barley to malt requires nine days, and the work here is one of the principal industries of the city.

### What Hops Are Worth at Salem.

SALEM, Or., Jan. 18.—Hopgrowers report that they are being offered 12¼ cents for hops. There have been reports of recent sales at 12½ cents, but these lack confirmation. A Salem dealer sold a lot at 12¾ cents on a special order, but this cannot be taken as the market price to growers. Only a few growers still hold their hops, and many of these will sell at 12½ cents.

### Big Flouring Mill Burned.

SPOKANE, Wash., Jan. 18.—The roller mill at Sprague, owned by the Centennial Milling Company, was burned this morning. The fire is believed to have been caused by smut. The wheat warehouses were saved. The loss is estimated at $60,000, about one-half covered by insurance. The mill is to be rebuilt and probably enlarged. The former capacity was about 350 barrels per day.

### Invited Roosevelt to Seattle.

WASHINGTON, Jan. 18.—Erastus Brainerd, of Seattle, today invited President Roosevelt to come to Seattle and Puget Sound next Summer. The President said it was his intention to visit that portion of the Pacific Coast before the expiration of his term, but at this time he was not able to determine whether he could go there next Summer.

### Member of Pope's Household.

SPOKANE, Wash., Jan. 18.—Monsignor Antoni, a member of the pope's household at Rome, arrived here this morning and left tonight for Seattle. He is the guest of Samuel Hill, of Seattle.

"I have no mission to the United States," he said. "I am merely traveling for my health, and shall remain in this country for two or three months longer."

Asked as to the pope's health, he said. "I have a letter, received this week, saying his holiness is in good health."

### Telephone Company to Spend $50,000

WALLA WALLA, Wash., Jan. 18.—General Manager Charles B. Hopkins, of the Inland Telephone Company, was in the city today to initiate improvements in their exchange. The improvements consist, in part, of the erection of an office building and placing of a large number of wires in underground conduits. These improvements will require the expenditure of $50,000.

### Oregon Mining Stock Exchange.

### To Cure Salmon-Sick Dogs.

NAHCOTTA, Wash., Jan. 12.—(To the Editor.)—I notice by your paper that a stockraiser of Nehalem, in an interview, said no one could keep a dog there, because there was no cure for him if he ate salmon and became sick. Forty-two years ago I lost two dogs, and came very near losing two more before I found a remedy to cure them, and, for the benefit of those who have good dogs, here is a cure: If they get salmon-sick, take a sharp knife and cut between the nostrils, then cut a gash under the nostrils, so that the blood will run freely and the dog will lap it off with his tongue, and in 24 hours there is a change for the better. I have never known it to fail yet.

OLD SUBSCRIBER.

The four states in which woman suffrage is established—Colorado, Utah, Idaho and Wyoming—are noted for the radical changes which they made in declarations of political preference. In 1896 the fusionists carried Colorado by 134,000 majority. A year later they had 2900. Utah gave Bryan 33,000 majority in 1896, and four years later went against him by 2100. Wyoming was carried by the Republicans in 1892, by the fusionists in 1896 and by the Republicans in 1900.

The sun gives 600,000 times as much light as the full moon.

# CHAMBER OF MINES IS A GO

### GRANT'S PASS WILL ERECT A FINE BUILDING AT ONCE.

### One Purpose Will Be to Promote the Interests of That Section at 1905 Fair.

GRANT'S PASS, Jan. 18.—The business men and citizens of this city are taking an active interest in the matter of erecting a Chamber of Mines on a lot situated in the heart of the business part of the town, leased for such purpose by the Southern Pacific Railroad Company. Several hundred dollars have already been subscribed, and the work of erecting the new building will begin in a short time. The building will not only contain a permanent mineral, agricultural, and forestry exhibit, but will also contain reading-rooms and an assembly room in which the Commercial Club will hold its regular meetings.

The purpose of the Chamber of Mines will be to advertise the mineral and other resources of Josephine County, and to perfect an organization that can promote the interests of this section in the coming Lewis and Clark Centennial.

### Great Activity at Thunder Mountain.

SALT LAKE, Utah, Jan. 18.—Mail advices from the new Thunder Mountain gold district of Idaho, brought out over the mountains by returning prospectors, show that active development work is being continued in spite of the deep snow and confirm the first reports of the great richness and extent of the fields. It is almost impossible to pack in provisions over the trails in Winter, and but few are venturing it. At Mackay, Boise, Salmon City, Ketcham and Weiser, however, hundreds of prospectors are already gathering to start in as soon as the trails are passable. The Oregon Short Line has arranged for a line of stage coaches from Ketcham to the new gold fields, to be started about May 1.

### British Columbia's Mineral Output.

VICTORIA, B. C., Jan. 18.—This morning a bulletin was issued by the Department of Mines, which estimates the total mineral production of the province during last year at $20,713,501, which is an increase of 25 per cent over last year, although the duties on lead and charges of American refiners caused a largely decreased production of lead. The increased production of lode mines was 57 per cent over last year. The product of gold amounted to $5,600,000; silver, $2,600,000; copper, $5,000,000; lead, $2,000,000, and coal, $4,587,630. The Kootenay contributed about $7,000,000 to the mineral production, Yale nearly $3,000,000, and the Coast districts about $5,000,000.

### Eastern Men Inspect Their Mine.

BAKER CITY, Jan. 18.—A party of prominent stockholders of the Turnagain Arm Mining Company, of Milwaukee, consisting of Lee S. Avitt, Dr. S. M. Moulton and Joseph L. Michaels, have just arrived in the city on a tour of inspection to the California mine, which they purchased last Fall. The party will go to Portland, and afterwards to California, and visit all points of interest, thence to Lower California and New Mexico, to inspect its mining interests.

### PORTLANDER ROUGHLY TREATED.

### Knocked Down and Robbed of $150 at San Francisco.

SAN FRANCISCO, Jan. 18.—David F. Wagner, a broker of Portland, Or., was knocked down last night, in front of the Grand Hotel, and robbed of $150 in cash and a watch, by two boys about 15 years old. Afterwards Wagner was booked at the City Prison on a charge of being drunk, and was released this morning. He could not give any description of the boys who robbed him.

### MAY BE MADE UNITED STATES ATTORNEY FOR WASHINGTON.

JESSE FRYE, OF WHATCOM.

It is expected that Senator Foster will soon recommend the appointment of a United States Attorney for Washington, to succeed Wilson R. Gay, whose term is about to expire. No one thinks that Gay will be reappointed, and apparently his friends are making no effort for him. It is said and quite generally believed that Senator Foster has promised to use his influence in behalf of Jesse Frye, of Whatcom County. Frye was a member of the Legislature of 1889, which elected Foster, and voted for him throughout. Frye then, it is said, exacted a promise to be made United States Attorney.

# "77"

To knock out the Grip, take "77."

To break up a Cold, take "77."

To stop a Cough and soothe the chest, take "77."

To cure Catarrh and clear the head, take "77."

To prevent Pneumonia and strengthen the lungs, take "77."

To cure quinsy and heal the throat, take "77."

To feel secure and keep well, be prepared for emergency by carrying in your pocket a bottle of "Seventy-seven" ("77"), Dr. Humphreys' Famous Specific for Grip and Colds. It stops a Cold at the start and "breaks up" Colds that hang on.

# COLDS

# When You Eat

Do you have a feeling of undue fullness in the stomach, belchings, or sour or bitter risings? These are but a few of the symptoms of the diseased stomach.

The worst thing which can be done for the stomach in such a case is to take some tablet or powder which merely gives temporary relief from discomfort. The best thing to do is to begin the cure of the disease by beginning the use of Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It makes the "weak" stomach strong, and puts the body in a condition of vigorous health.

"I was troubled a long time with dyspepsia, torpid liver, and constipation," writes Mrs. Julia E. Deal, of Ostwalt, Iredell Co., N. C. "Could scarcely eat anything at all; would have attacks of pain something like colic, and sometimes it seemed as though I could not live. I wrote to Dr. R. V. Pierce, stating my condition, and in a few days received a kind letter of advice, telling me to use Dr. Pierce's Golden Medical Discovery. I took four bottles, and one vial of Dr. Pierce's Pellets, and now I can eat anything I want and it don't hurt me. I have not been in bed a day since I took your 'Golden Medical Discovery,' and I have not since felt any symptoms of disease. I have not taken any medicine in twelve months."

Dr. Pierce's Pleasant Pellets cure constipation.

### Wind Causes a Marriage.

English, Ind.—A gust of wind resulted in the marriage of Harry Reynolds and Mary Thorne. They were married at the bride's home, near here, this afternoon. The romance had its beginning in the smoking car of a Southern passenger train on the day before Christmas.

Harry Reynolds' home is in Evansville, but he is employed in Indianapolis. He left Louisville, bound for his home, to spend Christmas on Tuesday morning. The trip was uneventful until he reached English. He was tired of the smoker and stood upon the car platform. As the train pulled out of the station a gust of wind struck him, and away went his hat. It had his name and "Evansville" written on the brim. He was hatless when he reached his destination. The next day he went to the postoffice. There was a package neatly wrapped addressed to him. It was his hat. Miss Thorne's card and a short note were also in the package. She was walking along the railroad track when she saw the hat, she wrote. The afternoon mail carried a letter from Reynolds to Miss Thorne, and on Thursday morning he received a reply. That afternoon he talked to her over the telephone, and on Friday morning he started for English. Each apparently thought well of the other, and they got along nicely. The minister was summoned this afternoon. Reynolds is not more than 21 or 22, and his bride is probably two years his junior.

# GREAT DUMP SALE

THE GREATEST SALE OF THE SEASON

For the balance of the Sale we have put EVERY OVERCOAT in the house INTO THE DUMP. Only 300 left, and the prices marked will clear them all out. Not every size in every style, but every size in some style. ### INSPECTED NEW RAILROAD.

### Vancouver Officials Look Over the Washington & Oregon.

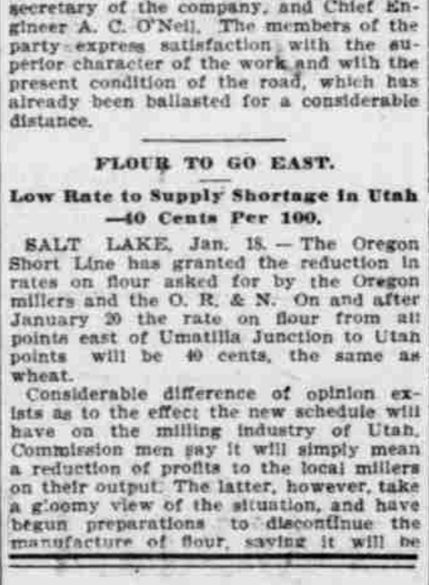
VANCOUVER, Jan. 18.—By invitation of the Washington & Oregon Railway Company an inspection trip was made today over the company's new road in Clark County, between Vancouver and the Lewis River, by the following persons: County Commissioners Shaw, McBride and Gary, Superior Judge A. L. Miller, County Auditor W. H. Brewster, County Clerk S. P. Gaither, Prosecuting Attorney W. W. Sparks, County Surveyor R. D. Webster and several prominent citizens. The party was accompanied by Edmund Rice, secretary of the company, and Chief Engineer A. C. O'Neil. The members of the party express satisfaction with the superior character of the work and with the present condition of the road, which has already been ballasted for a considerable distance.

### FLOUR TO GO EAST.

### Low Rate to Supply Shortage in Utah —40 Cents Per 100.

SALT LAKE, Jan. 18.—The Oregon Short Line has granted the reduction in rates on flour asked for by the Oregon millers and the O. R. & N. On and after January 20 the rate on flour from all points east of Umatilla Junction to Utah points will be 40 cents, the same as wheat.

Considerable difference of opinion exists as to the effect the new schedule will have on the milling industry of Utah. Commission men say it will simply mean a reduction of profits to the local millers on their output. The latter, however, take a gloomy view of the situation, and have begun preparations to discontinue the manufacture of flour, saying it will be impossible for them to make a profit under the new schedule.



**Suffered 20 Years. Cured of Piles.**

A. L. Husing, Alma, W. Va., writes: "I suffered frightfully for 20 years from itching, blind and bleeding piles. I tried many remedies without relief; the first application of Pyramid Pile Cure gave blessed relief and part of a 50-cent box cured me completely." For sale by all druggists. Little book, "Piles, Causes and Cure," mailed free. Pyramid Drug Company, Marshall, Mich.

### Fight to Keep a Railroad.

MILWAUKEE, Jan. 18.—The State of Wisconsin has taken a hand in the legal battle which is being waged between Bayfield County and the receiver of the Washburn, Bayfield & Iron River Railroad, and the state authorities will endeavor to prevent the tearing up of the railway. Attorney-General Hicks this afternoon appeared before Judge Jenkins, of the United States Circuit Court, and presented a petition asking that the state be allowed to appear in the proceedings. The grounds of the petition are that the railroad is a public right, deriving its charter from the state, and that no orders should be allowed for its removal without the state being given a hearing.

WASHBURN, Wis., Jan. 18.—Federal Judge Jenkins today issued an order staying proceedings in the dismantlement of the Washburn, Bayfield & Iron River Railroad for seven days. This is regarded here as a victory for the people, as it will bring the whole matter before the Court of Appeals. It is now believed that the road will never be destroyed. A number of men had been hired and the work of tearing up the track was to have begun Monday.

### Lower Rates January 25.

ST. PAUL, Jan. 18.—The Great Northern, Northern Pacific and "Soo" lines today agreed to change the date on which the proposed new freight tariffs are to go into effect, the new date being January 25 instead of February 1. The reason given is that the tariffs will be ready five days sooner than anticipated, and that the rates might as well go into effect that much earlier. The Chicago lines have agreed to the change, but in a manner which leaves the suspicion that these lines may soon announce independent action.

### Santa Fe's New Superintendent.

TOPEKA, Kan., Jan. 18.—W. A. Nettleton, of Kansas City, has been appointed as the successor of George R. Henderson, assistant superintendent of machinery for the Santa Fe road. Mr. Nettleton was formerly superintendent of motive power for the Kansas City, Fort Scott & Memphis, but resigned that position shortly before the consolidation of that road with the 'Frisco. He is a son of ex-President Nettleton, of the 'Frisco.

### Discussed Railway Insurance.

SAN FRANCISCO, Jan. 18.—Insurance was the theme of all the discussions at today's session of the convention of the Brotherhood of Railway Employes. It was decided to have the lines of insurance to be carried comprise the annuity plan, straight life and permanent disability, with partial payments.

### Courts and Northern Securities.

Wall Street Journal.

A good deal of interest was felt in the report that Attorney-General Knox had declared that the Northern Securities combination could not be attacked under the anti-trust law. This was regarded as an important point until announcement was made that the Attorney-General denied having made any such statement.

Lawyers who have examined the application for an injunction in this case say that aside from the question of consolidation, the questions involving money loss to the state are important from a legal point of view, and the chances are that the Supreme Court will grant a hearing either directly or by direction through the Circuit Court. Questions of this kind which have arisen heretofore have established a precedent in favor of giving consideration to almost any question which may be raised by the legal representative of a state.

As far as the law in the case is concerned, stress is being laid on the decision in the trans-Missouri case, where the Supreme Court, by a majority decision, laid down the principle that Congress has a right to interfere with combinations which interfere with free competition. The court held that the principle of unrestricted competition in trade was essential, and that Congress had the right to secure its maintenance. The language used in this decision is regarded as extremely applicable to the Northern Securities case.

The Chicago, Milwaukee & St. Paul management has adopted a rule to use Indian names only for sleeping and parlor-cars. One of the new Pullman sleepers just delivered to the St. Paul road has been named Nepahwin, or "sleep"; a sister sleeping-car has been named Ewayea, or "lullaby," and a third car is named Omena, "flight of a pigeon."

# Five Dollars a Box

### The Price Cut No Figure With Him.

"I want to say for the benefit of some poor dyspeptic that Stuart's Dyspepsia Tablets will give comfort and a cure

every time. Five dollars a box would not stop my purchasing them, should I ever suffer again as I did for a week before using them.

"The one 50-cent box I bought at my druggist's did the work, and my digestion is all right again.

"Many of my neighbors have also tried these tablets, and found them to be just as represented, and Mr. Ellms also wants me to use his name in indorsing Stuart's Dyspepsia Tablets." (Signed)

A. ELLMS and CHAS. F. BUZZELL, Asst. Postmaster, South Sudbury, Mass.

Mrs. James Barton, of Toronto, Canada, writes: "For 18 months I suffered from what I supposed was bladder and kidney trouble, and took medicine from three different doctors, without any sign of cure. I felt so ill at last I was hardly able to do my work.

"I thought I would try a box of Stuart's Dyspepsia Tablets and see if they would make me feel better, never really thinking I had dyspepsia, but after only three or four tablets had been taken, all the acid trouble disappeared, and then I discovered I had had acid dyspepsia, while the doctors had been treating me for kidney and bladder trouble, and one of them treated me for rheumatism.

"My digestion is fine, my complexion clear, and I am able to do my work and low spirits are unknown to me.

"I am so thankful for finding a cure so good and so pleasant to take as Stuart's Dyspepsia Tablets. I am surprised at the change they have made in me."

All druggists sell and recommend Stuart's Dyspepsia Tablets, because they contain only the simple natural digestives, and, taken after meals, prevent acidity and cause prompt digestion and assimilation of food.

Physicians everywhere indorse them because they are as safe for the child as for the adult; they are invaluable for sour stomach, nervous dyspepsia, heartburn, gas on stomach and bowels, and every form of stomach derangement.
