

ULTIMATUM TO RIOTERS

SPANISH AUTHORITIES TRYING TO RESTORE ORDER.

Strikers Must Give Up Their Arms in Three Days or Be Tried by Court-Martial.

BARCELONA, Feb. 22.—Although there was some resuscitation of ordinary life in this city yesterday, it was largely artificial. A few public establishments opened under compulsion of the authorities, but practically no business was transacted. The street-cars ceased running at 8 in the evening and the newspapers were unable to publish, the printing establishments being closed.

The Captain-General has allowed the rioters three days in which to deliver up all their arms. After the expiration of that time any person found in possession of arms will be tried by drumhead court-martial.

Orders have been issued to all the saloons to close at 7 o'clock in the evening, and citizens are not allowed to be out of their residences after 8 P. M.

Agitation for a Great Strike.

MADRID, Feb. 22.—Agitators are actively urging the declaration of a great strike here February 23 in support of the strikers in Barcelona. The Royalists are greatly excited by reports that several workmen at Barcelona have been tried by court-martial and shot. This, however, is officially denied.

Advices from Valencia say the strike there has been suppressed, but that the workmen are clamoring for the release of their arrested comrades.

More factories have reopened at Saragossa and Sabadell.

The nearest approach to truth that it is possible to glean from the conflicting official reports and dispatches from Barcelona indicates that the situation is still of the gravest character, but without any important outbreak of fresh hostility between the strikers and the authorities.

The Senate and Chamber of Deputies were today presented with reassuring telegrams by the Minister of the Interior, Senor Gonzalez, to the effect that the strike in the provinces is being suppressed and that tranquillity prevails at Sabadell.

Dr. Correo, semi-official, says there is a probability that a provisional settlement will be reached.

Private dispatches received from Barcelona deny that there is any probability of a settlement, and say the strikers are leaving the city in large numbers. It is certain the Socialists are now endeavoring to minimize their share in the disturbances and to lay the whole blame for the rioting upon the anarchists.

According to messages received here from Barcelona, the police of that city have captured documents showing that leading anarchists furnished a considerable amount of funds to the strikers, and aided in organizing the outbreak there.

Much alarm is felt at Valladolid, where the strikers threaten to strike.

At Seville, evidences have been found of an organized attempt to precipitate a fresh conflict between the strikers and troops.

No Serious Outcome Expected.

LONDON, Feb. 22.—Spanish officials in London have received a private telegram from the Government at Madrid saying that no serious outcome is expected from the riots at Barcelona and adding that the newspapers are overestimating the importance of the disturbances.

The Spanish Government is now endeavoring to minimize its share in the disturbances and to lay the whole blame for the rioting upon the anarchists.

According to messages received here from Barcelona, the police of that city have captured documents showing that leading anarchists furnished a considerable amount of funds to the strikers, and aided in organizing the outbreak there.

Much alarm is felt at Valladolid, where the strikers threaten to strike.

At Seville, evidences have been found of an organized attempt to precipitate a fresh conflict between the strikers and troops.

LANSLOWNE REPOSES IT.

Note to German Foreign Minister on Spanish War Controversy.

BERLIN, Feb. 22.—Lord Lansdowne, British Secretary of State for Foreign Affairs, has informed Baron von Richthofen, Secretary of the German Ministry for Foreign Affairs, that the British Government has taken notice of the publication by the German press of the dispatch from Von Holleben, Ambassador to the United States, concerning the meeting of Ambassadors held in Washington April 14, 1898, without following the usual procedure of obtaining the consent of the Governments interested.

Lord Lansdowne and the British Government desire Germany to know that it misinterpreted the action of Lord Pauncefote, the British Ambassador to the United States, in the meeting of April 14, 1898, Lord Pauncefote's part in that meeting was simply that of the senior member of the diplomatic corps, and nothing that he did was prompted by unfriendliness toward the United States.

Baron von Richthofen was not replied to Lord Lansdowne's dispatch, of which the foregoing is the substance. The indications are that Germany in her reply thereto will point out that the British Foreign Office has been giving information to the press in regard to the first speech of Lord Cranborne, the British Under Secretary for Foreign Affairs.

The German Foreign Office is seemingly taking cognizance of the fact that the statement given to the Associated Press January 21 last, that Germany, Russia and France supported the effort of Austria to persuade Great Britain to join in European intervention.

Russia's Attitude During the War.

ST. PETERSBURG, Feb. 22.—The official Journal of St. Petersburg tomorrow will publish a long inspired article on the intentions of the Ambassadors of the powers at Washington April 7 and 14, 1898, which will be almost certainly a repetition of the Berlin Redaktionsbericht statement on the subject. The Russian statement concludes as follows:

"Russia did not agree to the presentation of the note drawn up by Lord Pauncefote April 14, 1898, because it was not as being in the nature of an amicable appeal, but considered that it tended to be an expression of disapproval of the United States' policy and that to have participated in such a note would have been contrary to the attitude of the most scrupulous neutrality maintained by Russia throughout the war, her conduct in respect being recognized as one of the traditional friendship of Russia and the United States."

St. Petersburg Student Riots.

BERLIN, Feb. 22.—Advices received here from St. Petersburg attribute the excitement among the students partially to a false report, which was spread February 20, of Count Tolstoy's death. It was asserted that the authorities had repressed the news because the Holy Synod was undecided whether to proceed with the annual excommunication of the author. Several hundred students attempted to march to Kazan Cathedral in order to have mass celebrated for the repose of Count Tolstoy's soul, shouting: "Long live the immortal Tolstoy, Russia's greatest man, down with the police charged and dispersed the demonstrators. The

DAMAGED BY SLEET STORM

COMMUNICATION WAS PRACTICALLY SUSPENDED IN THE EAST.

Trolley and Railroad Traffic Seriously Interfered With at New York and Vicinity.

NEW YORK, Feb. 22.—The sleet storm that struck New York proved to be the most severe that has been experienced for several years. Telegraphic communication was almost completely suspended until this evening, when it was generally restored. Throughout the day the streets were rendered nearly impassable by slush, many of them almost presenting the appearance of rivers, the sewers being incapable of carrying off the overflow. Owing to the holiday, street-car traffic was at a minimum.

The greatest damage was sustained in Brooklyn, where scores of horses were killed by contact with live wires, which were everywhere protruding in Prospect Park and in many of the avenues. Hundreds of trees were denuded of ice-laden branches. Brooklyn Bridge presented a brilliant spectacle, being completely encased in a glittering crystal coating. On Staten Island, hardly a wire was left standing and traffic everywhere was suspended.

More than 100 dead horses lay in the streets throughout the city. Many of them dropped from exhaustion and others broke their legs and had to be shot.

The great storm did more damage in the suburbs than in the city. The wind had full sweep and in the towns and villages of Eastern New Jersey, Long Island and Westchester County, trolley and telephone service was abandoned and the ground is strewn with broken trees.

By 10 o'clock the telegraph companies had restored limited communication with the rest of the country. The main trouble, which was still isolated, was the heaviest damage appears to have resulted between this city and Philadelphia. Telegraph lines were abandoned and the immense weight of sleet-burdened wires, caused a delay of one to five hours in the passenger train service of the Pennsylvania Railroad during the night between this city and Baltimore. The main trouble, as reported from one of the passengers from the South, was in the district between Chester, Pa., and Trenton, N. J.

At the first named place the electric telephone, telegraph and electric light systems were a total wreck. The town was in darkness. Trains on the Philadelphia, Wilmington and Baltimore line were run without the aid of the telegraph, necessitating slow progress.

The worst of the wreck among the wires was between Bristol and Trenton, N. J. In the 11 miles between those two points more than 100 telegraph poles were broken. There were reports of burned trolley cars in various sections. The weight of the wires, the electric current them to break and the loose ends, encountering cars, set them on fire.

PHILADELPHIA ISOLATED.

Most Disastrous Sleet Storm That City Ever Experienced.

NEW YORK, Feb. 22.—Mail advices from Philadelphia say that city is as completely isolated as any other city in communication with the outside world as such such a thing as a telegraph wire or a telephone wire never existed. The storm is the most disastrous since the city was founded. As far as telegraph and telephone lines are concerned, that has ever visited that section. Within the city limits, scarcely a single overhead wire is in working order. Poles are down in all directions and wires are dangling from housetops on nearly every street.

On Front street, which skirts the Delaware River, 30 big poles on one line were broken off, and are lying in the street. This is but one route. There are dozens of routes leading into the city, and almost all of them are as badly crippled.

It is stated that the Pennsylvania Railroad, between Philadelphia and New Brunswick, more than 150 poles are down. Officials of the telegraph companies say it will be fully a week before all of the routes are even partially in condition.

The damage to wires apparently is much worse than was inflicted by the memorable blizzard of 1888, although the storm does not compare with the latter in its force. Four persons were killed in Philadelphia yesterday and last night by coming in contact with heavily charged wires. At least 25 horses were killed during the day by broken wires.

Late last night, the street railway company operating all the lines was compelled to abandon its service and at midnight the electric cars were broken up and devoted entirely to getting the cars then on the streets back into the car sheds.

By this morning, however, they had succeeded in clearing the wires sufficiently to permit the running of a few cars on express lines. Hundreds of men are at work clearing the wires, and until they are convinced that all danger from contact with electric wires is past, the officials of the various telegraph companies will not attempt to operate their wires.

FRED WEED SIGNS AGAIN.

Portland Secures a First-Bate Right-Fielder.

Fred Weed, the popular right-fielder of the Portland baseball team, will play again for the Portland team. Manager Sammie Vigneux has been negotiating with Weed for some time, and yesterday received from him a signed contract for the season. Last year Weed was one of the star players of the team. He is a League. He is a fast runner, a clever fielder and a hard hitter. He led the right-fielders of the league last season, with an average of .325. Weed's home is in San Francisco, where he is wintering. He is 23 years old, and is a great favorite with the Portland fans.

Vigneux is negotiating with several other players, and expects to have a full complement of men signed by March 1.

Young Roosevelt at Washington.

WASHINGTON, Feb. 22.—The Federal Express, which carries the young Theodore, Miss Roosevelt and Dr. Loeb were passengers, arrived at 2:15 o'clock this afternoon, almost four hours late. Dr. Riskey said that young Roosevelt was in excellent condition, and was even better at the end of the trip than when he started.

When the train stopped, Dr. Riskey carried his young patient to the White House carriage. President Roosevelt and Assistant Secretary Loeb were at the depot, and the party was driven rapidly to the White House.

Council of Women Elect Officers.

WASHINGTON, Feb. 22.—The National Council of Women, at the triennial session today, elected the following officers: President, Mrs. William T. Jellicorse, New York; vice-president, Mrs. Mary W. Swift, California; corresponding secretary, Mrs. Fio Jamieson Miller; first recording secretary, Mrs. Ida Weaver, Iowa; treasurer, Mrs. Lillian Hollister, Detroit.

Brewery Engineers Strike.

CINCINNATI, Feb. 22.—All the engineers at the breweries in Cincinnati, Lexington and Newport quit at midnight, throwing 500 men out of work and stopping over \$50,000 per week in wages. It is a contest between the union engineers and firemen and the union known as the United Brewery Men.

Cleveland Returns From Hunting.

CLEVELAND, Feb. 22.—Grover Cleveland and party returned from a hunting trip in the Bay Gun Club today and later left for the city.

THE KIDNEYS AND BLADDER TROUBLE

Had to Pass Water Very Often Day and Night.

Cured by the Great Kidney Remedy, Swamp-Root.

DR. KILMER & CO., Binghamton, N. Y. About two years ago I had a very severe case of kidney and bladder trouble. At the first I could not stand it to stay in bed for a moment or two, and was obliged to pass water every day and night. I tried medicines and doctors without getting relief. Noticing an advertisement in the Topeka State Journal of Swamp-Root, I determined to give it a trial and bought a bottle. By the time I had finished the first bottle the pain had entirely disappeared from my back. The pain and frequent desire to pass water ceased. However, I continued to take the medicine, using about six bottles in all. That was over a year ago and I have had no return of the trouble since.

(A. H. Nooney) Chief Engineer, State Building, Topeka, Kan. Jan. 2, 1902.

Weak and unhealthy kidneys are responsible for more sickness and suffering than any other disease, therefore, when, through neglect or other causes, kidney trouble is permitted to continue, fatal results are sure to follow.

We often see a relative, a friend, or an acquaintance apparently well, but in a few days he is seized with the most severe illness, or sudden death, caused by that fatal type of kidney trouble—Bright's Disease.

The mild and extraordinary effect of the world-famous kidney and bladder remedy, Dr. Kilmer's Swamp-Root, is soon realized. It stands the highest for its wonderful cures of the most distressing cases. A trial will convince any one—and you may have a sample bottle sent free, by mail.

EDITORIAL NOTE—Swamp-Root has been tested in so many ways, and has proven so successful in every case, that a special arrangement has been made by which all readers of the Oregonian who have not already tried it may have a sample bottle sent free by mail. Also a book telling all about Swamp-Root, and containing many of the thousands upon thousands of testimonial letters received from men and women who owe their good health, in fact their very lives, to the wonderful curative properties of Swamp-Root. In writing, be sure and mention reading this generous offer in the Portland Sunday Oregonian when sending your address to Dr. Kilmer & Co., Binghamton, N. Y.

If you are already convinced that Swamp-Root is what you need, you can purchase the regular fifty-cent and one-dollar size bottles at the drug stores everywhere. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root and the address, Binghamton, N. Y.

Americans to oppress them with success. Although their excellent system of railways would enable the Americans to concentrate in short time troops at threatened points on the coast, the invaders, by means of landing now at one point, now at another, could at last attain his end with the co-operation of the naval force. The corps of invasion could even take the offensive against the enemy's forces while the latter were yet imperfectly constructed, or he could avoid an attack on their part by re-embarking and moving away to land at still another point.

Such is the plan of this strategist and he has just caused it to be circulated in Berlin. It is as well to remark here that in the Lieutenant's opinion Germany is the only great power in a position single-handed to attack the United States. Britain, in case of war with America, could only gain success by the aid of the United States. She would be powerless to defend Canada, whose the Americans could make good their maritime reverses.

Finally, save Britain, no other great power but Germany has of her own, sufficient transport vessels to undertake such an operation as has just been described.

Turquoises and the Mongols. Cornhill. Turquoises are the favorite stones of all the Mongol races and are generally worn in their original state, except by the Chinese women, who have them roughly cut and wear the uncut stones with pearls and coral. Both the Turkoisan men and women ornament themselves with lump turquoises, the men wearing them attached to their single gold earrings, which are worn in the right ear only. The women

of Ladakh carry their fortunes on their heads in the shape of a broad strip of red cloth studded with huge turquoises, which, starting from the forehead, is carried over the head and hangs nearly to the waist. These pearls, as they are called, amongst the Ladakhis those turquoises are preferred that have little black specks in them, which show their genuineness; for even in the wilds of Central Asia the speltless blue composition emanating from Europe is offered for sale, the bazaar at Darjeeling being flooded with it. The Bhuttia women in the Darjeeling district wear quaint brass ornaments covered with chip turquoises, which are cheap, but the Mongolians have the embossed silver plates, which form such a becoming headgear, studded with really fine turquoises for which the owners have to give valuable furs in exchange.

The Rani of Sikkim, who comes from the mystic city of Lhasa, wears a wonderful erection on her head, which is a foot toilette, which stands at least a foot above her brow. It is composed of pearls, turquoises, rough rubies and other stones threaded on fine wires, which rise upon her to a point in the front, where it is topped by a little pinnacle of stone pearls. Though quite a little woman, this erection becomes the star of every party, forming a pretty frame to her delicate oval face.

Grantur Mitchell Wins. BAKER CITY, Feb. 22.—Frank Mitchell won in the High School oratorical contest here this evening for the medal offered each year by C. A. Johns. There were eight contestants.

Crater Lake National Park. Mr. Moody also secured a favorable report on Representative Tongue's bill creating a National park of 20 square miles around Crater Lake.

Passenger Train Held Up. BRISTOL, Tenn., Feb. 22.—A Virginia & Southwestern passenger train was held up by unknown men this afternoon be-

twen Big Stone Gap and Intermont, Va., about 69 miles northwest of Bristol. The men took \$50 from a box in the baggage car.

According to experiments conducted by H. Janssen on Mont Blanc. It is not necessary to erect poles for stringing telephone and telegraph wires in snow-covered countries. The snow is several inches thick; it serves as a good insulator; the wires can simply be laid down and be ready for transmission of messages.

Cured Of Piles. Mrs. Hinkley, Indianapolis, writes: "The doctors said it must be an operation costing \$500 and little chance to survive. I chose Pyramid Little Cure and one 50-cent box made me cured and well." All druggists sell it. It never fails to cure any form of Piles, try it. Book on Piles, Cause and Cure, free by mail. Pyramid Drug Co., Marshall, Mich.

ALL DISEASES

\$5 A MONTH

Hundreds of Your Friends Are Taking Advantage of the \$5 Rate and Are Being Cured of Long Standing Troubles.

The Best and Purest of Medicines and the Most Scientific Treatment of Disease Furnished Under This One Charge of \$5.00 a Month.

Until the innovation made by the Copeland Physicians, in placing medical skill and thorough scientific treatment for all diseases within the reach of the masses of the people, by making their total charges for medicines and treatment \$5 per month, it was almost impossible for those in moderate circumstances to obtain the services of skilled and conscientious specialists.

It was, and still is, for that matter, a frequent occurrence to hear complaints made over the excessive fees charged by those claiming to be specialists. The charge of the Copeland Specialists is but \$5 per month, including all medicines and appliances, and the time required for a cure under their system is shorter than that occupied by any other method. Moreover, their cures are genuine and permanent, this fact being freely attested to by well-known and reliable residents of this city, county and state. Read the testimony published today, and judge for yourself.

"After what Drs. Copeland and Montgomery have done for me I can surely recommend the treatment, and am glad of this opportunity to make known to the public the facts of my cure, and hope thereby to benefit others who are similarly afflicted."

NEGLECTED COLD GROWN SERIOUS, HE FEARED CONSUMPTION

Mr. George Sunderland, King's Heights, head of Johnson street, Portland; Mr. Sunderland spent the last five years in Alaska and British Columbia, and on his return trip last September was taken with a severe cold, which defied all treatment and developed into a serious and alarming catarrhal condition. He said: "Yes, on my way home I took a severe

DEAF 17 YEARS. SERIOUS BRONCHIAL TROUBLE HEALTH AND HEARING RESTORED.

Mr. Paul Schmidt, the popular blacksmith at Beaverton, Or., adds this strong endorsement of the competency of Drs. Copeland and Montgomery in curing catarrh and deafness. In speaking of his trouble he said: "My case was a very chronic and complicated one. I had been deaf in the left ear for 17 years, the result of catarrh, and my health seemed hopelessly shattered, the bronchial tubes being badly affected.

"When I say I was totally deaf in the left ear I am telling the truth. This ear had been dead to all sound for what to most people would be a lifetime. I could not hear anything with it whatever.

My head was stopped up, the nose discharged continually, and my throat was raw and sore, with a constant tickling.

My Cough Was Terrible, racking my system day and night, and making it impossible for myself or anybody else to sleep. There was a dull aching through the chest, and I raised large quantities of phlegm and mucus.

"To make matters worse my stomach gave out. I had no appetite, and what I did eat was not properly digested. My bowels were constipated. There wasn't a bone in my body that didn't ache and torture me. My

Strength Failed rapidly, and I was reduced from 167 to 152 pounds.

"My friends and relatives were greatly worried over my condition, and to please them I took up the treatment. I was under treatment but a short time when

in a way that left no doubt but what I would get entirely well. Now all signs of catarrh have disappeared, together with the cough and pains. I have gained 15 pounds, and my stomach is in excellent condition.

HOME TREATMENT

No one deprived of the benefits of the Copeland treatment because of living at a distance from the city. If you cannot come to the office, write for Home Treatment Symptom Book and Book, and be cured at home.

CONSULTATION FREE. Dr. Copeland's Book Free to All.

OFFICE HOURS—From 9 A. M. to 12 P. M. from 1 to 5 P. M. EVENINGS—Tuesdays and Fridays. SUNDAY—From 10 A. M. to 12 M.

Always seeks to find some expression for itself, and womanly gratitude will not keep silence. Cynical people sometimes say "Why do women wear these testimonials to the value of Dr. Pierce's Favorite Prescription? The answer can be put in one word, Gratitude. When, after years of agony a woman is freed from pain, when the weak woman is made strong and the sick woman well, the natural impulse is to write a word of grateful thanks for the medicine which caused the cure.

Dr. Pierce's Favorite Prescription cures diseases peculiar to women. It establishes regularity, stops weakening drains, heals inflammation and ulceration and cures female weakness.

Having used Dr. Pierce's Favorite Prescription and Golden Medical Discovery during the past year, writes Mrs. Mattie Long, of Frons Valley, Perry Co., Pa. "I can truthfully recommend the medicine for all female weaknesses. I have used several bottles of 'Favorite Prescription' which has cured a great many troubles which were so nervous and discouraged that I hardly knew what to do. Your kind advice for home treatment helped me wonderfully. Thanks to Dr. Pierce."

Dr. Pierce's Pleasant Pellets cure biliousness, and sick headache. They should be used in connection with "Favorite Prescription" whenever the use of a laxative is indicated.
