DEAD MEN's EYES.

The colors do not return the image back.

BOSTON, March 15—The public is warned of a new fraud, called "the coloring process," which is being practiced in many parts of the country. The fraud involves the use of a special process for coloring portraits, which results in the colors being applied directly to the face of the subject, and not to the photographic plate. This makes the portraits look much more natural than those taken by ordinary methods.

MR. MUSEUM MAKES APPEAL TO WOMEN TO SAVE W.C.T.U. TEMPLE.

Nestling on the New York State line, the W.C.T.U. Temple is the scene of a great celebration, attended by thousands of people.
