GUNNER HILL FAILS.

Survivor of Maine Ineligible for Commission in Navy. SAN FRANCISCO, March 8.-Joseph Hill, gunner on the United States train-

day. The meeting was behind closed doors, ing-ship Pensacola, and survivor of the Maine has received official notification from Washington that he is ineligible for a commission in the United States Navy. The notice says that he passed with credit the moral, mental and physical examina-tion, but that he was lacking in "profeseional qualifications."

Hill thus meets the same fate as Gunner Morgan, whose application for a commission was adversely passed upon last year. Hill at present holds the highest rank in the list of petty officers, and his pay as gunner would be more than that of Ensign. In speaking of the matter today he said while he was sorely disappointed he was not discouraged, and he means to get a commission if further ef-fort will do it. Under the act of March, 1961, enlisted men of the Navy under 35 years of age who can pass the examination are eligible for commissions when vacancies occur, and Hill says he comes under that provision.
