

KILLED BY STREET-CAR

NINE-YEAR-OLD GIRL, MARIE McPHERSON, RUN OVER

While Running Away From a Cow She Falls Under the Car

At 4:30 o'clock yesterday afternoon Marie, the 9-year-old daughter of Mr. and Mrs. H. K. McPherson, who live at 271 Russell street, Upper Albina, fell under the rear trucks of an electric freight car of the Portland Railway Company and received injuries from which she died within about 15 minutes after she had been removed to her home. It was a most shocking accident. From the account given of the affair it would seem that no blame attaches to any party.

With some other children who were driving a cow the little girl had gone east of Union avenue just north of Russell street. She was on the street as a car was coming along northward in charge of Motorman Circle. She took fright at the cow and ran directly at the passing car, apparently not noticing it. She struck the car about the middle with such force that her body was thrown directly in front of the rear trucks.

Both wheels passed over her right thigh, crushing it close to the hip. Her right hand and left foot were also caught and crushed. A bystander, seeing the child roll to one side as the car passed, ran and picked her up. Dr. C. E. Hawkes was summoned, and he had the child removed to her home at 271 Russell street, where she died in a few minutes. Her father and mother were present at the death of their little daughter.

Dr. Hawkes said her injuries were of such a nature that it was a wonder that she survived long enough to get to her home. After the accident she never spoke. The body was removed to the West Side morgue, and an inquest will be held as soon as the witnesses can be summoned.

The board of directors of the Mississippi-Avenue Building Association of Central Albina, has received the plans for the proposed public building to be erected on the corner of Mississippi avenue and Shaver street, from Architect Chappell Brown. While the directors are pleased with the plans for the building, the cost is regarded as a little too much, but may be adjusted, as the board will meet Mr. Brown and see if some changes can be made.

She was alone when the deed was committed, and sat in a chair, placed the muzzle in her mouth, and pressed one of her feet against the trigger. A few minutes afterward her little boy, Alfred, Palmer, 6 years old, came into the kitchen, saw his mother, and told a neighbor that his mother was sick. Mrs. Palmer had apparently died instantly.

'T WAS WEBER WEEK

Large Number of Specially Selected Webers Sold Last Week

Store News From Ellers Piano House

A Large Number of Fine New Uprights Have Sold This Week, and Dealers' Wholesale Prices. Six Dollars a Month Will Secure Choice of Nearly Two Carloads.

The past week was Weber week at Ellers Piano House, and more of these artistic and costly pianos found homes last week than ever before during the history of this city. Two full carloads of Webers, specially selected at the New York factories, were placed on exhibition and sale last Monday, and it is safe to say that never in the history of the piano business were more choice and high-priced grand and upright pianos displayed and sold in any retail establishment in this city, and even now, although a third of them found homes last week, we present a most beautiful array. We have a complete assortment of Weber pianos in stock, including the famous art styles, the "Baby Parlor," the "Romaine," the "Louis XIV" (1), and the "Colonial" (1), besides many baby and parlor grands. If you are interested in what is new and up to date in the modern highest grade pianoforte, it will pay you to carefully inspect and test these Weber beauties. Nothing quite so fine has ever been made by the renowned Weber factory, and nothing finer has ever been made by any piano-maker in the world.

SOME STARTLING PIANO PRICES

During the coming week we wish to sell our best medium-grade pianos ever shown in Portland. They were regularly sold by another house for \$225 and \$300 heretofore. These instruments are greatly improved, and better made than they were ever sold at. In fact, we doubt very much as to whether a San Francisco branch store or a concern getting its pianos from San Francisco jobbing-houses or on consignment from another house could afford to sell them for less than \$225 even now and make a living profit. But we are going to sell them for \$175 each, and the piano selling for \$175, and to make it an object for you to take one home quickly, we will sell you one on payment of \$10 down and \$5 a month. Remember the price, \$175 for \$10, one and the same to all alike, no more will be asked. We save money in accepted; 3 per cent off for all cash, or \$10 down and \$5 a month, with interest on deferred payments of \$10 per month. We are sure you will not find a single one of these pianos on hand by the end of the week. Better come in Monday and pick out the one you like best. These pianos are fully warranted, and while we are willing to sell them for \$175 for them, rest assured they are in every way as good and as valuable as the instruments sold by other dealers for \$300.
