Coupled With Invitation to Enter United States. .

WAS SUGGESTED BY NEWLANDS

He Opposes Sentimental Legislation That Will Only Help the Planters of the Island-Robertson Has Objections.

WASHINGTON, April 5.—Three separate minority reports on the Cuban reciprocity bill were filed today by Representatives Robertson of Louisiana, Newlands of Ne vada, and Cooper of Texas, all Democrats. Mr. Robertson says in part:
"The bill, if enacted into law, would afford no relief to the Cuban treasury. I

believe that the benefits would go into the pockets of a few sugar planters own-ing thousands of acres of land. The 20 r cent reduction would not go to the immediately and entirely to fill the already overflowing coffers of the sugar re-finers of the United States, known by the name of the sugar srust."

Mr. Robertson expresses astonishment that one of his Democratic associates (Mr. McClellan), in his report, refers to the bill as an enunciation of "the Democratic doctrine of reciprocity." Mr. Robertson

"It seems to me that that kind of reci-It seems to me that that kind of reci-procity is absolutely impossible under a Democratic tariff. Should the tariff ever be revised on the line and plane of the principles of the Democratic party, reciprocity would be entirely unnecessary and impossible, as the rates would not be prohibitive, and the extension of our trade would, as a natural consequence, flow from the impossition of such tariff rates without the necessity of reciprocity."

Mr. Newlands makes an elaborate presentation proviously to the collision of the collision of

sentution, reviewing the political and com-merical phases. In conclusion, he says: "The American people are becoming tired of sentimental legislation. We have spent \$300,000,000 in a war to free Cuba. We have spent \$560,600,000 in attempting to carry civilization to the Philippines. It is now proposed by the sentimentalists that we should insugurate legislation sudden action of the police in enfor benefit of the American consumers, nor for the benefit of our agricultural classes, which have thus far received little of the benefit of our financia, legislation, but for the purpose of diverting to the Cuban planters, in order to relieve their threatened economic distress, a very large amount of money. I am willing to extend this sentimental legislation to Cuba for a reasonable period, provided it is accom-sanied by an invitation to Cuba to be-ome a part of the United States. I wish to give Cuba full opportunity of delibera-tion, and I am willing to relieve her ne-cessities so that this deliberation shall not be disturbed by acute economic distress, but I am opposed to the legislation, un-less we give Cuba clearly and unequivo-cally to understand that if she wishes commercial union with this country and conditions of commerce not enjoyed by other independent nations, she must seek political union with us in the form of an-nexation as a part of the Republic." for the Mr. Cooper's report 's brief, and ex-resses general opposition to the bill.

PHILIPPINE BILL NEXT.

After It Will Follow the Nienragua Canal Bill.

an steering committee of the Senate today decided to recommend that the bill was born in Eric County, New York, Auproviding a form of government for the Philippine archipelago should be made the frigate Merrimae on the Pacific station. unfinished business, which is the place of At the opening of the Civil War he was preference on the Senate calendar after serving on the Dacotah in Hampton the disposal of the Chinese exclusion bill and that the Nicaragua canal bill should be next assigned to that position. The question of reciprocity with Cuba was not discussed, owing to the fact that the bill is still in the House. It is the general understanding among Senators that this being a revenue measure, it is privileged.

Members of the steering committee express the opinion that the discussion of the Philippine bill will not greatly be prolonged and friends of the canal bill assert that there will be ample time for its consideration before final adjournment

The Republican members of the House insular committee practically completed the Philippine bill today and a print of the revised measure will be submitted to the Democratic members next week. As now changed, the bill reduces the number of Philippine Commissioners to the United States from three to two. The civil government plan and the gold standtime ago. A change is made in the friar lands section, by which the Philippine Commission will determine the methods of opening these lands to homesteaders.

FOWLER FINANCIAL BILL.

House Committee Orders a Favorable Report On It.

WASHINGTON, April 5.-The House committee on banking and currency, by a vote on party lines, today ordered a favorable report on the financial bill framed by the Republican members of the com-mittee and introduced by Chairman Fowler, "to maintain the gold standard, prowide an elastic currency, equalize the rates of interest throughout the country and further amend the National banking

The details of the measure were given when Fowler introduced it, and since then the changes have not affected any of the principles of the bill. It brings together many plans which have heretofor en urged separately. A division of bank ing and currency is created in the Treasury Department, with a board of control of three members, superseding the pres-ent Controller of the Currency. The methods by which banks may take out circulation are provided; the parity of the silver dollar with gold is established; provision for the establishment of branch National banks is made; silver bullion in the Treasury is to be coined into subsidiary silver; guaranty funds are pro-vided to protect against insolvent banks.

Irrigation Bill Amended. WASHINGTON, April 5.—The House committee on irrigation today amended the irrigation bill in accordance with the understanding arrived at during recent conferences between the President and its advocates. The amendments prevent spec-ulative entries and provide that nothing shall effect the rights of states to inter-

ment.
Captain Croxier said today, in referring
to the published statement that the unfavorable roport of the Senate military
committee on his nomination was based on the charge that he was interested in

certain ordnance patents:
"I have no interest in the use by the
United States of any invention. Those for which I have patents the Government is free to use, and the members of the committee all know it, as I surrendered my legal rights without ever taking any profit for them from the United States, either directly or indirectly, and the evi-dence thereof has been presented to the

NEW YORK EXCISE LAW. Policemen Hold a Meeting and Decide to Close Saloons Touny.

NEW YORK, April 5.—At a meeting of policemen of Greater New York today It was decided that the policemen would do all in their power to keep closed every liquor saloon in the city tomorrow. Each of the SI precincts of the city was represented. A number of the men present pledged themselves to make arrests for excise violations temetrow, even though they might not be on duty when such cases were called to their attention. It was agreed that experienced men would be in each stationhouse and magistrate's court to aid in obtaining warrants when they might be required. When entrance cannot be obtained to a barroom where drinks are being sold, the policeman on post will visit a magistrate, after first telling his creating when his creating to the court of the court telling his captain what he is going to do, and get a warrant for the barkeep-er's arrest. It is understood among the men that the enforcement of the law is

not to cease at sundown.

The ministers who are members of the New York conference of the Methodist Episcopal Church now in annual ses-sion here adopted a resolution indorsing the New York policemen for rebeiling against the system of police protection, which, it is alleged, has been in vogue

Liquor Dealers' Association of New York City and vicinity, at spe-cial meetings just held, are stated to have decided to compel the police to enforce every blue law on the statute books next Sunday. They propose that not only shall saloons be closed on that day, but that every store and place of business open contrary to law shall be shut up as that we should insugurate legislation sudden action of the police in enforcing changing our finance system, not for the State excise agents for more than a

month past have been at work in and about New York getting evidence against druggists who violate the liquor tax law by selling liquor in quantities less than five wine gallons and without a physician's prescription. This has resulted in the issuance by the State Excise Department of 200 notices calling upon that number of druggists to forfelt \$500 under the terms of their license. The druggists are preparing to resist the collection of those fines, amounting to \$100,000.

Police Doing Their Duty. NEW YORK, April 6.-It was quite apparent at 1 o'clock this (Sunday) morning. In many sections of the city, that

the saloon-keepers gave earnest con-sideration to what occurred at the po-licemen's meeting yesterday afternoon, for they closed their places at 12 o'clock

THE DEATH ROLL.

Landing Guns on the Coast-Italian Officers in Disguise Said to Be Taking Soundings.

LONDON, April 6.—A dispatch to the Exchange Telegraph Company from Con-stantinople announces that the Porte has filed a complaint with the Italian Am-buseador, charging that Italian fishermen are extensively engaged in landing guns on the coast of Tripoll and that Italian officers in disguise are employed on board sponge boats in taking sound-ings and observations.

AT THE LONDON THEATERS. Ben Hur" Provokes Much Adverse

Comment. LONDON, April 5.—"Ben Hur," which was produced at the Drury Lane Theater last Thursday evening, ie not likely to achieve success here until it is remodeled. The lack of skill in dealing with religion is strongly condemned by the newspapers, and caused a great deal of "booling" and bissing on the opening night. The general opinion is that the play should end with the chariot race. This is well voiced in the London Times, which says: "Any capable hack playwright could have put together a better setting for the features of the story and we should be spared the unedifying mixture of religious elements with that par-ticular kind of melodrama which has its home at Drury Lane."

Charles Frohman has secured the tmerican rights of "The Country danse," by Arthur Law, now running successfully at the Prince of Wales. Theater. Mr. Frohman also secured from Captain Marshall, the author of "The Second in Command," his new play. which will be produced at the Haymar-ket Theater next October. Mr. Froh-man is also planning Maude Adams' season in London, beginning September, 1903, and commencing with the production of "L'Aiglon," but as many preliminary announcements of Miss Alams' approaching appearance have not been followed by her debut here, Londoners are becom-

ing skeptical of seeing her.

Mrs. Brown Potter's much-heralded appearance as Calypso in "Ulysses," at Her Majesty's Theater, scarcely justified the preliminary fuss. The critics are not very enthusiastic over her rendering of the part. They think her predecessor, Miss Nancy Price, was a better Calypso.

Attempted Assassination at Moscow MOSCOW, April 5.—Another attempt to assassinate M. Trepoff, the Moscow Prefect of Police, was frustrated yesterday

with the prefect applied at M. Trepoff's office and upon being refused admittance drew a dagger and attempted to kill the official in charge of the ante-room. It was evidently his intention to force an entrance into M. Trepoff's private office. The would-be assassin was disarmed after a hard struggle.

Turkish Kidnaper Dismissed. LONDON, April 6.—A dispatch to the central News from Vienna says that the sultan, at the instance of the Russian Consul at Salonica, has dismissed Tewfik Bey, the Vali of that district, for kid-naping 52 Macedonian women as a punishment of the inhabitants of the Dorlen district, where an insurrection was re-

The New Triple Alliance. VIENNA, April 5.—With a view of giv-ing fresh proof of the pacific tendency of the triple alliance, the powers interested have decided to publish, after the completion of the new treaty, a statement pointing out the defensive character of the alliance, which is operative only in connection with European questions.

S., April 5.—The Royal Canadian Regiment of Infantry has volintecred for services in South The offer was made today by Colonel White, the Commander of the regiment, to the Acting General, Colonel Biscoo who is in command of the British forces in North America. The regiment is 1000 strong and is now doing garrison duty in Hallfax. The offer was cabled to the British War Office.

FROM OCEAN TO OCEAN. FROM OCEAN TO OCEAN.

Gould and Clark Combine in Transcontinental Line.

LOS ANGELES, Cal., April 6.-The Her Los Angeles will be the Pacific Coast terminus of the Gould railway system. The Gould and Clark interests have combined at either side of the continent, Sen ator W. A. Clark having joined with George J. Gould in the building of a road from Pittsburg to the Atlantic seaboard, and Mr. Gould becoming interested in the San Pedro, Los Angeles & Salt Lake road. These associations will give the Gould system a continuous line of roads across the continent, beginning Salt Lake; then the Rib Grande and the Denver & Rio Grande to Denver; the Missouri Pacific to St. Louis; the Wabash to Pittsburg, and the West Virginla Central, with projected extensions,

to the Atlantic. Charles W. Clark, the Senator's who is now in Los Angeles, and J. Ross Clark, brother of the Senator, who has the management of the Sait Lake Rall-road, would only partly affirm the report of the combination of the Gould and Clark "I haven't received any direct information concerning a combination with Mr. Gould," said J. Ross Clark. "It seems probable, and such action at Sait Lake would give Mr. Gould the long-sought outlet to the Pacific, but I can't enlighten you further."

EUREKA & EASTERN PROJECT. Harriman Said to Be in It-Construction "in the Spring."

George H. Proctor, of the Finance Com-pany, of 27 William street, New York, sends the Rallway Age the following in sense the Hallway Age the following in-formation in regard to the Eureka & East-ern Railway, arrangements for building which are said to have been completed by the Finance Company:

by the Finance Company:
"Preliminary surveys have already been received, showing the maximum grade of less than 2½ per cent between Bureka and Redding, Cal., with an extreme altitude of only 400 feet. From Redding, east and north, the line reaches an altitude of 5000 feet, and avoids necessity for snow-sheds. The Eureka & Eastern will form a connection with the Northern Pacific near Boise, Idaho, and with the Oregon Short Line, enabling the lumber inter-cests of Humboldt County to ship their products into the Eastern market. The imports and exports from the port of Eu-reka are valued at over \$6,000,000 annually. This railway will serve a population of nearly 250,000 people, who now have no direct railway connections. The territory which it will traverse has lumber, coal mines, gold and copper mines and agricultural lands. The bonds are being underwritten, and the work is reported to be
progressing rapidly. The contract for
building the road is said to have been
awarded to Drake & Stratton, of New
York, work to begin in the Spring. It is
reported that the road is to be built in the
interests of the Northern Pacific and interests of the Northern Pacific and Great Northern, and that the latter will be extended from Butte. Mont., to Weiser, be extended from Butte. Mont., to Weiser.
Idaho, to connect with the proposed line.
A branch of the Eureka & Eastern is to
be built from Falls River Mills. Cal.,
southeast to Wadsworth, Nev., to tan the
Union Pacific. Lord Thomas John Thurlough, of London, England, is at the head

of the syndleate, and associated with him are George H. Proctor, E. H. Harriman, J. R. Delamar, Robert Gibson, William R. A. Wilson, and others."

How the Eureka & Eastern is to connect with the Northern Pacific near Bolse when it has no line within 200 miles of that point is not quite clear. If the Northern Pacific is to build to meet near Bolse the mysterious line from Humboldt Bay, and the Great Northern is also to extend a road across the mountains from Butte to a connection with the Eureka & Eastern at Weiser, the enterprise means an extensive mileage of new track. The etatements concerning it leave so many statements concerning it leave so many gaps open that the project is not viewed seriously by railroad men of this country. It is regarded as a paper scheme for a railroad in a region which the map now shows not to be served by transportation

Rio Grandes Also in It.

The Rio Grande lines quote the same rates to the T. P. A. and A. O. U. W. National conventions 'n Portland and the United Presbyterian meeting in Tacoma that are quoted by the other lines to the Pacific Northwest. The Transcontinental Passenger Association has authorized the rates that all the lines are using, and the same limits and stop-over privileges apply

by every route.

The Union Pacific system, however, will make Portland the Western destination of tickets sold for the Tacoma meeting, ex-cept in cases where the purchaser desires to return the same way. This will have no effect on delegates or visitors to the convention in Tacoma, but it will tend to make Portland the destiration of a large number of excursionists who will take advantage of the occasion to make an excursion to the Northwest. Tacoma will then be on their way home if they go that way, or they may return by the South-ern lines, or make a side excursion in the Northwest and return over the Rio

Wabnah After a Tide-Water Line. BALTIMORE, April 5.—It is officially announced here that the Wabash system is the real party in interest in the bid put in by the "Fullor Syndicate" for the interest of this city in the Western Mary-land Railroad, and that Joseph Ramsay, Jr., president of the Wabash, has become a member of it. The purpose of the syn-dicate is to secure the Western Maryland for the maryland of cityles to the Wabash for the purpose of giving to the Wabash a line to tide-water, and it has offered \$5,500,000 for the city's interest. These facts were brought out today at a hear-ing before the Council's special committee having the matter in charge.

Will Cancel Secret Rates.

ST. PAUL April 5.—Passenger officials of the St. Paul-Chicago lines running southwest into Iowa and Nebraska have decided to cancel all secret rates made for the benefit of settlers and homeseekers. The special rates were all withdrawn to-day. This action is due to the recent in-junctions issued at the instance of the Interestate Commerce Commission, and served on the various roads running west from Chicago.

New Railroad in Mexico. MEXICO CITY, April 5.—As a result of the visit of General Miller's party, with whom came President Loree, of the Balti-more & Ohlo, it is announced today that a new railroad will be built connecting this city with the Pacific Coast. It is rumored that a concession is given with the understanding that work on the proposed line begin within 30 days and be pushed on without stop until the line

MR. SARGENT'S REPLY.

Says That La Grande Correspondent Fails to Point Out Any Error.

is completed.

PORTLAND, April 2.-(To the Editor, -In today's issue of your paper the Rev. Father L. Przyblyski, of La Grande, replies to my article which appeared last Sunday and says that I "lapse into er-ror." It is very easy to say this, but I have searched through his letter in vain to find in what particular he finds me in error. He does not controvert a single statement by me made, but opens with much pomp by saying that my error is "common to all whose mind, though

Surprising Results.

A Simple Internal Remedy Makes Remarkable Cures of Catarrh.

People who have used sprays, inhalers. salves and washes for catarrh and have found how useless and inconvenient they are, will be agreeably surprised as re-sults following the use of a pleasant in-ternal remedy in tablet form; druggists everywhere admit that Stuart's Catarrh

Tablets, which they sell at 50 cents for full-sized treatment, is the safest, most effective and popular of all catarrh

Nearly all cheap cough mixtures and throat lozenges contain opintes; these cheap medicines give a temporary relief, especially with little children, by destroying rerve sensations; the irritation in throat which causes coughing is tem-porarily removed, not by removing the cause but by deadening the nerves of feeling the irritation is not felt, although it is still there and will promptly return. Stuart's Catarrh Tablets is the best to remove catarrhal secretion in the nose, throat or stomach waether in the land of whole-became they are composed of whole-some antiseptics—Blood Root, Red Gum from Eucalyptus tree, etc. When you from Eucalyptus tree, etc. When you use these tablets you know what you are putting into your system, and taking chances with cocaine, opiates similar poisons found in so many catarrh

cures and cough medicines.

Dr. Ramsdell, in commenting on catarrh cures, says: "I can heartily recommend Stuart's Catarrh Tablets, because they contain no cocalne nor other danger-ous drug found in so many advertised catarrh cures. I have known of many cases of long-standing catarrh of the head and throat completely cured by the daily use of these tablets for several weeks. One case in particular, which I weeks. One case in particular, which I could not reach with an inhaler or spray, and where the catarrh caused daily headaches and a noticeable loss of hearing, was entirely cured by this harmless but effective remedy.

Dr. Wainwright says: "I never hesitate to prescribe Stuart's Catarrh Tablets for catarrhal headaches and catarrhal deafness, because I know them to be perfectly safe for child or adult, and have seen many remarkable cures result ing from their regular daily use; because they are advertised and sold in drug stores is no reason why any good physician should not use them, because we should selze upon the means of cure wherever found."

Stuart's Catarry Toplets are specially

CATARRHAL NERVOUSNESS

A Condition Known as Systemic Catarrh --- A Prominent Doctor Cured by Pe-ru-na.

Dr. G. B. Crowe, a physician and a very influential man in Alabama, and Chairman of the Populist State Committee, in a recent letter to Dr. Hartman of Columbus, Ohio, says:

Washington, D. C.

"Pe-ru-na is a most valuable medicine. It affords me unlimited pleasure to testify as to the merits of your remedy as a catarrh cure. have used it as such and find it is of very great benefit when my nervous system is run down. I heartily recommend Pe-ru-na to all whose nervous systems are deranged."

G. B. CROWE, M. D.

The nervous system is the source of all | chial tubes, stomach, bowels, kidneys and our hodfly powers, mental or physical. The brain and spinal cord generate the ower and the nerve fibers convey the wer to every part of the body.

It is the nerves that give the heart power to beat; it is the nerves that give the arteries the power to contract, and thus regulate the flow of blood through

Each artery is provided with an elastic or muscular coat, which is capable of contracting or expanding so as to permit nore or less blood to pass through, ac-ording to the needs of the body. When the nerves are paralyzed or weakened, this contractile power of the blood vessels is wholly or partly destroyed. This produces congestion, especially of

The congestion may occur in the mucous | Some of the membrane lining the nose, throat, bron- every case.

amply filled with piece-knowledge, lacks

But the questions asked by my worthy critic, and of which his letter is largely composed, suggest to me that even his

"comprehensiveness and lucklity by exact training" might be improved if he would take the time to read any modern text-

book on biology. For example: He takes

two statements from my letter, one that human spermatozoa, mounted under cover

glasses and protected from evaporation, have been observed to exhibit distinct

vibratile motion after nine days; and the other that for a time the spermatozog

remain inactive after they have entered

the ovum, while the latter gets rid of a part of its internal structure; and then asks how I reconcile these state-ments. "I should think," he says, "that

human sperm, while it is protected from

evaporation, when mounted under cover glasses, should 'a pari' exhibit vibratile

motion while having its head buried in the soft, jelly-like substance of the egs. What's then the reason that it should,

ture to hope that even the comprehensive and lucid mind of the reverend gentle-man will be able to appreciate it. It is

simply this: When the head of the sperm cell is buried in the ovum, its tail, the only part that vibrates, drops off!

The correspondent would also like me to state whether the theory I gave of the cell, the fusion of the sperm and

ovum, and the subsequent process of di-vision, are matters of definite knowledge,

or only speculative and hypothetical. In

this age of enlightenment such questions will cause a smile from anyone who knows anything about the subject. Be-

sides, I used the very strong word, "established," concerning them, and gave references to the works of Piersol, pro-

fessor of anatomy at the University of Pennsylvania, and of Conn, professor of biology in the Wesleyan University. Does

the reverend gentleman really want in-formation, or is he endeavoring to es-cape from the effect of the facts given?

I am somewhat surprised that my critic charges me with "declaring" Father Schmitt's assertion that the soul was

such thing, but hoping that this may be

in unintentional error, I beg to refer him

control over the intricacies of logic.

pelvic organs. Whenever it occurs it produces the same endition-chronic catarrh.

The symptoms of catarrhal nervousness are: A foreboding of calamity, a sense of something awful about to happen twitching of the cyclids, moving brown specks before the eyes, and metallic ringing in the ears, sour stomach after eating, with belching of gas; a feeling of great weight in the stomach, morbid fear of leaving home, a constant desire to talk of symptoms, chills and hot flashes, hands and feet usually cold and clammy, general tendency to coldness and dryness of the skin of the whole body, neuralgic headache, nervous chilis, hysteria, sinking and faint spells, distressing palpitathe mucous membrane libing the various tion of the heart, defective eyesight, total prepares of the body.

When this congestion continues for the abundant write or do any business, trull statement of your case, and he will be urine abundant without color, loss of the pleased to give you his valuable advocate time it is known as chronic eatern. Some of these symptoms are present in

All that is claimed for Peruna is that it cures catarrh, wherever located, by its action on the vaso-motor system of nerves. That it is a specific for that phase of catarrh called catarrhal nervousness, the following letters show:

Mr. T. W. Scott, Custom-House, San Francisco, Cal., writes:
"Some time ago, suffering from indigestion, loss of sleep, and what might be termed general exhaustion, I was rec-ommended to try Peruna, which I did, and found that it did all that is claimed and found that it did all that is claimed,
for it. I have tried quite a number of
tonics, but Peruna was the first one from
which I derived any great benefit. Several of my family have used it for different complaints, as we never are without a bottle in the house, and it seems to be a household necessity. I always recommend it to my friends who I think need such a remedy.

Mr. W. A. Roberts, No. 1404 McGeestreet, Kansas City, Mo., County Treasurer of Ottawa County, Kansas, writes:
"No one can endure a prolonged strain
but that nature will demand rest or you will suffer for it. I found this out dur-ing my last official campaign, which was unusually severe, and resulted in an overtaxed system. I was unfit to properly as-sume my dutire, and it was a serious problem to me to decide what to do, when my deputy advised me to try Peruna, as it had cured him when he was a physical wreck. I sent for a bottle and method-ically used it, and was much pleased to flad that soon new blood began to flow, restful sleep came to me, and my appe-tite increased, and my nerves became quiet, and within two months I felt as though I had enjoyed a year's rest. I am

pleased to indorse Peruna.

"W. A. ROBERTS."

In a letter from Emsley, South Dakota. Mr. Adam Doering writes as follows:
"For about three years I was afflicted with sleeplessness, lack of appetite and felt at all times fevertsh and nervous.
There would be ringing in my ears, and
I got so weak finally that I could not at-

tend to my farm work.
"During this time three physicians treated me; they did not help me and gave me no hope of recovery. I was positive of dying soon, when my attention was

called to Peruna I tried the medi cine; without much expectation of being benefited by it. But soon its effects began to show. I could eleep, my appe-tite returned. I became stronger mentally, and my nervous trembling ceared. I used a beautiful Chlonge ceared. I used girl, writes the follow-about twenty hot-tles in a year, and at the end of that at the end of that time I was another man. My health was and is

row more robust than it has been or many years, "Peruna saved Its effects are truly wonderful in rejuvenat my life, and I ing the entire system. I write this letter keep it on hand all the to express my time, and never have thanks. I hope that 'tired feeling,' as to express my thanks. I hope that you will use it, and make it known for the

committal of this Government to the the comprehensiveness and lucidity of one Democratic party," says the Atlanta whose mind, by exact training, acquired Constitution. We, for ourselves, hope Constitution. We, for ourselves, hope for better things. The Democratic party, under Randall and Gorman and even David B. Hill, afforded but indifferent footing for tariff reform, We have the impression, indeed, that the Atlanta Constitution itself was not very sealous. No More Dread stitution itself was not very sealous for this improvement in legislation in earlier days. The Democratic party, as it has **Dental Chair** been in the last six years, has so bog-gled affairs that it will take toward half a generation to so constitute the United States Senate that the Democrats will have a majority there. Our hope, there fore, is more in the conversion of Repub licans to sensible tariff views than in tariff reform being achieved through a Democratic majority in joint action in TEETH EXTRACTED AND FILLED ABSO-

the two branches of Congress.
