THE BAKER THEATER (Third and Yamhill)—The Stuart Stock Company presents Milton Noble's great play, "From Sire to Son." Matinee and evening.

CORDRAY'S THEATER—Milton Noble's famous drama, "From Sire to Son," produced by Frank Cooley and Company.

THE OREGONIAN'S HANDBOOK.

The Oregonian's Handbook tells all about Portland, the entire Columbia River watershed and the 1905 World's Fair, commemorative of the Lewis and Clark expedition to Oregon. The book contains over 150 handsome illustrations, and it is printed on enameled book paper. It will be mailed to any address in the United States or Canada for 7 cents a copy.

BOISE AND THUNDER MOUNTAIN.—Colonel Judson Spofford, a well-known capitalist of Boise, Idaho, who is spending a few days at the Portland, is enthusiastic over the prospects of the Thunder Mountain mining district, and declares that the shortest and best way to reach the region is by way of Boise. Speaking to a representative of The Oregonian yesterday, Colonel Spofford said: "Boise has raised $27,000 for the improvement of the state wagon road, which covers 120 of the 160 miles that separate our city from the mining district, and for the construction of a new road for the remainder of the distance. The route, by way of Boise, is the natural highway to and from this great mining district, as it is shorter by many miles, and presents fewer engineering obstacles. Our road will be completed within a few months, and numerous pack trains will run between Boise and Thunder Mountain. It will be a far better route than the one by way of Weiser, and all other routes are unnecessarily long. A large force of men is now at work on the new road, which will be finished with all possible dispatch. Last fall when miners wanted to take their stamp mills in the Boise route was the only one on which the packers would bid. "I believe that there will be 50,000 people in this district before September. It may not prove as rich a camp as Cripple Creek, but I am sure it is more extensive."

TONTINE CHECKS ISSUED.—Five million sixty thousand dollars disbursed by the Pacific Mercantile Company. The incorporators of this company, who were the representatives of the defunct Tontine Savings Association, of Minneapolis, are more than gratified at the results. The patrons of that defunct association in Oregon, Washington and British Columbia are being protected, and General Manager Olsen reports that the success of the Pacific Mercantile Company is an assured fact, and states the volume of business for the first three weeks has exceeded their anticipation. New applications are being received, and the general agents report that all the patrons are giving their co-operation to the new company. If interested call at the home offices of the Pacific Mercantile Company, suite 211-212-213, Oregonian building. J. F. Olsen, general manager. *

TO LAY CORNER-STONE JUNE 12.—W. E. Brace, grand master of Masons in Oregon, has designated Thursday afternoon, June 12, as the date for laying the corner-stone of the Scottish Rite Cathedral. This will be the second day of the session of the grand lodge. It is understood that Oregon Commandery, No. 1, Knights Templar, will assist the grand lodge, and that all Knights Templar in the state will be invited to join with them. Judge W. D. Fenton, a 32d degree Mason, will deliver the oration.

Trinity Church site for sale; see adv.*

"I WILL wager a five-pound box of the best candies I can place the best brand of Eastern confections in another package, or feed them to you in the dark, and, although you be an ardent consumer of the same goods, you will be unable to distinguish them from any other make. Now, I will make the same wager of 'The Carroll Chips' or 'The Carroll Cream' and three-fourths of my customers will immediately cry Carroll's. Why? Because there is a difference, a meritorious difference in the flavor, neither fancied nor prejudiced, that has brought me customers one by one 'to have and to hold,' and will eventually be the candies that will make Portland famous. I know the goods."—Carroll's, opposite Imperial. *

MEATS MUST GO UP.—Restaurant-keepers are agreed that they must charge more for meat orders, but they have not yet decided how to go about it. Last Monday night they held a meeting. Not enough of them were present to enter into an agreement. They will try it again tomorrow night. They plan to advance the cost of meat orders about 5 cents a plate. They give as a reason the high cost of provisions. "It isn't doing a thing to us," said one of them last night. "The public should help endure the grind. Prices of meat, potatoes and chickens are so high up in the air that we have to get up on stepladders to reach them."

PAY YOUR BICYCLE TAX.—Bicycle tags are going slow, the Sheriff having only disposed of about 300 up to date, making a total collection for the bicycle fund of about $900. All persons who ride bicycles on the bicycle paths must obtain tags. The only place to procure tags is at the Sheriff's office, as there are no outside collectors at work, and none will be placed in the field this year. After the tax has been declared delinquent payment will be enforced as provided by law, by the seizure of wheels, or levy upon other property. Last year a large number of delinquents were made to pay a penalty.

WE STILL have a part of the Cascada Mining & Development (Polar Star) stock left. Exhibits of ore from this mine can be seen at the offices of Sessions & Simpson, ground floor, Chamber of Commerce building. They sell this stock for 50 cents per share. Our price is 25 cents, but in order to start the ball rolling we will sell the first 1000 shares Monday morning for 20 cents per share; first come first served. I. H. Bingham, 110 Sherlock building. *

COMMUNITY AND INDIVIDUAL.—Tuesday evening Robert H. Wilson will give the 14th lecture in the course presented by the Economic League. His full title is "The Welfare of the Community, the Interest of the Individual." The place is Unitarian Chapel, admission free. Mr. Wilson is sure to present to his hearers the "beaten oil" of hard study and wide observation of men and things.

TOTAL REGISTRATION, 17,700. The total registration up to date is about 17,700. The average number of registered each day during the week was about 25. The office was kept kept open last night to accommodate voters who are unable to come in the day time, but only a few came. The office will be open every night until 10 o'clock until further notice. Yesterday 25 electors registered.

TICKETS to the Past Sachem's excursion, to be given Sunday, May 11, are selling fast, and there promises to be two large trainloads of people. Hundreds of Portland residents who have never seen both sides of the beautiful Willamette Valley should take this trip. The Past Sachem's excursions have become popular with the Portland public. *

SMALLPOX CASES DIMINISH.—Health Officer Menefee, who recently completed his annual report, states during the past 12 months there were 103 cases of smallpox, as compared with 65 cases during the previous year. He says the number of cases is diminishing, and that with the coming of warm weather there will be no more smallpox.

THE J. McCraken Company has moved its storage warehouse and office for the sale of lime, plaster, cement, etc., to Nos. 231-235 Pine street, corner Second. D. M. Osborne & Co., for whom they transfer farm implements and harvesting machinery, will be found at the above location. *

SWEET cream and ice cream, wholesale and retail. Washington Creamery. *

The "Ultra," $3 50 shoe for ladies. M. Billings, 229 Morrison.

B. B. RICH STORE NO. 7

WILL BE IN THE PERKINS HOTEL LOBBY.

It Will Be Conducted on the Same Liberal Lines as All His Stores.

B. B. Rich, the cigar man, has added one more to his chain of stores, making the seventh one in this city. All of them are conducted on the same liberal lines and is the secret of Mr. Rich's success. The ability to give the smoking public values lies in purchasing power, enabling him to give smokers full factory sizes and first selection. Periodicals, souvenirs and tourists' supplies, such as kept in all first-class hotels, will be a feature of the Perkins store.

GREAT INTEREST SHOWN

In Renovation of the Fourth-Street Pavement.

Public attention is still centered on the repaving of Fourth street, now well under way between Morrison and Washington. While considerable speculation is indulged in by spectators as to the stability and longevity of wood blocks treated with avenarius carbolineum, the general consensus of opinion seems to be that the process is well worth a trial and is likely to prove a success. Those who have been abroad and seen the excellent results secured by treating wooden paving blocks with the preservative, in foreign cities, are particularly enthusiastic and predict that the problem of installing lasting and sanitary pavements in Portland from cheap native material will be solved by this new departure. Blocks inferior to Oregon fir treated with avenarius carbolineum and laid on Northumberland avenue and Charing Cross, London, in 1894, have stood the wear and tear of travel and climatic influence for eight years without repairs and are still in perfect condition. The same is true of similar pavements laid on the magnificent boulevards of Berlin and other cities for still longer periods.

The blocks used on Fourth street are thoroughly treated and thereby rendered impervious to dampness and consequent decay, which has proved so destructive to fir blocks laid in their natural state without protection from the elements. Portland property-owners, rendered suspicious by past failures, did not sanction the use of carbolineum-treated blocks without due investigation of the merits of the preservative, and if results obtained in all quarters of the globe under all sorts of climatic conditions are any criterion, their faith is not misplaced.

WILL BE ELECTED.

In the coming June election there is no question whatever but that suitable parties will be elected. The point I wish to make now is that my stock of goods is selected. Call and see my fine line of mantels, grates, tiling, gas and electric chandeliers, andirons, portable baskets, spark screens and fenders. All kinds of electrical and gas work promptly attended to. M. J. Walsh, showrooms No. 245 Washington streets. Call up either 'phone.
