### ALBANY IS CHOSEN

National Guard Encampment Will Be Held There.

SALEM MADE A BID FOR IT

Many Militinmen Favored a Const Point, but Expense Would Have Been Too Great-July 17-24 the Dates Fixed.

ALBANY, May 10 -- Adjutant-General C. U. Gantenbein, of the Oregon National Guard, was in the city today, and with Major Ellis and Captain Stellmacher and others, inspected the adjoining country for a location for the annual state encamp-Hackleman's grove and the large field adjoining, in the southeastern sub-urbs of the city, were selected by Adjutant-General Gantenbeln, and an order will be issued for the holding of the en-campment at this city. July 17 to 24 inclusive. Twenty-two companies in all, in-bluding hospital corps and troops, will be here, about 1400 men. The people of Aibany generally appreciate the selection of this city, and will endeavor to make the city a popular one for such an opcomp-

(General Gantenbein returned from Alany last night, and when interviewed by an Oregonian reporter said that Governor Geer, as Commander-in-Chief of the Ore-gon National Guard, has decided that the brigade encampment shall be held at a point near Albany from July 17 to July 24, inclusive. Many members of the guard had favored an encampment at some point on the coast, and a proposition to that effect had been made. It could not be favorably considered, however, as the funds available would not permit the placing of the troops in camp for a period longer than eight days. Were the encampment to be held at the coast there would be additional cost of transportation, and the hours of drill, etc., would necessarily be curtailed on account of the time occupied in traveling to and fro. Moreover, an encampment at a coast point

night expose the guard to criticism. General Gantenbein said that, in view of the facts, Governor Geer decided that the encampment should be held at a central point in the Willamette Valley. One reason was that the expense of transpor-tation would be reduced, and another that the guard would be given the maximum number of days for instruction. The cit-izens of Salem had made application for the encampment, and the citizens of Alsembled near their town. As the brigade encampment of two years ago had been held at Salem, General Gantenbein, as Quariermaster-General, was directed to proceed to Albany and ascertain whether a suitable atte could be obtained. After a thorough examination, the Hackleman grove, about a quarter of a mile from the outskirts of the city, and a large open field near by were accepted and were re-ported to and accepted by the Governor. Water for the troops will be supplied by the Albany Water Company, which draws lis supply from the north fork of the

STOLE MORPHINE FOR A WOMAN. Civil War Veteran Is Lodged in Jail at Pendleton.

PENDLETON, May 10.-On the first of May the drug store of Brock & McComas, of this city, was robbed. The burglar, who was evidently fa-millar with the store, effected an entrance by boring through a panel of the door and then removing the fastenings. About \$5 was taken from the till, whisky and brandy of the value of \$4 were missed, and a jar of morphine worth about \$20 was carried off. The police were informed of the matter, but nothing was said publicly. As the morphine was kept in a secret place it was evident that the thief was an employe of the store or had been one. Suspicion fell upon Thomas E. James, who had been janitor some months ago, but was no longer in the em-ploy of the firm. James had a mistress, one Mrs. Morgan, who had a reputation as a morphine field. The police questioned her and discovered that she had a large amount of morphine on hand. On being threatened with arrest she confessed that James had supplied her with the drug. An officer searched James' house last Wednesday night and found the rest of the morphine in his possession, also the empty whisky and brandy bottles. He was ar-rested and in default of ball was com-mitted to the county jail for a hearing, which comes off next Monday. James has been prominent in Grand Army circles and is quartermaster of Kit

Carson Post, of this city. For some time past he has been writing letters to the various Grand Army posts of the state, alleging that W. J. Furnish, the Republican nominee for Governor, insulted the old soldiers by ordering them out of the line at a Fourth of left named in 1999. line at a Fourth of July parade in 1892 in Pendleton, and applying shameful epithets to them. Of course there was no truth In James' charges, nor any foundation for his slander. Mr. Furnish did not insult the veterans, and had nothing to do with the line of march on the occasion referred to by James, but James was so indus-trious in his campaign of slander that he got many Grand Army men to think there was something in his charges. He sent letters to the Willamette Valley and all over Eastern Oregon, and created quite a feeling against Mr. Furoish. He was about to go to La Grande and Baker City to tell his story, but his uniucky arrest and incarceration nipped his campaign thunder, so to speak, in the bud,

MARKS AN ERA IN MINING. Second Hoist and Sinking Plant In-

stalled in Baker County. SUMPTER, Or., May 10.-Superintendent Thacher, of the Bonanza mine, has put into operation the new hoist and sinking plant constructed by the Benauza Company. At the present time only one cage is being used, but the shaft started has three compartments, two of which are for cages, and one for pipes and a manway. This heist and sinking plant is the second to be constructed in Eastern Oregon, the Red Boy being the first. The Red Boy noist cost about \$150,000, but the Bonanga These two great hoists are the first real effort toward attaining depth in the mines of Eastern Oregon. Each has a capacity of about 3000 feet depth, and is capable of handling all the water that will be en-countered. Large compressors are installed to operate power drills. The plants are as complete and thorough as can be found in the West. The expenditure of such large sums for holsting and sinking plants marks an era in the mining of

NEW MINING TOWN. Greenhorn is Absorbing Frail Life of

Robinsonville. SUMPTER, May 10.—A new mining town is springing up in the Greenhorn Mountains, and is absorbing the frail life of the weil-known old town of Robinsonville. Its name is Greenhorn, and is situated on a high divide of a Greenhorn spur, a few yards from the boundary between Baker and Grant Counties. It is in Baker County, but cannot grow much without en-croaching upon Grant territory. Already there is a store, two saloons, hotel, blacksmith shop and other buildings, and five structures are under way.

SALEM, May 10.-Work on the state sewer, that will serve the insane asylum, penitentiary and statehouse, was resumed today by the contractor, C. A. Gray, who expects to complete the ditch by August 1. The work was begun last year, and progressed until the Winter season opened, when the task was abandoned until the weather became settled. The construction of this sewer is of great value to the sanitary condition of the city, which will be greatly promoted thereby, since the old Court-street sewer has never been large nough to perform the work required of it. When completed the sewer now being cor structed will cost the state about \$14,000.
