The State Central Committee recommended that all voters who are willing to support the Republican Congressional nominees at the November election be invited to participate in the primaries.

TO SETTLE CAPITOL DISPUTE. Contractors Serve Complaint in Suit to Receive Pay for "Extras."

OLYMPIA, May 10.—The F. H. Goss Construction Company, which has the contract for building the annex to the State Capitol building, has served its complaint on Attorney-General Stratton in the suit it was agreed by the Capitol Commission last week. The complaint charges the controversy as to whether the contractors should receive extra compensation for steel roofing and in other minor particulars. The complaint, in brief, alleges that the commission has ordered the contractors to place "extras" in the building amounting to the sum of \$21,235. They ask a decree of the court adjudging them to be entitled to that amount over and above the contract price of \$184,887, and pray for an injunction restraining the commission from paying out the full amount of the plumbing and heating contract prices on the ground that such payment would create an unlawful deficiency and leave no funds out of the appropriation of \$50,000 available for the payment of the contractors' extras. One of the most interesting points raised, however, is the contention that the architect's contract has been violated by him that further payments by the commission thereon are unnecessary and unlawful, and would tend

to create an unlawful deficiency to the detriment of the contractors. The grounds on which it is alleged the architect has violated his contract are that the law authorizes the commission to require an indemnifying contract and bond from the architect, guaranteeing that the contract cost of the building shall not exceed the amount appropriated therefor. The complaint closes with the prayer that the commission be required at once to audit and allow the contract percentage of the extras fully furnished for judgment as to the full amount of these extras, and directing that the plaintiffs have the prior right to be paid for same out of the appropriation for judgment against the state for the amount of any deficiency that may be found to exist after the exhausting of the appropriation, and that the commission may be restrained from making unnecessary expenditure and unlawfully increasing or creating a deficiency, and for costs and other relief as may be just and equitable. The complaint is signed by Herbert S. Griggs, Arthur Remington, Stanton Warburton and A. R. Thilo.

Perfect Health

Is within the reach of almost every woman. The weakness, nervousness and irritability from which so many women suffer is in general due to disease of the delicate womanly organism. What the doctor has cured the general health is re-established.

Doctor Pierce's Favorite Prescription makes weak women strong and sick women well. It promotes regularity, dries disagreeable and enfeebling drains, heals inflammation and ulceration and cures female weakness. When these diseases are cured, headache, backache, nervousness and weakness are cured also.

"I was very weak and nervous when I commenced taking Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery' about a year ago," writes Mrs. M. E. Everett, of 19 Oxford Street, Woodstock, Ont. "I had been suffering for seven long months, and had taken medicine from a physician all the time, but it seemed to make me feel much worse. My stomach was flat, my bowels constipated, my nerves were in such a state that I would start at the least noise. I felt irritable at all times, was not able to do any of my own house work; had to keep help all the time. How I suffered God and myself alone know. I was greatly discouraged when I commenced taking your medicines, but the first bottle seemed to help me. I took five bottles of 'Favorite Prescription' and two of 'Golden Medical Discovery,' also two vials of Dr. Pierce's Pleasant Pellets. I can highly recommend these medicines to all who suffer as I did, and never had better health than I now enjoy, and it is all owing to Dr. Pierce's medicine."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

been concerned in or connected with the abduction and expresses the belief that James Callahan, who was twice acquitted of participation in the crime, had nothing whatever to do with it. Mr. Callahan could not be reached by telephone tonight, and Chief of Police Donovan has not yet returned from the Louisville convention. Police officials seem tonight are inclined to discredit the story, or at least the greater part of it.

GUATEMALAN DISASTER. Further Details of the Destruction of Quetzaltenango.

SALT LAKE CITY, May 10.—In a letter to the secretary of the Mormon Church, dated April 25, from Paul Henning, elder and representative of the church in Guatemala, further details are given of the disastrous earthquake in that country. "The whole northwestern section," says Mr. Henning, "one of the richest in Central America, is in ruins. On the evening of the 13th (April) about 20 minutes after 11 o'clock, the first shock was felt. This lasted from 30 to 40 seconds, and caused the widest panic. There was no loss of life in Guatemala City, and property damage was not great. At first feared, though walls were cracked all over the city, and many old houses were tumbled in ruins. Ever since then the shocks have continued with more or less violence.

"The worst damage was done in the city of Quetzaltenango, the second largest in the country. Here it is estimated from 2500 to 3000 people were killed. At the time of the first shock a violent thunder and rainstorm was raging. The electric lighting plant of the city had been disabled, and when the people, panic-stricken by the rumbling and shaking of the earthquake, rushed from their houses, it was only to meet death. Stumbling and falling in the narrow, winding streets, in total darkness, save when the lightning lit up the crumbling city with an unearthly glare, the people died by thousands as they fell, while other thousands were caught like rats, only to die of suffocation or drowning.

"The quaking and rain kept up continuously for three days. This made it impossible to do any effective relief work, and as a consequence, now that the hot weather again prevails, the stench from the thousands of bodies buried in the ruins is unbearable, and fears are entertained of an epidemic. Hundreds of bodies probably never will be recovered."

Sale of French Decorative Objects. NEW YORK, May 10.—Another big sale of old French decorative objects and furniture, the property of Ernest Breckert M. P., which is in progress at Christie's, has attracted much attention. The sensation of the first day came when there was put up a unique, wretchedly carved, painted and gilt wood, standing 33 inches high, of Spanish early 16th century work. The central panel, which was divided in two parts, has arched tops, with ornate, carved, and gilded, narrow niches with cherubs' heads at the corners, each carved in high relief and showing an episode from the life of Christ and the Virgin Mary.

These are connected by narrow niches with figures of King David and other scriptural personages holding inscribed scrolls, standing beneath gothic arches enriched with Renaissance tracery. The bidding started at \$100, and the unique art object was knocked down to M. Seligman of Paris, for \$11,300.

A fine work by Jean Baptiste Pigalle, was purchased by the same bidder for \$15,500. This was a figure in white marble of a baby girl. Many other sales were made from \$100 to \$2500, the total reaching \$167,000.
