#### MAY GO TO SOUTH AFRICA

REPORT THAT SPEKE HAS BEEN TAKEN FOR CAPE BUSINESS.

Prade With Dark Continent Is Booming-Lewiston Planning Boat for Upper Snake-Marine Notes.

There was a report yesterday that the mammoth ship Speke, which has been lying idle at Astoria for several weeks, has been chartered to load wheat and flour at Portland for South Africa. The report could not be confirmed last evening, but it is probable that the big vessel will find business within a few days, if she is not already taken, as there is an increasing demand for breadstuffs from the Cape of Good Hope ports. The fleet from the Northwest for South Africa received another addition yesterday in the British bark Braemar, which has been lying at Royal Roads since May 2. Bhe will load at Tacoma for Cape Town, and will sail early in June. If the Speke is taken, it will improve the chances for business for the French bark Asle, which will be ready for cargo in a short time, as she will be the only available craft for spot loading, and her owners will probably be willing to accept a low rate in order to get her out where she can again be earning the bounty.

magain be earning the bounty.

When a British or German ship lays in, she loses only the time and the money she might have received for carrying carshe might have received for carrying cargo, but when a Frenchman is compelled
to remain idle, his loss by failure to reneive the mileage bounty is generally
greater than through loss of freight. The
Asie could have earned a bounty of over
15,000 had she been sailing for the last
four months, instead of being laid up in
the harbor piling up expenses. The steamship Quite has not yet succeeded in pickhar on a carry and as delays are much ing up a cargo, and as delays are much more expensive for steamers than sali-ers, her owners will be heavy losers by the fiattening out of the freight market.

#### NEW ORIENTAL LINE.

Boston Steamship Company Coming Into Pacific Trade at Dull Season.

Despite the surplus of steam tonnage and the fact that steamers plying to Ori-ental and Siberian ports are going out with hardly cargo enough to keep them properly ballasted, the Boston Steamship company is coming into the trade with fleet of good-sized steamers in the near Figure The new line is to run from
Puget Bound ports to the Orient, conmeeting at a Japan port with a line
while will run to Vadivostok. A San
When never reports that the new line
When never reports that the new line Which will fun to viadiostor. A oun Prancisco paper reports that the new line will begin operations August 1, and Frank Waterhouse, who was so successful in chartering steamships of the Manauenso type to the Government, will be manager

of the new line.

The Boston Steamship Company is composed of Eastern expitalists who formerly operated the Boston Towboat Company. The new line will be devoted exclusively to freight, and satisfactory arrangements are said to have been effected with the Northern Pacific Rallroad. The vessels to be used include the Pleiades and Hyades, ell known on the Pacific Coast, and for some months past in the coal trade; the Lyra and Shawmut, exceptionally large carriers, now en route from the East with coal cargoes, and the Tremont, which is to be launched in a few weeks at Sparrow Point, near Baltimore, All these steamers were built at the same place. The Shawmut is a new and finely ed freighter of over 6000 tons net

### BOAT FOR UPPER SNAKE.

Large One May Not Be Built, but Smaller One May.

Navigation of the Upper Snake River is again receiving considerable attention from the citizens of Lewiston, Idaho, and while the project of building a large the trade seems to have fallen through, they are now considering one for a less expensive boat. The Tribune of Priday has the following regarding the latest scheme!

"The governing board of the Commer-cial Club met last night to consider the upper river boat situation. The delicacy of proceeding with a second proposition while the first was still pending was fully realized by the board, but the necessity for proper section in providing transporfor prompt action in providing transpor-tation was also a condition that had its weight. The board understood that the amount required on the first proposition had not been secured and probably could not be secured, and that there was no apparent likelihood that the large boat could be put upon the river in season for this year's navigable water in any event. On the other hand they had the assurance that the smaller boat would be put in operation within 90 days or less, and as it was the common desire to get a boat on the river as speedily as possible and get the traffic started, the board decided encourage and assist the enterprise without detracting in any way from the first project. The proposition now is made by Captain McCullough and Engineer Dan Field, of the steamer Spokane, who cost not less than \$550, if they can obtain a loan of \$4000 from Lewiston citizens secured by mortgage on the property. A guaranteed maximum rate schedule accompanies the preposition and other prop-er safeguards are reserved to the trustees to incorporate in the final agreements. The board elected J. D. C. Theissen, Exra Daird and Matthew Scully to serve as grustees and to assist the principals in ring the necessary financial sup-

#### EAST SIDE LAUNCHES,

New Towboat and Portable Bath. house Put in Water Yesterday.

A towboat and a bathhouse were launched from East Side boatyards yes-terday morning, Joseph Supple sending into the water the first section of the new portable bathhouse which is expected to lessen the work of the Coroner and andertakers this Summer. The towboat which took her initial plunge was the Anchor Towing & Lightering Company's new steamer Paloma, which was launched from Johnston's yard near the Madison-street bridge. The Paloma was built to replace the Governor Newell in Captain Charles Hill's towing business, and is a very handsome little craft. Her dimen-sions are: Length, 102 feet; beam, 21 feet; depth of hold, \$1\frac{1}{2}\$ feet. She is equipped with engines from the Governor Newell and will be ready for business in about two weeks. The steamer was christened by Miss Constance Davis, daughter of C. R. Davis, who is interested with Captain Hill in the new steamer.

NEW YORK, May 17 .- With the inten-on of centralizing the terminals of all lines to be operated by the navigation syndicate, plans have been filed with the Gock department providing for 12 new plers, extending from Little West Twelfth street to West Twenty-third street, along North River. Should this improvement be agreed to it will cost the city at least

The new piers would be 830 feet long, and the plans specify a breadth of 125 feet. They will be 50 feet longer than those occupied by the two English com-

To Captain Muggah, Mount Pelce, in Martinique, and the Souffriere, of St. Vin-cent, were old acquaintances. More than once he had salled under their shadows,

and he had not the confidence in them that was displayed by the natives of the West Indian Islands. In his letter he said: "We are leaving here for Martinique in the morning, and I hope the old Roralma will do as well as she did on her last will do as well as she did on her last voyage. We have some passengers this trip, including the mate's family and others. I hope that they will get through all right. I heard a peculiar yarn from a priest not long ago about the forming of a lake on the summit of Mount Pelec, like the one formed in 1812 on Souffriere. Really, I have a creeping sensation when under the lee of the mighty crater."

Saw It From a Distance.

NEW YORK, May 17.—The British steamship Lord Antrim has arrived at Perth Amboy from St. Lucia, from which port she sailed on May 6. The officers said that on the day before the violent eruptions they passed close to Martinique, and saw that Mount Pelee was in eruption, and that smoke and flames were rising from it. Their coats were covered with dust, and when they tried to brush it off it smeared the clothing. The air had a peculiar taste, and there was a gassy odor. They attributed this to the erup-tions, but sailed on. This was 25 hours before the eruption that caused the catastrophe. Chief Officer Williams, comment-ing up the affair, after reading the

newspaper accounts, said:
"We were in range of Pelee all night, and on the morning which saw the grand outburst we could see the smoke high in the air. Of course, no one could realize clearly the situation, but it seems to me that every ship should have got away. It is past understanding why they remained that night."

Tug Loses Three Barges.

PORT TOWNSEND, May 17 .- A heavy westerly storm is ruging in the Straits of Puca. The tug Bonita, from Seattle, towing four barges, two loaded with machin-ery and cannery supplies for Fairbaven, and two with coal for Alaska, was caught in the storm. She lost three barges off Point Wilson and had a hard time of it reaching this place with the remaining barge, which was laden with coal. The machinery and supplies were valuable and belonged to the Alaska Packing Associa-

German Steamer Lost. ADEN, Arabia, May 17.-The German teamer Ehrenfels, belonging to the Hansa Line, of Bremen, was totally lost on May 9, in latitude 12 degrees north, longi-tude 56 degrees east, while bound to Hamburg from Calcutta. Part of the crew has been landed at this port. The cap-tain and 40 other persons who were on board of her left in small boats and noth-

Wellington in a Storm Willington returned to port today, having been in a storm off Cape Flattery

Columbia River Scencery—Regulator Line steamers, Dalles, Cascade Locks and return dally, except Sunday, from Oak-st. during which one of her crew was struck by a big sea, and had both legs broken After landing the injured man, the col-lier continued her trip to San Francisco. The German ship Ferdinand Fisher ar-

rived tonight from Hiogo, Volcanic Dust Beaches New York, NEW YORK. May 17 .- Close observers in this city believe the volcanic disturbance in the West Indies has reached here, It is particularly noticeable at sunset, when a blood-red tinge surrounds the sun Scientists declare, however, that the dust cannot be expected to be noticed to any extent before the end of this month.

Received by Tressurer Bliss. NEW YORK, May 17.—Cornelius N. Bliss, National treasurer of the West indies relief fund, said today the total so far received was \$73,307.

Sultan Contributes. CONSTANTINOPLE, May 17.—The Sultan of Turkey has contributed 20,000 francs to the Martinique relief fund.

Marine Notes.

The schooner John A. arrived up from Astoria about 10:30 yesterday morning, than one week.

Quite a number of steamboat excursions

of this programme, the unsatisfied but indefinite longings for a widening of affect appetite and surely affect spirits

"The laborer goes to his work filled with meat, potatoes and bread. At noon he finds cold meat and bread in his dinnerpall, and at night he is confronted by meat and potatoes, sometimes separate, sometimes combined into a greasy stew,

metimes chopped into hash, "This kind of thing fills him, but in finer sense it can hardly be said to feed him. Physicians have discovered that a limited and unchanging diet lowers vitality and health."

Such a time as this gives every one an opportunity to test the value of Grape-Nuts as a food and prove to themselves that it more than takes the place of meat and really furnishes more nourishment

feet. They will be 56 feet longer than those occupied by the two English companies.

Had a Presentiment.

NEW YORK, May 17.—In a letter written just before he started on his last voyage, which ended when his ship was destroyed in the roadstead off St. Fierre by the explosion of Mount Pelec, Captain G. T. Muggah indicated that he had a presentiment of iropending disaster. The presentiment of iropending disaster. The last was written to an old friend, the

MEAT QUESTION SETTLED.

Right Food-to Take Its Place.

"The shortness of the meat supply and the high price of steak is not an unmiltigated evil. On the contrary it is a probable blessing," says the Brooklyn Eagle.

"If meat could be raised to a voice that would make it prohibitory, it might still be of good result, because it would teach those who depend almost entirely upon it to widen their detary and learn to enjoy many good things of which they are now ignorant. To many, especially in the cities, there are but three foods—meat, potatoes and bread. The weary monotony of this programme, the unsatisfied but indefinite longings for a wide-ung of the large of the start of the large programme, the unsatisfied but indefinite longings for a wide-ung of the large of the large of the large of the large programme, the unsatisfied but indefinite longings for a wide-ung of the large of th

Dwelling Fired by Incendiaries. PENDLETON, May 17.-A fire of incen-diary origin about 12 o'clock last night destroyed the handsome new residence of destroyed the handsome new residence of Gus Byers, a son of W. S. Byers, on the corner of Court and Jeff Da-vis streets. The loss was about \$1500 with insurance for \$100 in the Citi-sens' Insurance Company, of Missouri, in favor of A. G. Haley, contractor. There was a further loss of about \$300 on car-penters' and plumbers' tools, which were not insured.

Amateur Wrestling Championship SPOKANE, May 17. - The champlor amateur lightweight wrestlers of Canada and the United States are to meet in this city next month, the arrangements for the match being in charge of the Spokane Amateur Athletic Club. Ernest Meanwell who holds the lightweight and feather

weight championships of Canada is already here. Max Wiley, who holds the lightweight and weiter-weight championships of the United States, has agreed to meet him in Spokane, under the club's auspices. The match will be for two falls in three. The exact date has not been selected, but it will probably be in the latter part of June.

Eugene Meet Postponed. The track team of the Portland High School did not go to Eugene yesterday for the scheduled meet with the Eugene High School. A telegram from Manager Dillard advised the local team not to start, as the recent rains have turned the Bangs Park track into a sea of mud. The meet will probably be pulled off later in the season.
