This arose over an amendment to the bill, which was presented by Mudd (Rep. Md.), and was adopted, prohibiting the use of Maclay's history in the Navy as a text book at the Naval Academy. A number of minor amendments to the bill were adopted, but the consideration of the measure was not completed before the House adjourned.

Mount Vernon would be little or nothing; if it were not for what was done by Rosecrans and his fellows; if it were not for what they did, then the work of Washington would have crumbled into blooded chaos, and the deeds of the founders of this Republic would be re-membered only because they had been another of the many failures of the spirit of liberty in this country. Without the work that you did the work of the men who fought to a successful close the Revolution would have meant nothing. To you it was given to do the great work which if left undone would have meant which if left indone would have mean that all cise done by our people would have counted for nothing.
