The giorious thing about the Chickering plane is that it stands in a class by itself, because of its magnificent tone; it occupies a position that is higher than that of any other plane because of its inherent musical worth. It is not merely 'one of the best' or 'a very good plane,' but it is the puperior of every other that has been manufactured. Do you think our praise is too strong? Then inquire of some musical work is capable of giving a truthful and unbiased opinion. Or, better still, come here and let over for yourself our stock of Chickering planes, and thus realize in the best possible way just what has made the Chickering name so rever-unt. It is outle true that the Chickering costs a little more than an ordi-
