

### H. N. WADE IS ACQUITTED

#### FOUND NOT GUILTY OF SELLING LIQUOR TO AN INDIAN.

According to His Testimony the Red Man Stole a Flask of Alcohol From His Pocket.

H. N. Wade was tried and acquitted in the United States District Court yesterday, on a charge of selling liquor to an Indian at McMinnville over two years ago. The charge specifically was that Wade gave an Indian a flask of alcohol, but his story was that the Indian took the flask from his (Wade's) pocket. One witness testified that he saw Wade hand the Indian the flask, while other witnesses said they were not positive, and the Indian might have taken the bottle from Wade's pocket. Wade testified that he was in McMinnville on county business, as he was a Road Supervisor, and that the Indians wanted to ride with him on the way home. Wade said he purchased some alcohol which his wife told him to get, and the Indian slyly removed it from an outside pocket, where he (Wade) had placed it.

#### DENY SALE OF STOCK.

#### L. H. Boyer and G. H. Van Houten Answer Suit of Sam H. Davis.

L. H. Boyer and G. H. Van Houten, in answer to the suit of Sam H. Davis to recover a share of \$30,000, alleged to have been received for the sale of stock in the Gold Point Mining Company, aver that the claim of Davis is utterly without foundation. Yesterday Davis filed a reply to the answer, reasserting the justice of his demand. The mine is in the Galena Creek district, near Elk City, Idaho. Davis in his complaint alleges that he owns 30,000 shares of stock, Van Houten 30,000 shares, and Boyer 30,000 shares, and that he put up \$500 as expense money, to be used by Boyer and Van Houten in going to New York City and making sales. Davis asserts that he is informed and believes that they sold the stock for \$30,000, and he wants his share of the money. Van Houten in his answer admits that he left in March, 1901, for New York City and other Eastern points to sell stock, but states that there was no agreement under which Davis is to have any interest in the profits. The trip Van Houten avers was a venture for the sale of Gold Point Mining Company stock, except that he took with him the stock held by Davis. Van Houten asserts that the trip was a failure, and Davis severed all connection with the scheme, and that he (Van Houten) paid out much more money than had been advanced by Davis. Van Houten alleges that he continued to act afterwards in his own interest, and does not admit that he sold stock to the amount of \$30,000. He says Davis has no claim whatever against him. Boyer has filed a similar answer. He also avers that he owns 30,750 shares of stock in the mine, and that this interferes with the sale of it and causes him loss and injury.

## USED PIANOS

### Not Yet Too Late to Get One at Almost Half Price.

If you think of purchasing a Piano and are willing to take one that may not be absolutely new, and yet look in every respect like new, you will be greatly interested in the collection of slightly used Uprights in our store just now. The variety is very large and the prices are exceptionally low. There were thirty-eight Uprights last Monday, of which about twenty-five were instruments that had been at rent for a few months. The rest were new Pianos by makers outside of our regular lines, and good Uprights that were taken in part payment of higher priced Pianos, and thoroughly overhauled before offering for sale.

Large numbers were sold each day last week, but quite a number were added to the stock each day, so that we have tomorrow almost as many as when we commenced. But when this lot is sold there will be no more.

The particular point we wish to make is that each of these IS as good as new. Each is guaranteed in precisely the same way as if it were new, and all are subject to EXCHANGE IF NOT SATISFACTORY after three or four months' use in your home.

The prices are exceptionally low. In practically every instance an instrument is priced at a third less than its actual value. We purposely make figures so exceptionally low in order to quickly dispose of this stock of slightly used Pianos that is constantly being augmented by other instruments coming back from rent. There are good Pianos at as low as \$150 and \$160 that are worth from \$225 to \$230, and there are some splendid instruments for which we ask \$250 and thereabouts that are splendid value for \$350 and \$375. The price in every instance makes each a genuine bargain.

Just now there are numerous Pianos even below \$100, seventeen Pianos ranging from \$135 to \$225, fourteen at prices between \$215 and \$300, and one that is priced \$305. Many celebrated makes are represented among this stock, such as Steck, \$160; A. B. Chase, \$185; Steinway, in good order, \$218; Fischer, large size, \$165; Erard, rosewood, \$95; Behr Brothers, \$155; Ivers & Pond, fancy mahogany case, \$165; Hardman, fancy walnut case, \$185; another, nearly new, \$215; Doll, fancy mahogany case, \$183; and in Square Pianos, fine Steck, \$75; Gilbert, \$40; Shomacker, \$98.

You can have almost any instrument in the whole collection on a payment of \$10 down when taken and a promise to pay from four to twelve dollars a month for the balance according to value.—EILERS PIANO HOUSE.
