mine disaster at Johnstown, Pa., were the affecting leavetakings of the dead, which commenced yesterday morning Catholic churches were filled with pic turceque throngs, who attended the last ice for the dead. Knots of women and men stood on the street corners weeping and greating. Many wemen who attended the last rites in the hurshes were overcome with grief and fell fainting to the floor. Most of the funerals today were in St. Stephen's Glovak Church, where both Sinvs and Poles worship. At the Greek Catholic Church and the Crostian Church, where mass was said over many of the dend, the streets surrounding the buildings were choked with great throngs clamoring for admir

JOHNSTOWN, Pm. July 12 .- The extent of the horrible catastrophe of the Bolling Mill mine, of the Cambria Steel Company, is now capable of being grasped. Early tonight, in spite of con-ficiling reports as to the number of dead. a careful and complete compliation by the Associated Press shows that 112 is the exact number of bodies taken from the mine. Up to 6 o'clock this evening, 108 bodies had been recovered, and at 8 o'clock four more were brought to the surface. To this list future explorations of the mine corridors may add a few. but it cannot be many. Almost all the employes who could have been in the mine at the time of the life-wrecking exof Thursday are accounted for, made to the authorities or to the mine officials, and this, better than anything else, demonstrates the impossibility of many bodies still remaining in the death trap. Mine officials say there is no use attempting to estimate the number of dead. They say simply they do not know, and arge the futility of placing the matter on the basis of guess work. They express the belief, however, that all, or almost all, are out of the mine.

General Superintendent Robinson came out about 8 o'clock this evening, after an ious day's exploration. He expressed his conviction that not more than five dead bodies would be added to the 112 already known.

After the consultation at the office, Evans went into the mine with Robinson and Moore. They did not emerge un-til late in the afternoon. The work they did while in the mine was to direct their attention to the damage wrought and more critically examine into the possi hiding places for more bodies. Pry about in the fourth right heading in the Klondike, State Inspector Evans came across rooms 19 and 30, distributed be-tween which were the three bodies which were brought out at 2:30 P. M. Evans was alone at the time. The bodies he found were in a bad state of decay. The search went on after the three brought out, and still continues.

The Morbidly Curious, All day thousands of men, women and children, drawn thither out of morbid curiosity, lingered about the low frame structures. Their appetite apparently could not be satisfied by the already vast horror. Hundreds stood in a baking sun nearly opposite on the other side of the Conemaugh River, where the cars came down from the mine entry. Most of these were interested in friends who were possible victims. Down below, a quarter of a mile, the streets of Conemaugh City were clogged with funeral corteges.

Three deaths occurred during the night at Cambria Hospital. These were among the last living victims who were brought out of the mine yesterday afternoon in an unconscious condition. Another of these is in a precarious condition.

Mine Superintendent George T. Robinson today said they would have the mine ready for work by Monday. He said there has not been the slightest danger from explosion since the original and only one Thursday. The mine, he admitted, especially the section known as "Klon-dike," always contained gas. It did not exist in dangerous quantities, he said, and to cause an explosion, some one must have violated the rules as to lights. Every precaution was taken to guard against

Superintendent Robinson commends the stown doctors for their bravery that saved the lives of a dozen or more men.
"When we made our first dash into the mine," he said, "we were taking our lives in our hands, as none knew what was beyond our course. The doctors came on, and followed our lead without the slightest tremer."

Dr. Frank Taylor, one of the rescuing party, who has made many trips into the mine, is positive that there are many more bodies in the mine, and that the list of dead will be greatly increased. A num-ber of rooms have not been entered, and ber of rooms have not been entered, and in these Dr. Taylor expects many bodies

It is stated positively tonight by John Retallick, who was the fire boss of the seventh district, and who was in the Klom-dike thine at the time of the accident, that the disaster was caused by hiasting setting off the firedamp. Mr. Retallick, who is at the Conemaugh Hospital, is im-proving rapidly, and hopes by the first of next week to be able to go hack into the mine and prove that his statement is cor-rect.

Friends of the dead miners and employes who lost their lives Thursday morning have been going over the list of dead with a view of learning the number of widows and fatheriess children here who will be made helpless by the catastrophe. According to the most reliable data, there are 56 widows and 185 children. Of this number. 5 widows and 18 children are living in the old country. Five of the widows are brides of a few months, and a widows and a children are survivors of American employes of the mine who are numbered among the dead.

#### ROOSEVELT AND TRACY.

National Guardsman Tells a Story of a Conversation at Oyster Bay.

OYSTER BAY, July 11.-Colonel Edward Emerson, of the Venezuelan Army, form-erly a member of the President's regiment of Rough Riders, accompanied by James Tracy and John A. Ryan, of the Second Battery of the New York National Guard, called upon the President this afternoon. They were attired in Rough Rider uni-

forms, Subsequently to their call, they told a remarkable story of the President's interest in the case of the outlaw Tracy in Washington State, who was reported as being the cousin of James Tracy. Secre-Cortelyou afterwards said that no conversation as reported had oc curred, and that the name of the outlaw Tracy had not been mentioned. By direction of the President, his official

yacht, the Mayflower, has been ordered from the Brooklyn navy-yard to Oyster Bay. No plans for the yacht, while here, have been made. It is likely that the President and his family may take a trip of a day or two in the yacht, but it is not certain that they will do even that.

#### TAX ON BANK PROFITS.

Internal Revenue Bureau Temporarily Suspends Collection.

WASHINGTON, July 12.—The Acting Commissioner of Internal Revenue has issued instructions suspending the collec-tion of taxes on undivided profits of National banks under the war revenue act. The banks fought the contention of the Government that undivided profits were part of the surplus of banks, and the Leather Manufacturers' Bank, of New York, brought suit against Collector Treat to prevent the collection of the tax. The Circuit Court decided in favor of the Government. Previously it had been the understanding that if the court sustained the Government, the tax would be col-lected. Now, however, the bank has appealed to the Supreme Court, and the Acting Commissioner today instructed Collector Treat to suspend collection un-til the return of Commissioner Yerks, when general instructions will be issued to all collectors.

Porto Rican Merchants Alarmed. SAN JUAN, Porto Rico, July 12.—The merchants here are alarmed at advices from France foreshadowing the possible imposition of a prohibitive tariff on Porto Rican coffee. The Chamber of Commerce has cabled to Washington urging that action be taken in the matter, as France is the only foreign market open to Porto Rican coffee growers.

WASHINGTON, July 12-Officials here express doubt that France would discriminate against Porto Rican coffee, as it would violate the favored-nation clause of the existing commercial treaty between the United States and France. The French Government, it is pointed out, is very anxious to have the reciprocity treaty be-tween the two countries ratified and this is tited by Administration officials here as another reason why the alleged proposed discrimination is unlikely.

PELS REARRANGEMENT.

LONDON, July 12.-The announ LONDON, July 12.—The announcement that the coronation of King Edward will probably occur between August 8 and 12 has caused a hasty rearrangement of plans in all directions. Visits to the country and to the Continent have been canceled and the season has been automatically lengthened to the middle of August. While on all sides there is deep tratification that the King is well enough gratification that the King is well enough to go through the ceremony, it is gen erally accompanied by an expression o feeling that it will be a relief when it is all over. Everything, except society func-tions, is still at a standstill. These continue to be exceptionally brilliant, and interest in them has never played such a

prominent part. At Buckingham Palace the following sullstin was posted at 10 A. M. today: "King Edward is making excellent progress. On account of His Majesty's satis-factory condition, bulletins will be issued on alternate days only. "TREEVES, LAKING, BARLOW."

## AT THE LONDON THEATERS.

Three Coquellus on One Stage-Season at an End.

LONDON, July 11.-The theatrical sea son has practically come to an end. The recent heat seriously affected the receipts. Several pieces which it was intended to run right on have been withdrawn. Beer bohm Tree's "Merry Wives of Windsor" is one of the few exceptions, and it will continued until the coronation, with Ellen Terry and Mrs. Kendall in the cast. The appearance this week of the three Coquelins on one stage reaped the success which the novel feature of the idea mer-ited. They confined themselves almost entirely to Mollere's plays, which were en-thusiastically received. The French plays at the Garrick will end July 26.

Churles Frohman has arranged for the production in America of an Elizabethan morality play, "Every Man," which has created a great deal of talk in Londob. The complete English company will go over, with Edith Mathleson in the title It will first appear at one of the halls in New York during the early Fall with the scenery used here. Mr. Frohman has also arranged to star Marie Tempest in London in her new play, and will take her to America later this year. Gucar Asche, who created the part of Meldonado in "Iris," will support Vir-ginia Harned when Mr. Frohman prog-duces "Iris" at the Criterion Theater. Asche will be permitted to go to New York by the courtesy of Mr. Tree.

#### SCHMIDT WRECKED THE BANK. Cause of the Collapse of the Leipsiger Institution.

BERLIN, July 12 .- The ruin of the Leipsiger Bank, that falled about a year ago for nearly 200,000,000 marks, was wrought for nearly 200,000,000 marks, was wrought by the fascinating personality of Adolph Schmidt, according to testimony given at the three weeks' trial of the bank's directors, now nearing an end. The Grain Drying Company, of Cassel, a concern exploiting on an enormous scale a process for drying beer dregs and cattle feed, persuaded the bank to advance during a number of years sums of money aggregating 90,000,000 marks. Every member of the supercutiv well-meaning board of dithe apparently well-meaning board of di-rectors, when examined before the jury, admitted that this colossal business mistake was indefensible upon sound com-mercial principles. Nevertheless, they consented because Schmidt made them believe in the amazing possibilities and profits of the process. Schmidt is de-scribed as having a quiet manner and simple way of expressing himself in or-nate language. He talks with a calm air of conviction, and seems to have believed completely in himself. He is now in jall,

## RUSTICATION OF CADETS.

Agitation on the Subject Gathers Influential Supporters. LONDON, July 12.—To the dismay of the Government, the agitation on the subject of "rustication" of the Sandhurst cadets, who were suspected by their su-periors of being concerned in the recent incendiary fires at the military college, daily gathers more influential supporters. Winston Spencer Churchill and Lord Hugh Cecil have now enlisted Lord Rose-bery, the Duke of Northumberland and hundreds of other prominent men, regard-less of party, in their endeavors to see that justice is done to the 29 "rusticated" cadets. The entire Ministry is in a dilemma, and Lord Roberts has lost more of his wanning popularity. Next week the question is to be the subject of a heated debate in the House of Commons. The underlying merive in the movement in behalf of the cadets is the universal desire to probe the War Office inefficiency and to make Sandhurst a fit place to train British soldiers, or, as it is frequently said here, to put it on a par with West Point, whose system, the army reformers declare, is without equal.

Herr Ballin's Reputation Increased. BERLIN, July 12.—The reputation in Germany of Albert Ballin, director-general of the Hamburg-American Line, bus been immensely increased by the alliance with J. P. Morgan. The marks of Emperor William's favor have brought him into social, and even political, prominence, One of the latest stories is that the Imperial Chancellor, Count von Bulow, when conversing with Emperor William about Herr Ballin, remarked, "There is stuff in him for a Minister."

The Emperor, tapping Count von Bulow on the arm, is said to have asked with a teasing smile, "Why not for a Chancel-

#### ARE NOT PROSELYTING. Acting Governor Wright Answers Charges Against Teachers.

WASHINGTON, July 11.-Secretary Root washingfon, july 12—secretary Root has addressed a letter to persons complaining that teachers in the Philippines have been proselyting and attempting to convert Catholics to the Protestant faith.

The letter ears:

"I beg to advise you that July 4, Vice-Governor Wright, Acting Governor of the Philippines, was requested to report by cable the facts bearing upon the charge that recently has been extensively circulated, that officials in the positions of the mables exchange the the theretaken. public school service in the Philippines have been used for proselyting purposes, and with special reference to an article that had just appeared in the Catholic

"The following dispetch has now been received from Mantla from Governor

Secretary of War, Washington-Refer ring to the telegram from your office of the 6th inst: The charges made by the Catholic Times are unfounded in every essential particular. It is untrue that nearly all American teachers are Protestant preachers and proselyters. The fact is, one division superintendent was a preach-er in the United States a short time; then he became a teacher. Possibly there are two or three similar instances among the teachers. Bryan, head of the Normal School, was never a clergyman and never occupied a pulpit here or anywhere. There now two American Catholic teachers in the school of instruction (Normal School), and five in the Manila city schools. The native teachers in the city, numbering 140, are all Catholics. It is un-true that the teachers of the Normal ols are proselyting and that school will graduate only Protestants. It is ex-ceptional that any graduate is other than

are about 34,000 native teachers in the islands, all of whom are Catholics. Teachers are selected without reference to religion, and are not allowed to preach or teach religion in school. There is no prejudice against Catholic teachers. "WRIGHT."

"It is the purpose of the Philippine gov-ernment to maintain in the archipeingo the same kind of free nonsectarian in-struction which exists in the United States, and which has proved to be for the interest of the Catholic religion and all religions. The government means, so far as it possibly can, to give education to the people of the islands, and it will do this without discrimination for or against any church or sect. It does not mean that any officer or teacher of the public school system shall use his position to build up or pull down any church what ever, whether Catholic or Protestant."

A Bismarck in the Tombs. NEW YORK, July 12 .- Locked up in the Tombs, charged with burglary in the third degree, is a young man who claims to be Karl von Bismarck, a grand-nephew of the great German Chancellor. He is charged with having entered a Flifty-ninth-street apartment and appropriating tapestries which are said to have been pawned. He says he came to the United States one year ago, intending to enlist in the United States Army, but could not enter the service. Then he got employ-ment earning a precarious living. Having lost his position, and being without funds and hungry, he was tempted, he said, to take the tapestries. Judge Newburger said if the story were true the young man was entitled to some consid-eration, and assigned counsel to investigate the case.

New Swimming Records. NEW YORK, July 12. - The Amateur Athletic Union swimming championships of 230 and 830 yards were decided today off Travers' Island, the country home of the New York Athletic Club. Both events were won by H. C. Schaeffer, of the Na-tional Swimming Association, of Philadelphia. In winning both events, Schaeffer established new American records as fol-lows: 119 yards, 1:19 2-5; 330 yards, 4:31 4-5; 550 yards, 8:21 2-5; 560 yards, yards, 41:51 3-5; 880 yards, 13:27 2-5.

# WILL FIGHT IT TO A FINISH 66 | AM FULLY AWARE

BOTH SIDES DETERMINED IN UNION PACIFIC STRIKE.

Prospect of an Early Settlement in Sight.

OMAHA, July 12.—At the end of the fifth week of the Union Pacific shapmen's strike there appears to be little bope for an immediate settlement. Both sides have shown themselves determined to fight to the end. The officials of the road today made a brief resume of the conditions. stating that & per cent of the satikers' places in this city are filled. The company is not hampered, according to the official statement, in the handling of motive power by reason of the strike. Strike leaders declare there has not been a sin gle defection from their ranks; that the new men at work are not generally skilled mechanics, and that a long fight is in prospect which will eventually force the company to their terms.

Opening Sidney Shops. SIDNEY, Neb., July 12.-The Union Pacific is preparing to reopen its shops and roundhouse here, which were closed a year ago. A large force of machinists and bollermakers have arrived and a large amount of machinery has been re-ceived for installment.

#### MITCHELL GOES WEST. Will Arrange for the National Convention of Miners.

WILKESBARRE, Pa., July 12.—President Mitchell, of the United Mineworkers, left today for Chicago. Monday he will address the longshoremen of Chicago, and Tuesday will go to Indianapolis, where he will arrange for the National convention of miners which convenes in that city Thursday.

Thursday.

Just as Mr. Mitchell stepped on the train, Rev. Father Curran handed him a bundle of papers. Since the strike began, Father Curran, on behalf of the minese, has taken an active part in trying to bring about a settlement. He was asked as to the character of the papers he gave President Mitchell, and replied their con-tents would not be known until the Indianapolis convention meets. He admit ted, however, that they were peace pro-posals and might prove very important in the deliberations of the National con-

until the return of President Mitchell. It is not likely that any of the large com-panies will attempt to resume mining perding the meeting of the convention.

Plans of Ambassador Reid. NEW YORK, July 12.-Whitelaw Reid, NEW YORK, July 12.—Whitelaw Reid, American Special Ambassador, and Mrs. Reid will pay a week-end visit to the Duke and Duchess of Mariborough at Blenheim, returning Monday for private engagements for several-days, says a Tribune dispatch from London. They will so to Liverpool Thursday, where the Lord and Lady Mayorese will hold a reception for them and where Mr. Reid will make a short speech at the banquet of the a short speech at the banquet of the American Chamber of Commerce. They will be in Scotland four or five days, vis-iting Andrew Carnegie. They will return to London for Lord Rosebery's dinner July 22 and are how expecting to sali on the 25th.

BERLIN, July 12.—The State's Attorney of Leipsic has appealed to a higher court against the acquittal at Leipset July 2 of Manager Lowenfelt, of the Schiller Theater, Berlin, and Eugene Deltrich, a pubhaber of Leipsic, on the charge of blas-phemy in circulating Count Tolstoi's let-ter on the holy synod. He explained that the prosecution was necessary to maintain the creed of the established church, for, though Tolstol's writings were moral and religious, it was plain that the letter was an attack on the Orthodox Church of Russia, which was an attack on the principles of the Church of Germany.

Strike at University Building. CHICAGO, July 12.-Two hundred men mployed on the six large buildings which are in process of construction at the University of Chicago, have gone out on strike at the command of the walking delegates of their respective unions. The grievance which the men have is the employment by the university of 100 non union colored steamfitters in the constru of an elaborate heating plant adjoining the campus. A number of col-ored students are said to have been imported from Southern industrial schools, and none could be induced to join the local union.

Great Northern Strike Settled. ST. PAUL, July 12.—Four hundred boil-ermakers and helpers on the Great Northern Rallway system, who went on strike higher wages some six weeks ago, il return to work Monday morning. The strike was settled at a conference between a committee of strikers and officials of the company which ended this afternoon There were concessions on both sides. Un der the new schedule, the men will re-ceive an advance of 25 cents per day over the scale in effect before the strike. The company agrees to reinstate all of the strikers in their old positions.

SPRINGFIELD, Ill., July 12.—The United Mineworkers of Illinois will not vote for a general strike at the National conven-tion at Indianapolis next week. Without the votes of the Illinois delegates, it is said, it will be impossible to call out the soft-coal men. The attitude of the Illi-nois miners was made evident today when the returns of the various districts of the state were received at general headquar-ters. Out of all the unions of the state, only one instructed its delegates to the National convention to vote for a strike.

Will Hold Their Coal. NEW YORK, July 12.-At a meeting of the coal operators yesterday, an agreement was reached that until the of the bituminous coal miners, to be held July 17, becomes known, the coal operators in the agreement will hold their present stock of coal, and that which they will receive next week, and not sell any in the open market. The operators may they are impelled to protect themselves because of the scarcity of soft coal in or near New York, which the consultation disclose

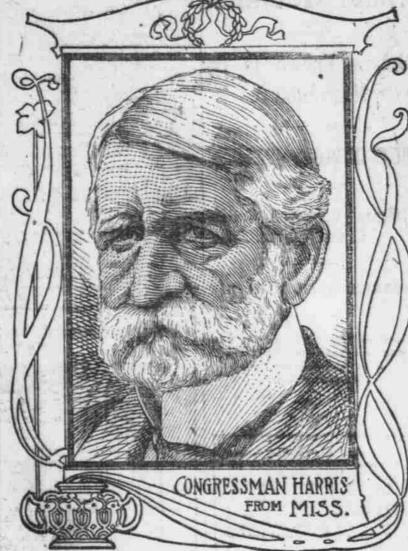

Boilermakers' Strike Settled. CHICAGO, July 12.- The strike of the 500 bollermakers on the entire Chicago & Northwestern Railroad system, which began July 1, has been settled. First-class bollegmakers were receiving 20 cents per hour before the strike, asked 35 cents, and now receive 35 cents; flangers were receiving 33 cents per hour, asked 20 per cent increase, and now receive 36 cents. Time and a half will be paid for Sundays. holidays and nightwork.

Santa Fe Shopmen Walk Out. CLEBURNE, Tex., July 12.—The Santa Fe officials put about 30 machinists at work in the places of those who are on strike, and at once the bollermakers, blacksmiths, sheet-metalworkers and painters and their helpers walked out. There are now about 50 men out. All trains now carry armed guards and the shops here and at Temple, Somerville and Beaumont are guarded.

You have chronic catarra, have you? You have had it some time? And could not find a cure? Well, there are thousands more like you in this country. If the slightest vestige of the catarrh remains over during the hot weather it will begin to make itself felt now. If you really want to get cured this is the way to do it: Get a beitle of Peruna and take a tablespoonful between each meal and at bed-time. When you have continued this for 20 days, sit down and write a letter to Dr. Hartman, Columbus, O. Tell him exactly your symptoms; how long you have had catarrh; what effect the medicine has had on you. He will answer your letter promptly, telling you what to do further. He will make no charge. And if you will certainly have been greatly benefited by sure to get cured. Some cases take longer than others. Perhaps the average length of time it takes to cure a genuine case of catarrh is three months. Some get cured much quicker than this, Stubborn cases may require longer treatment. Time or trouble ought to be no barrier to one afflicted with this dreadful disease. All people who are interested in know-

ing about catarrh can get an instructively illustrated 64-page book on chronic ca-tarrh in all stages and location, free of J. R. Allen, lock box 50, Florence, S. C., "Last Fall I went to my physician for

For a Pure Air Supply.

NEW YORK, July 12.- New terrors will be added to life in the interest of health, if the experiment on which John M. Woodbury, Commissioner of Street Cleaning, is engaged shall prove successful. By means of photography it is hoped the department will be able to analyze and ultimately regulate the condition of the atmosphere just as thoroughly and ben-eficially as is done at present with the water supply. Gelasin plates one foot square have been set up in different parts of the city and left exposed as traps for the atmosphere and all it contains. When a trap has been left long enough to have a reasonably large supply prey, it is removed to a laboratory, where It will be subjected to a microscopic ex-amination. Any germs that may be discovered will be cultured and then photo

Oleomargarine Tests. WASHINGTON, July 12-The Acting Commissioner of Internal Revenue has Issued instructions covering tests for coloring matter in oleomargarine. Detailed directions are given for making tests. The circular says:

"If a sample gives negative results by both tests for coloring matter, it may be safely concluded that it is free from artificial coloration. If it responds to either test, or if there is any doubt as to the results obtained, the sample should be forwarded to this office for analysis."
