DRESS PARADE

Guardsmen Make a Fine Appearance at Albany.

REVIEWED BY MAYOR WILLIAMS

Regulars From Vancouver Will Arrive Today-Orders Given for Breaking Up of the Camp on Tuesday.

The Alco Club, of Albany, lost night gave a reception in honor of the O. N. G., now in annual encampment in that Yesterday the troops were reviewed by Mayor Williams, of Port-2and, and the guardsmen made a fine appearance. Today Dr. E. P. Hill, of Portland, will hold religious exercises after the regular routine work of the

CAMP WILLIAMS, ALBANY, July 19 --(Special correspondence.)-A great improvement has been made by the troops here in their two days of drill work, and the dress parade this evening was excellent in every detail. The regular routine work was carried out during the day, and in the evening a large crowd witnessed the review when the brigade was in charge of General Beebe, and the troops were reviewed by Mayor Williams, of Portland. The dress parade was reviewed by Colonel Everett. The colors of the Third Regiment were used, and the Third Regiment band furnished excellent music. Owing to the hard work of drilling, the boys have not been in a very lively mood of evenings, and there has been little of the usual prank-playing and rule-breaking that generally characterize the week in

First Lieutenant H. E. Mitchell, of the Twenty-sixth battery field artillery, from Vancouver, arrived in camp today, and reported that the Vancouver troops were on the road between here and Salem, and that they expected to be here by tomorrow at 19 o'clock,

The social event of the encampment was a reception tendered the officers by the members of the Alco Club, Albany's leading social and commercial institution, to-night. The elegant rooms of the club were prettily decorated for the occasion, the appointments being of a tasty order, All the principal officers attending the ment were present, prominent them being General Beebe, who assisted in receiving, General Summers, General Gantenbein, Colonel Jackson, Colonel Spencer, Colonel Everett, Colonel Spencer, Colonel Everett, Colonia Spencer, Colonel Everett, Colonia Spencer, Colonel Spencer, Colonel Ellis and Captain Wins represented the club in receiving the large number of guests present, who were fortunate in the privilege of meeting the efficient corps of officers in charge of the encampment. The reception was of an informal charac ter, entirely of a social nature. Refresh-ments were served by the wives of the members of the club

A dance was given by the Albany peo of them showed evidence of a late night this morning as they reported for their work. Some had thrilling stories to tell about how they managed to get back into camp after the dance, and some four or five are in the guardhouse as the result of their conduct. How severe their sentence will be will not be known until after their trial is over. The two unfortunate ones that fired off the blank cartridges on their first day in cump have been sentenced to hard work for the remainder of the ensupment, and the officers do not feel breakers.

has issued the following orders for the breaking up of the camp on Tuesday, in-

stead of Thursday, as expected: In compliance with General Orders No. 15, C. S., A. G. O., dated July 17, this en-

component will terminate on Tuesday

July 22, instead of continuing until Thurs day, July 24, as heretofore ordered.

Unless ordered otherwise in the mean-time, the various subdivisions of the brig-ade will depart from Albany for their

home stations on Tuesday, July 12, as fol-

Event of the Day.

The event of the day was the review by Mayor Williams. A large and appreciative crowd had gathered to witness the drill, and did not hesitate to express its lation, as each order was well exe-

Mayor Williams arrived on the noon train from Portland, and was met at the train by General Beebe and escorted to the grounds, where he spent the afternoon looking over the camp.

At about 6 o'clock the brigade was

brought into the field under charge of General Beebe and formed into a line of masses, with the regiments @ paces apart, The distances were calculated with a re-markable accuracy, and it was a fine sight as the soldiers stood, precisely in their positions and every man on his met-tle to make his regiment show up at its best. General Beebe took his position 30 paces in front of the center of the line of Colonels, and Mayor Williams, review officer, approached within 20 paces. General Beebe then gave the orders, "Carry arms," and "Present arms," which were well executed by the brigade; then faced to the front and gave the salute. After the review officer returned the salute, General Beebe faced about and ordered, "Carry arms," "Order arms," and returned his sword and joined the review-

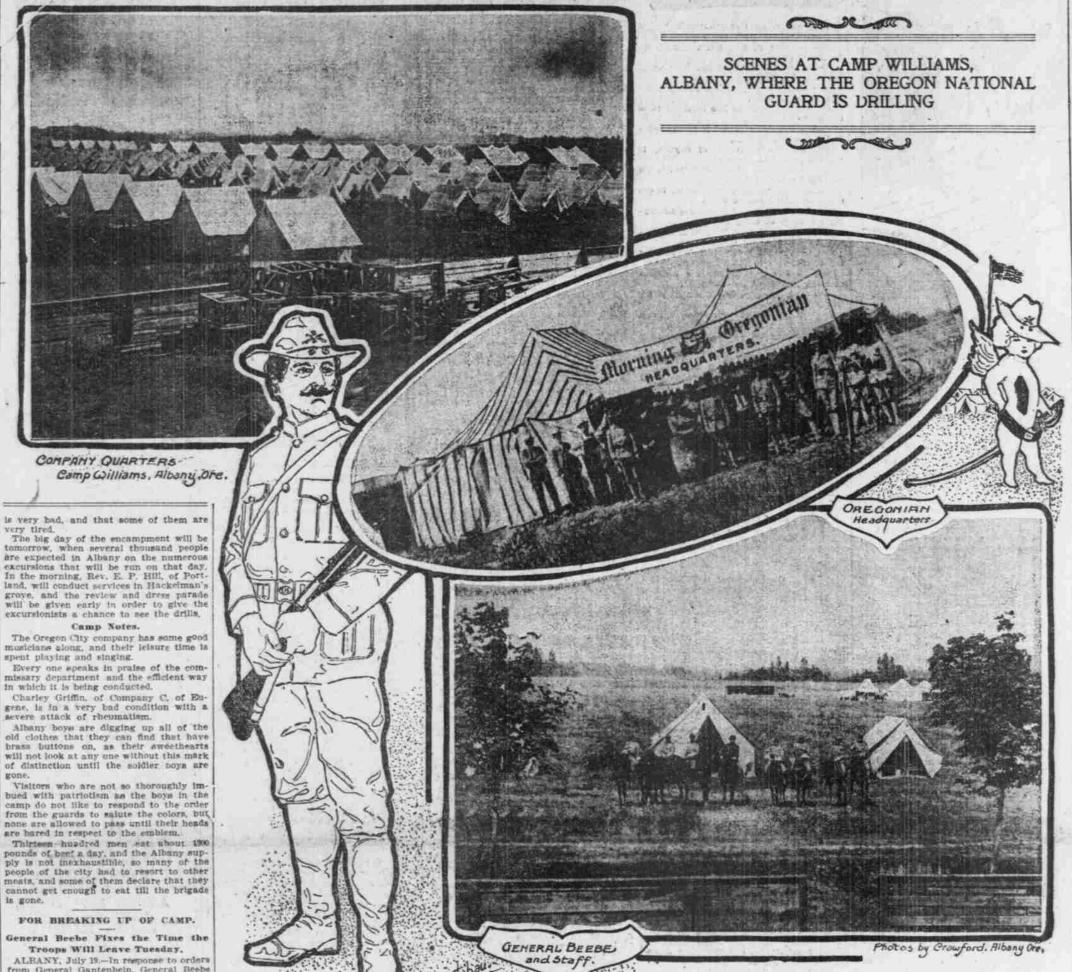

Mayor Williams, accompanied by his staff, and the brigade commander and his staff, then proceeded to the right of the brigade, passing in front of the Colonel of the first regiment to the right of the line; thence around the brigade, passing to the left in rear of the Majors, and to the right in rear of the file-closers, while the Colonels remained at their posts facing the front. As the reviewing officer left the right of the line, General Beebe re-turned to his post by a short cut, and gave the order, "Battallons," "Change direction by the left flank, march," and there was not a break in the line as the orders were executed. "Pass in review," "Take ful distance," "Gulde right, march," came the loud and clear, and the column moved off as in regimental review as the band struck up a lively air. The officers then took their positions, and as the last battallon passed the reviewing officer and the review was over, cheer after cheer went up for the boys and their efficient

Directly following the review was the dress parade, which was reviewed by Colo nel Everett. Music was furnished by the regimental band. The band has been doing much practicing, and the music was good. Colonel Everett has done hard work during the stay here, and his regiment

did itself proud in the parade.

The Vancouver company which will arrive temorrow, is composed of 124 men, 120 horses and mules, six guns, and three army wagons, and has been making 21 miles a day so far on its march. Lieuteman Mitchell carne about roles to tenant Mitchell came ahead today to pre-pare camp, and everything will be ready by tomorrow. He says that the men are having a pleasant trip, but that the dust

> Patten's Successful Corner Makes July Shorts Fearful That They Cannot Fill Their Orders-Closing S Cents Higher,

liced and left in every particular, and throughout its entire limit, in an abso-lutely cleanly and neat condition. All CHICAGO, July 19.-In a very excited session of the Board of Trade today, oats sold at 65 cents, the highest price here rubbish, etc., after tents have been struck, since 1874 for that cereal. The cause of the will be accumulated and disposed of as may hereafter be directed by the Brigade rocket flight, which was a gain of 16 Quartermaster. All troops in camp will participate in the necessary general work cents in three days, and of 7% cents to day, was the fear of "shorts" in July options that they might not be able to seof putting the encampment grounds in cure outs with which to fill their con-tracts. Eack of this cause lay that of out fields, yellow for the harvest, but devastated by the heavy rains of the last few. days. Yesterday trade in outs on command of Brigadier-General the local exchange was very much ex-cited. Today it almost reached a panic. From the first tap of the starting gong WASHINGTON, July 19,-An account has reached here of the details of an asterror filled the hearts of the bears in the

Reports during the latter end of June and early July indicated excellent harvests of oats. Shorts, who had been pinched a little early in July options, determined to hang out for a reaction when good weather arrived. Stocks of old oats became rapidly depleted under a constant good cash demand. Mayor James Pat-ten, of Evanston, had cornered May oats Appenzeller and Swearer, and all of the party suffered. The bishop's pith heimet saved his akull from a crushing blow. Appenzeller was struck down by a blow and had done so so successfully that there was no "corpse" of big cash supplies to bory. When the heavy rains continued, receipts of new standard oats which must be delivered on new July contracts were almost nil. Today only \$1 cars of all kinds of oats arrived, and only \$2 cars were of contract grade. Shorts bid for what little stuff there was offered. The bulls believed prices would go still higher, and chief of these bulls was Mayor Patten, who is supposed to have a tight hold on nearly 2,000,000 bushels of new July.

Most of this supply of short contracts was bought around 36 cents. The crowd figpunishment of the assailants. It does not appear that any racial feeling caused the ures that only profits are possible to the bull clique. July new opened 2%c higher than last night's close, at 60c. There was nome haggling for a short time, and then nome haggling for a short time, and then in jumps of 1 or 2 cents at a time the price bounded to 85c. Here and there longs liquidated for good profits, but the close was very strong and congested, 7%c gain for July for the day, at 68%c.

the offer of the citizens' committee of McKeesport, and will build its \$10,000,000 tube plant in that city. The site covers a total area of 15 blocks. This announce ment of the Steel Corporation is taken as an indication that the scheme to build a big tube plant at Conneaut has been abandoned. It is probable, however, that the proposed works at Loraine, O., will be built at a cost of about \$10,000,000, and that all of the tube plants of the big steel corporation will be concentrated at Mc-Keesport and Loraine.

AMERICAN PACIFIC CABLE Contract Let in London for Hono lulu-Manila Section.

LONDON, July 19.-The Commercial Pacific Cable Company signed a contract with the Telegraph Construction Com-pany in London this week for the manufacture and laying of its cable from Honolulu to Manila, touching at Guam. The construction company guaranteed to complete the cable by June, 1903, if furnished with the necessary soundings. In the event that these cannot be furnished the ompany agrees to finish the cable laying within such time thereafter as is neces-sary to take the soundings.

Having two steamers capable of carrying 9000 miles of cable, the company is able to complete within a year work which would take other contractors two years to do. The steamer Silverton, at Woolwich, is now loading the San Francisco-Honolulu cable, 2400 miles, and is expected to sail for San Francisco in August. Eighteen hundred miles of this section have already been manufactured and are being taken on board the Silver-

Why He Hanged Himself. CHICAGO, July 19.-In a room on the second floor of \$50 West Adams street, second floor of \$50 West Adams street, the body of a man was found last night in an advanced stage of decomposition. It had had lain there two days and a rope around the neck with one end tied to the knob of a closet door showed that the man had hanged himself by throwing the rope over the door. A note was found, addressed: "My brother, J. J. Wise, 269 Third street. Philadelphia."

On the back of a photograph of an attractive looking woman was written:
"You will find her (my wife) in Webbsville, Mass., with a man named Finch. and she will never prosper for what she The body was sent to the County

Robinson ate president of the Rock Island National Bank and Central Trust & Savings Bank of Rock Island, Ill., left part of his forune to Northwestern University in his will, which has just been probated, Mr. Robinson was a graduate and a trustee of Northwestern University. The estate left by him is estimated at \$1,000,000. Just what part of this sum the Northwestern will receive is not stated, but it probably will be about \$20,000.

The American University at Washing-ton, D. C., also is left a considerable

Many Conservatives Dissatisfied With Balfour.

THEY PREFER CHAMBERLAIN

Fear He Will Not Resist Emperor William's Efforts to Entangle Great Britain in an Alliance.

LONDON, July 19 .- Cabinet-making is the absorbing subject of discussion here. During the week the public was regaled with more or less shrewd prophecies, but no intimations were given out by the inner circle of the intentions of the Premier, A. J. Balfour, regarding the succesgors of the Ministers who have already resigned, or as to how far the changes in the Ministry may be expected to extend. It is undeniable that a very large sec

tion of the Conservatives and Liberal-Unionists are strongly disnatisfied with the Ministry as at present constituted, and it is increasingly apparent that in spite of all the Parliamentary eulogies of Mr. Balfour, many Unionists believe that a government of greater strength and capacity could have been established with Joseph Chamberlain, the Colonial Secretary, as leader. The opinion is freely ex-pressed on all sides by Unionists, as well as by Liberals, that the interests of the empire are now ac complicated that they are sorely in need of the oversight of a man of broader and more forceful powers. The appointment of Mr. Chamberiain to the Premiership would have been received with cold disfavor by the opposition, and would have been a red rag to the Anglo-phobes, but nevertheless there is a multitude of government supporters who would be glad to have him as chief, and the As-sociated Press is informed from sources of undoubted authenticity that Mr. Chamberlain's claim to the Premiership would have been recognized as being better than Mr. Balfour's had he not, whenever occasion presented itself, urged Mr. Balfour's succession against his own.

One important and strong point of the late administration which has not yet become generally known and appreciated, and which it is feared Mr. Bulfour will not fully inherit, was Lord Sallabury's persistent resistance to Emperor Willlam's efforts to entangle Great Britain in an alliance with Germany. These efforts have been made at intervals since 1895, and are likely to be renewed, now that Lord Salisbury has retired. The chief immediate cause of apprehen-

sion, however, is that Mr. Balfour will be unusual severity has caused considerable unwilling either to reduce radically the damage here and in this vicinity. It is size of the unwieldy Cabinet, now number-estimated there is 20 fatalities.

ing 19, or make sweeping changes in it Nowhere is its complete reconstruction more earnestly urged than among the Conservatives themselves, some of whom profess to fear that unless the Ministry is strengthened, its support in the House of Commons will rapidly dwindle,

King Leopold of Beigium, whose Alberta is lying in the Solent, visited King Edward today on the royal yacht Vic-toria and Albert and stayed half an hour with him. The latter's condition is said to be all that could be desired.

Official notice that the coronation will occur August 9 is followed by the revival of activity at the Earl Marshal's office and a recasting of the lists of spectators who will require a second issue of cards of admission. The officials are starting out with the intention of reducing the complex Abbey ceremonial to the sim-plest terms. Their plans, without doubt, will be enlarged upon day by day, as more favorable reports are received of the health of the King. Rehearsals for the procession have been resumed, and it is announced that the king's new landau will be substituted for the coach of George III.

To Rebuild the Campanile.

VENICE, July 19. - Glovanni P. Moro-sini, a descendant of an ancient family which has given Venice several Doges, and who is now a wealthy banker of New York City, has sent \$100,000 to help rebuild the campanile. The contribution has created great emotion. When Morosini left Venice he was poor.

The architect, Bonl, to whom, with a committee, has been given the work of reconstructing the campanile, has been entrusted also with the examination and care of all the other Venetian monuments. Signor Boni is a director of the excavations at the Roman Forum. The recovery of the decorations of the Sansovino loggetta is proceeding satisfactorily under Signor Boni's care. In addition to the bronze gates which were found intact. the whole front cornice, with three marble bus reliefs, was found practically undamaged, and the bronze Mercury was only slightly injured.

Among the bricks of which the cam-

parile was built have been found Roman bricks from Aquileia, the birthplace of the Venetians, evidently brought as relics of their old home. Portions of the tower have been hollowed and filled with rubbish.

America's Trade With the Cape. NEW YORK, July 19.—Further inquiries at Cape Town into the trade situation in South Africa tend to show that the increase of American trade is solely owing cables the London correspondent of the Tribune, to the war in freight rates from New York to South Africa. So far most of the increase is in produce and breadstuffs, American flour ousting Australian and Argentine. All complain of the conservatism of the British, who refuse con cessions, says the correspondent, which are cheerfully granted by plant and energetle Americans.

TO PEOPLE STATE

Immigration Agent McKinney Perfects Plans

TO SCATTER ADVERTISING

Corps of Trained Assistants Will Be Sent East-Oregon Towns Co-operate - Portland Will Hold Mass Meeting Tomorrow.

G. M. Mckinney, general immigration agent of the Harriman lines, returned to Portland yesterday from a trip up the Willamette Valley and in Southern Oregon. Monday evening he will solicit the co-operation of Portland in the immigration work of the Harriman system, at a meeting of citizens called by the Board of Trade

Mr. McKinney has been received at all places of the Northwest with much enthusiasm and with many expressions of ncouragement for the great work he is about to inaugurate. As Portland is the largest city in the Northwest division of the Harriman lines, it is expected to lend generous hand to the movement.

The cause of the great increase in the opulation of the State of Washington is the advertisement and colonization of the state by the railroads. The purpose of Mr. McKinney is to do the same for Oregon. Thousands of people in the Middle West hardly know of Oregon at all, Many of them will be better citizens when they are informed, for they will come to Oreon to live. Mr. McKinney has supreme direction of

the immigration work. He has appointed assistants who are thoroughly familiar with the details of the enterprise they are about to undertake. W. H. Burke will have headquarters at Indianapolis. His district will be Ohio, Indiana and part of Michigan. I. N. Conklin will have the South Wisconsin and Illinois district, with headquarters at Milwaukee. H. A. Tarrend formula of Salem Or will be Townsend formerly of Salem, Or., will be at Des Moines, in charge of the district comprising Iowa, part of Missouri and other near-by states. These men are now with Mr. McKinney, touring the North-west, acquainting themselves with its needs, its industries, its resources and its potential development. By this method they will become thoroughly conversant with their territory. Advertisement of the Northwest will be carried on in a general way, and homeseekers will have their own individual choice in selecting places for new abodes. The immigration bureau will simply put into the hands of home-scelers information about the whole Northwest country, leaving them to select districts which best please them.

Citizens and commercial bodies of the several cities will be relied upon to furnish a large part of this information. They are invited to send to the immigra-ton bureau printed matter descriptive of the resources and industries of the districts in which they are located. This will be distributed by the bureau where it will do the most possible good. Inas-much as this printed matter heretofore has much of it gone where it did the least possible good, citizens realize the great advantage to them of the enterprise un-dertaken by the Harriman system. All he leading cities which have ited have promised to furnish advertis-ing materials. These materials will be mostly in the form of booklets, about four by eight inches in size, containing from eight to 15 pages, replete with halftone illustrations. The number of copies

romised already numbers 2,000,000. Mr. McKinney is greatly pleased with his trip up the Willamette Valley. His party, which returned vesterday, included: C. Mackenzie, his first assistant, and W. H. Surke, I. N. Conklin and H. A. Townsend, who will have headquarters at the leading Eastern cities as named above. W. E. Coman, general freight and passenger agent of the Southern Pacific lines in Ore-gon; H. E. Lounsbury, traveling freight agent, and G. P. Jones, traveling passenger agent of the same lines; J. H. O'Neil, traveling passenger agent of the O. R. & N., and R. M. Hall, of the bureau of pub-

licity, of the same company,
Mr. McKinney will leave for Eastern
Oregon Tuesday. He and his party will
visit Hood River, The Dalles, Shanika,
La Grande, Baker City, Union, Sumpter and other places.

IOWA AT ST. LOUIS FAIR. Fifty Thousand Dollars for a State Building.

ST. LOUIS, July 19.-The members of the Iowa World's Fair Commission have decided to allot \$50,000 of the State's ap-propriation for the erection of a building at the world's fair. This will leave \$15,000 for making exhibits in the department buildings. The committee also decided to have in the building an exhibit room, where relies pertaining to the history of Iowa and the performances of its great men could be shown.

Work has been begun on the excavation for the gymnasium, which with the gigantic amplituation will be the control for at the world's fair. This will leave

ic amphitheater will be the center of the hysical culture exhibit of the exposition. The gymnasium will cost \$150,000 and

will have accommodations for 2700 people. Simultaneously with the erection of the gymnasium, the great amphitheater and athletic field, which will be used during the world's fair for athletic contests. Turner exhibitions and sports of all kinds will be carried to completion. Considerable work on the athletic field has been already done, but finishing touches, widch vill make it the greatest athletic or in the Western country, are to be put on within the next few days.

Government Salaries Will Be Paid. WASHINGTON, July 19 .- By direction rants covering the salaries of the Commis ioners of the Louisiana Purchase Exposition at St. Louis and the other Govern-ment employes will be lesued at once, Payment has been withheld two months pending the signing by the fair directors of the contract binding them to keep the exposition closed Sundays. The withheld warrants amount to \$8600.

Wants to Oust Council.

CLEVELAND, O., July 19.-Attorney-General Sheets began quo warranto proeedings in the Circuit Court today to oust the Cleveland City Council, and demanding that the members of that body show by what right they hold Judge Caldwell, of the Circuit granted an order restraining the Council from greating further franchises or speclai privileges until the case is heard and

Attorney-General Sheets holds that inasmuch as the Federal plan of municipal government has been declared unconsti-tutional by the State Supreme Court, the City Council is an illegal body.
