ENGLISH SOCIETY CELEBRATING THE KING'S CONVALESCENCE.

Ex-Premier Salisbury Gives a Brilliant Garden Party at Hatfield House-Other Foreign News.

LONDON, July 12.—The final official assurance that the coronation will be held three weeks hence has produced a feeling of relief that it is at least known when it will be over. The usual amiable public expressions anent the event are being mode, but it is doubtful if public interest

will continue keen.

The prolongation of the social season has made the Summer unusually gay, and has brought some profits to those who were losers on account of King Edward's Conspicuous among the entertalnments are a series of large week-end

parties at Blenheim.

The Prince and Princess of Wales and others have resumed the usual rounds of social engagements, but Queen Alexandra

has not attended any parties, Five special trains took 1000 distinguished persons to a garden party at Hatfield House, Hertfordshire, the seat of ex-Premier Salisbury, this afternoon. The guests included the Cabinet Ministers, Indian Princes, members of the diplomatic corps, including all the officials of the United States embassy, and a number of members of the House of Commons, No social event of coronation year has exceeded in brilliancy of scene and person-nel this garden party. Lady Gwendolin Cecil, daughter of Lord Salisbury, assisted the ex-Prime Minister to receive his 5000 guests. J. P. Morgan was among the prominent guests.

AN ERA OF PEACE.

Predicted by Balfour in First Speech as Premier.

LONDON, July 19 .- At the opening of a new Conservative Club at Fulham today, the Premier, A. J. Balfour, made his first extra-parliament speech as Premier. He said he believed that with the cessation of war in South Africa, a new era of friendly relations between Great Britain and the ntinental powers had set in and would

The views expressed on the Continent during the war regarding the British peo-ple and British troops had caused surprise and indignation, but the controversies were ended. He hoped they would never be renewed, and he believed that those who accused the country of wantonly at-tacking a free people would see in the future what British ideas of liberty, colonial self-government and purity of ad-ministration can do to amalgamate the races and make of South Africa what Great Britain has made of so many por-tions of the world.

Referring to Lord Salisbury, the Premier said he had left the country at peace with the whole world, and he (Mr. Balfour) believed they could look forward to ever-increasing good relations with Continental nations, and to a prolonged period of international good will. He trusted that the great family of civilized nations would be what it ought to be, a brotherhood with like interests and like aims.

Pension for Lady Pauncefote.

LONDON, July 19. - The announcement that the late Lord Pauncefote's family was left with practically no estate, save a small home seat in Gloucestershire, is expected to result in the granting of a larger pension to the widow than is ordi-narily given. There is no doubt that Lord Pauncefote's Ambasendorini career left his family several thousands of pounds poorer than would have been the case had he not been compelled to incur extra expenses.

Cholern Rages in Upper Egypt. ALEXANDRIA, Egypt, July 18. - It is officially announced that there have been 96 cases of cholera and 50 deaths from that disease at Moucha, near Asslot, the principal town and capital of Upper Egypt, near the Nile. It is further announced that 190 cases of cholera have occurred at Asslot during the last three days, and

Some physician should write a chapter on the medical ethics of the telephone. We would do it ourselves if we felt capable. There are two sides to the question. The patient sometimes gets the better of the doctor and saves a fee, but the oil had been poured on and a match ap-doctor sometimes gets the better of the piled. The blaze was extinguished before patient and saves himself a lot of trouble. The building was damaged. It is obvious in either case the patient should pay for it. But the question arises, what should he pay? Is it an office visit or a house visit? The advice is given in the office, but it is received in the house This is somewhat of a metaphysical quan-dary. Should a doctor charge an office fee for giving advice that goes straight to the patient's bedside? On the other hand, should a patient be obliged to pay s house fee for advice which a docto gives sitting comfortably in his office! The problem is full of difficulties. Per-
