### AFTER CHILD LABOR

American Federation Will Work for Its Abolition.

ACTION OF EXECUTIVE COUNCIL

Resolution Adopted Favoring Major. ity Rule as Best Menns for Introduction of Initiative and Referendum.

BAN FRANCISCO, July 26.-The execuof Labor, in session here, has adopted a resolution supporting any legislation having for its purpose the abolition of child labor in states where such laws do not now exist.

Another resolution declares the intention of the council to press the enactment of laws abolishing prison labor wherever it comes into competition with free labor. In the matter of the request of the In-ternational Association of Machinists, the Brotherhood of Blacksmiths and the Patternmiters' League for the revocation of the charter of the Amalgamated Society of Engineers, the council decided to notify the latter body that unless by October 1 it concedes full trade jurisdiction to the organizations named in the matter of trade disputes, such as increase of wages, threatened reductions or changes of trade enditions or rules, its charter would be

#### LEARN VALUE OF DESERT LAND. Productiveness of Tracts a Surprise to Immigration Agents.

BAKER CITY, July 26.—(Special.)— Baker City merchants and business men generally are greatly interested in the movement now on foot to increase the population of Oregon which has been in-augurated by the immigration bureau of the Harriman railroad system. G. M. Mc-Kinney, who was here yesterday with his corus of nesistants, was shown every corps of assistants, was shown every courtesy by the Chamber of Commerce committee in charge of the arrangements. committee in charge of the arrangements.

Messra. Parker and Breck, of the committee, were assisted in their effort to show
the railroad people the country and explain its possibilities by Secretary Levens, O. L. Miller, George W. Jett, County Assessor, and representatives of the bemocrat, Herald and Oregonian. In the party, besides Mr. McKinney, were C. MacKenzie, I. N. Conkilo, W. H. Burke, H. S. Crowe, Henry A. Townsend and R. N. Hall, all of whom are representatives of the railroad interests.

The drive was a long one, covering fully 30 miles of the most fertile portion of the Powder River Valley. The visitors were shown the raw, uncultivated land and be-side it the cultivated field; one a sagebrush waste and the other teeming with a bounteous crop of growing grain. Oats wheat, rye and bariey, raised by means of irrigation, were a revelation to most of the bureau people. Several fields of oats that experts estimate will yield not less than 100 bushels to the acre were visited An instance was cited where Messra, Pat terson and Eppinger, of this city, last Spring a year ago began to cultivate 200 acres of new land by clearing off the sage-brush and sowing it to oats, af-ter it had been plowed. The oats grew and thrived amazingly, and when harvested, threshed and sold, the net pro-ceeos, after paying all expenses of cultivation and harvesting, were \$1500, which the gentlemen thought was very well for the first season. This year they estimate that the same piece of ground will net

SENT BACK FOR NEW TRIAL. Case Which Involves Responsibility of Ralirond for Agent.

OLYMPIA, July 26.-(Special.)-The Suprome Court has reversed the Walla Walla case of Admirai N. Owen, appellant, vs. the Washington & Columbia River Rallroad Company, respondent. The appellant got off the deefndant company's train at Walla Walla late on the night of July 7, 1990. He alighted on the wrong side of the train, and in the darkness fell off a freight platform and shattered his knee cap. He sued for damages, but was de-feated in the lower court. The Supreme Court makes the reversal on the grounds of errors in the instruction of the court to the jury. One instruction by the lower court gave the inference that if the railcourt gave the interence that if the rair-roud company had delegated the duty of lighting the depot to another, the company was relieved of responsibility for the neglect to properly light the premises. The Supreme Court declares that the negligence of the agent becomes the negli-gence of the railroad company. Another error in instructions was to the effect that if a person knowingly gets off the train on the side opposite the depot platform he is guilty of contributory negligence in any accident that may arise. The Supreme Court holds that the jury should decide in each case as to whether

COLUMBIA CANNERIES MAY HAVE TO LIMIT BOATS.

One Plant Has Already Adopted This Rule, and a Regular Crush of

Fish Is Expected.

ASTORIA, July 28.—(Special.)—The re-celpts of fish by the canneries and cold-storage plants today blocked them, and there is every appearance that it is but the beginning of another large run. If the fish are caught tomorrow as today it is probable that the amount taken from each boat will be limited, which has already been done at McGowan's cannery. Every class of gear is catching the fiel, and the season is now as good as it has been for a number of years.
