in both indics' and CALCUTTA, Aug. 2-A mixed rallway train was detailed near Morut yesterday. Sixteen natives were killed and 30 natives Ines Barrett, Miss and Europeans were injured.

An Oregonian reporter saw Officer An-drew last night, and he spoke as follows: "Boggess was shot by me, and I'm sorry not noticed it. Certain matters of great interest in the past have now been defi-nitely eliminated. It is idle now to discuss the wisdom or the unwisdom of our acceptance of Spain's cession of sov-ereignty over the archipelago. The fact of our sovereignty is indisputably es-tablished both by the force of treaty and the force of arms. I was one of those who advocated leaving the archipelago in the enfeebled grasp of Spain; but the American people who made war on Spain for the emancipation of Cuba would not consent-so President McKinley felt-to leave the Filipinos at the close of the war victims of the same oppression. Sentiment and enthusiasm were reinforced by jingolam, by optimism, and by plenteous ignorance. But what boots it to pursue the matter farther? Whether by will or not the Philippines are ours. The destiny of the Filipinos is in our hands, and great as our responsibility may be to humanity and to Providence, our rovereignty itself is absolutely unimpeachable. So, too, we have no further concern with the govwe ernment set up by Aguinaldo, nor with Aguinaldo himself. Both are issues of the past. Men may dispute whether that government represented the inhabitants of the Philippines or not. It certainly did not represent the Moros and heathen of the Southern Islands, and, so far as I could make out in 1889, it did not repre-sent the majority of the Christian inhahitants of Luzon and the Visayas. The Christian Filipinos have undoubtedly been drawn together by three years of fighting against the white man. But that fighting has gone on independently of Aguinaldo's Philippine Republic,

whose brief existence was entirely em-braced within the year 1899. And, at that period, as I have said, it appeared to be less a national than a local organization.

Army Discipline,

"There is another issue also which now happily belongs to the past. During the Spring and early Summer the newspapers abounded in reports of atrocities committed by American officers and soldiers in the Philippines. History shows that whenever the white race, and especially the Anglo-Saxon branch of it, comes into conflict with a colored race, its bearing is apt to be arrogant and contemptuous and it seldom fails to repay the barbari-ties practiced by the enemy with fero-clous cruelty. This tendency inherent in the blood was fostered by the hard-ships of the Philippine campaign, the intolsrable climate, the elusive tactics

are the latest of the wage-earners of Chi and the atroclous practice of some of the insurgents. The American Army as a ago to go on a strike, and as a result whole clung to its ancient discipline and Concordia cemetery is closed, and at the entrance to the burni grounds the super-intendent has posted a notice which reads; "There will be no more burials at the maintained its untarnished honor; but here and there an officer or a private succumbed. The satural and proper course for all good citizens under the circumstances was to insist that the guilty be punished and the good name of Concordia cemetery until further notice." The 25 gravediggers employed at the cemetery are on strike for higher wages and have succeeded in preventing other laborers from taking their places. Three the Army and of the Nation vindicated thereby. Unhappily, the matter was disfuneral processions which arrived at the cemetery gates yesterday were turned back because of the strike. It is stated cussed with the heat and rancor of partisan politics, and for a time it threat-ened to be an issue, if not the issue, in the next Congressional elections. But that similar strikes w President Roosevelt as Commander-in- two other cemeteries. that similar strikes will be

Even those who favor independent cannot raise the question till that native Legislative Assembly has voiced the sentiments of the Flipinos on the subject and also demonstrated by wise and pru-dent use of the legislative powers it enjoys that it is fit to receive a larger grant of home rule.

Consent of the Governed.

"We have planted government with the consent of the governed in Asia. The Philippines are thus not a colony, but an incipient sister commonwealth. The colonizing nations of Europe pooh-pooh our experiment. Heaven grant it may be a case of liberty enlightening the world! Certainly the grain of mustard seed will grow. Certainly the Filipinos in time insist that the principle of that the government is not consider at constant of the governed receive a passing a symmetrical bill and, therefore, will in time insist that the principle of the broader and fuller application. But I re-peat that their destiny is now in their own hands. Their friends in America can do nothing but support their ef-forts. The Filipinos may, however, take confidence from the fact that the promise and potency of every political good is contained in that principle of the con-sent of the governed which hus, germi-mally, at least, been extended to them. "Meantime, and till after the inaugura-
