

# PAINLESS DENTISTRY A SUCCESS

That the people appreciate painless methods, considerate treatment and moderate charges in connection with dental work, has been proven by our wonderful success since we began to tell the public of our system. The portraits show the force of operators that are required at the present time to handle the business we have built up. They are all thoroughly competent and reliable. A written guarantee, backed by the reputation of fifteen years' established practice in Portland, is given with all work.

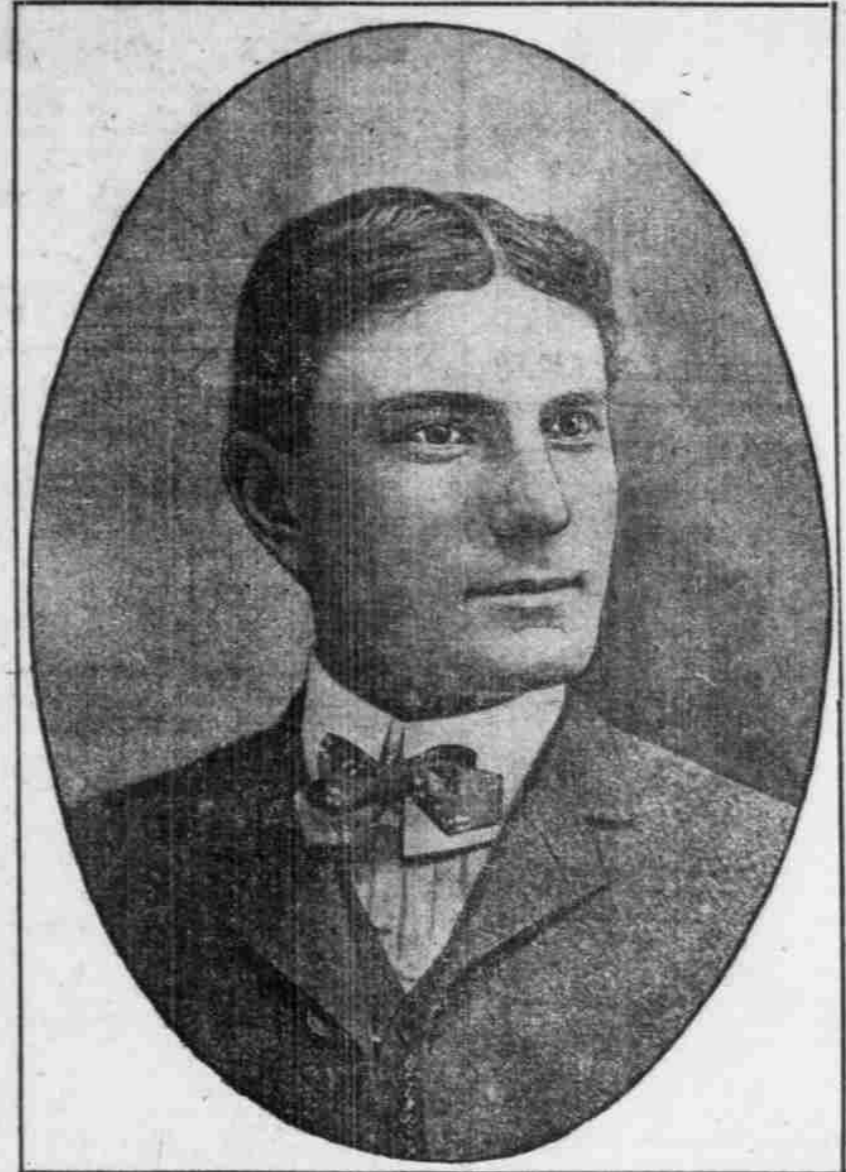

**DR. W. A. WISE**  
Manager, is a non-graduate; has taken the practitioners' course in the American College of Dental Surgery, in Chicago, Ill. Has had 15 years' experience. He is at present a member of the State Board of Dental Examiners of Oregon.

## PLATE TROUBLE

Plate trouble is a common thing, and there are various kinds of it. Many plates never were right. Others are properly made, but the mouth is not placed in proper condition for the wearing of plates. The membranes become tender, red and inflamed. The gums become swollen and the plate is uncomfortable. Sometimes a little shaping, or a little grinding, or polishing, is sufficient. Occasionally a plate is so utterly wrong as to be worthless. If your plates are in any way unsatisfactory, we will be glad to make an examination and tell you the cause of the trouble.

Our flexible rubber plates have been found to give perfect satisfaction where persons had worn a number of plates of different makes with constant annoyance and positive discomfort. We guarantee our flexible rubber plate to give satisfaction.

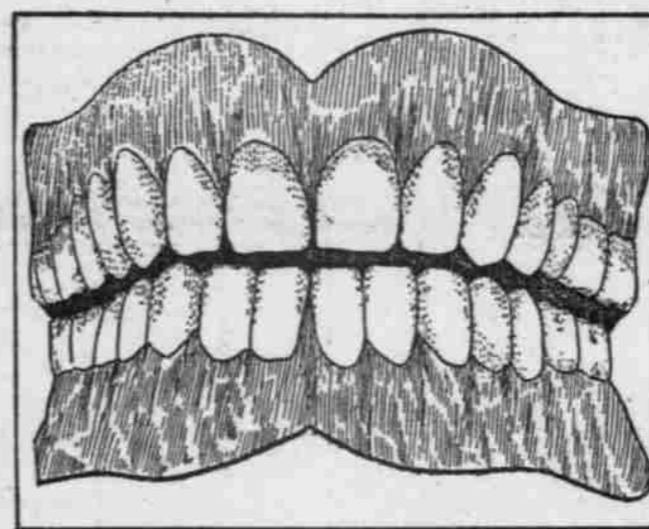

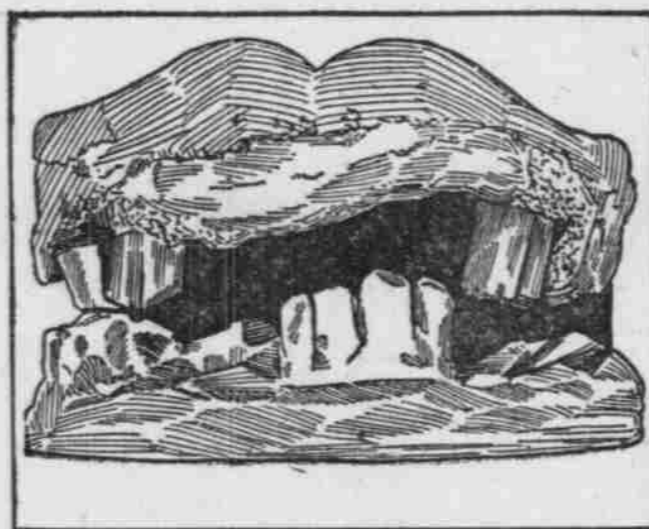

**DR. T. F. WISE**  
Has had seven years of actual practice in dentistry. He is a graduate from the Dental Department of the Northwestern University, of Chicago, Ill., one of the very best schools in dentistry in the world.

# PERFECT CROWNS AND BRIDGES

**DR. H. E. BARRETT**  
Is a graduate of the North Pacific College of Dental Medicine. Has had six years' experience in dentistry. Is a good, careful, all-round operator.

We take especial pride in building crowns and bridges, and guarantee a perfect piece of workmanship in each case. You will be surprised when you learn how low we make the cost. The illustrations represent a practical case. The first picture shows the mouth before it was bridged; the second shows the work completed. This is only a sample of the artistic work in this specialty that we are performing every day.

**DR. C. E. HUTCHINSON**  
Has had 13 years' experience in all branches of dentistry. He is licensed to practice in Massachusetts and Maine. He is neat and clean about his work, and is an operator of ability.

**DR. H. H. KASER**  
Is a graduate of the Dental Department of the Northwestern University, of Chicago, Ill. He is very careful, conscientious and considerate of patients' feelings. Has had four years' experience.

## Fifteen Years' Established Practice in Portland.....

Do you know that the longer you delay visiting a dentist, the worse your teeth decay? Tooth troubles are universally progressive, and prompt attention to decaying teeth often saves expense. Often if a tooth is neglected, it may become so diseased that extraction must be resorted to. This is unfortunate, especially if it be a front tooth. We have a variety of methods of extracting teeth, and each one is guaranteed to be positively and absolutely painless. Patients are allowed to express a preference. Our Vapor method is generally preferred.

**MR. H. A. HOFFMAN**  
Is the mechanical and laboratory assistant. He keeps the electric engines and lathes and all instruments about our office in good running order. He does no operating.

## "Ha! Ha! Ha! It Didn't Hurt a Bit"

Is a common expression of patients whom we have just operated on. We never extract a tooth that can be saved.

Our electrical instruments and appliances throughout are the most advanced known to the dental science.

No Dental Students Employed in any Capacity....

**DR. J. H. MILLER**  
Is a graduate of Haskell's School of Prosthetic Dentistry, of Chicago, Ill. Has had nine years of practice. He is a specialist in gold filling and in treating teeth.

**MISS LAURA KRAEFT**  
Lady attendant and interpreter. Speaks English, German and Spanish.
