Strike in Wyoming EVANSTON, Wyo., Aug. 16 .- The Jacger Oil Company struck a good flow of petro-leum in section 12, near Spring Valley, this afternon. The drill had been working in hard sandstone all day, when sud-denly it broke through, and a good flow of oil, accompanied by gas, followed. The escaping gas can be heard several hundred feet from the well. An attempt will be made to case through this first sand, in an attempt to reach the third sand, from which source a better flow is expected.

serious situation in the anthracite fields. Mr. Gompers prefaced his remarks by saying that the average mind looks con-

"The newspapers, without any attempt on my part to charge them, with unfair-ness, usually present the inkor question from the standpoint of the employer," said hn. "They either get their informa-tion from employers or their information from employers, or their represent-atives. It is the same old story, the men and women, the representatives of labor, who suffer from the same old wrong. There is no short cut to emancipation." There is no short cut to emancipation." Mr. Gompers declared that the labor of

section

clared the decision of the company to offer 315 a week out of order, on the ground that no general vole was taken on it. After a long discussion it was de-cided to stand by the original offer of 515 method for a stand by the Centrists who defeated the appropriathe out of ploye at the ministry for not supporting Dr. von Tandadmann, the Minister of Education, in appointing Pro-fessor Chroust to a chair of Wurzenburg University. The faculty objected to the

professor, alleging that he was a Czech. This was purely a Bavarian question, but it instantly became an imperial one through the Kalser's telegram, every newspaper in the empire taking sides and

filling its educational page with its con-

stitutional views, those in opposition aver-ring that His Majesty's act was only one

of a series of steps tending to increase the

prerogatives of the Emperor beyond the limits fixed by the constitution, asserting

that the constitution is merely what the

country permits the chief executive to in-terpret and apply and saying that the im-

perial ministry is weak in not withstand-

ing the encroachments of the crown, Certainly more than half the country shares the Emperor's sentiments, but

of His Majesty's defenders

that his public expressions were injudic-

tous. Others affirm that a great deal is being made out of nothing, that Emperor

William's telegram was merely a personal

expression of what he regarded as being a slight to a brother monarch, and say

quired was simply an active expression o

Mr. Dosch emphasized the fact that a great deal of diplomatic work has to be done, but he is confident of success, "I am acquainted with the Minister of Ag-riculture," he continued, "having met him at the Omaha Exposition I also met the representatives of Japan at Buffalo guite frequently, and this will give me a very desirable prestige. So far as the ultimate object of my mission is concerned, 1 am convinced that we can furnish Japan with thousands of dollars' worth of goods at great advantage to ourselves. Marquis Ito told me, 'We want to have an Oregon exhibit for the reason that we wish to deal specifically with Oregon.' For this reason I must visit four or five of the principal cities of Japan, in order that I may see what market there is for Oregon products. There is no use in trying to make an exhibit of things that we cannot offer in competition with other pinces. I shall go into the streets and see what cy sell in the stores, and make my own usions as to what should compose Cther Const the bulk of our exhibit. citles are making great efforts toward representation at the Osaka Exposition and Portland must not be behied. It is largely a question of education in this day. People don't take things for granted now. We had to educate Eastern peo-ple to eating prunes before we found a market there, and the same must be done for our products in Japan. The Sapanese are the shrewdest buyers and sellers in the world. If they pay 1 cent for prunes and can sell for 50 cents, they have no compunctions whatever. I am going to find out on what things there is a margin, and try to get part of that margin for our own state.

Mr. Dosch is confident that the condions are very favorable. He said that he expected concessions in the way of free ace, and so forth, that would be very vantageous. He will probably go to space, and so forth, that would be tell advantageous. He will probably go to Japan by the Canadian line, as the O. R. & N. steamer goes too late. "I should of course, patronize our own lice." Mr. Dosch explained, "were it not that there is need of haste. I shall be gone two months. My intention is to have our ex-months. My intention is to have our exhibit installed by March L 1993. To do this will mean hard work, but I am determined that Oregon shall be represented, and represented in the best way. This will be in no sense a pleasure trip. I am a com-mercial man, and my whole time and en. ergy will be given along commercial

TEN THOUSAND CREDITORS

Failure of the Elgin Creamey Com pany-Receiver Appointed.

CHICAGO, Aug. 16 .- The Elgin Creamery Company, which operates 115 creameries throughout lilinois, Iowa and Wisconsin, failed today. Hermit Was Heir to a Fortune.

FLORENCE, Colo., Aug. 15.-The under-taker who had charge of the funeral of Thomas Whaley, who died recently in a "dug-out" near Williamaburg, two miles from Florence, where he had lived for 20 years as a hermit, has discovered that Whnley was the heir to a wast fortune in England. On account of a love affair, Whaley left his home in Northwest Dur ham 20 years ago, and since that time his sister, Mrs. R. Wilson, of Annesfield, Dur-ham County, England, has made constant though fruitless efforts to find him. Re-marks dropped shortly before his death led to the discovery of his antecedents.

Tornadoes in Kentucky.

CINCINNATI, O., Aug. 16.-Terrific storms occurred last night in different parts of Kentucky. Fulton and Cayce report tornadoes doing much damage in those localities. At Pineville, William Goforth and A. Renfrow were killed by

contact with live wires that had be blown down. Three others were badly

evil that needs reformation. Many states, particularly in the South, have no law whatever to prevent the practice. "Men get rich," he declared, "from the labor of children whose bones are ground into the almighty dollar. It is a sad commen-tary. Men walk the streets in idleness in the textile districts, while the mills are filled with busy children. Instead of labor being crowned with honor and dignity, it is a question, of how much labor can be squeezed out of the laborer, and how little wages he can be forced to accept in return.

Mr. Gompers discussed the question of shorter hours at length, declaring the countries of long hours were decidedly backward, and denied the allegation that the movement to shorten hours would mean the decadence of the United States a great producing power. He declared that there was no greater conservator of the peace than the labor organization. "One hundred and fifty thousand men' in the anthracite field have been engaged in

a silent struggle for three months, and there has been less violence than is committed at a picnic of ordinary people upon ordinary occasions. The men strug-gitng today had been reduced to a state of serfdom, but in the past three years have been recast and their character re-modeled. Their manhood is aroused, and I believe, as God is my judge, the worst the miners have had to confront is past." (Great applause.)

Mr. Gompers declared that lawyer was competent to discuss the industrial iestion. "The lawyer lives in and studquestion. Duryca would resume operations today, but none of the employes reported for les the past," he declared. "While hig faced, physically formed, he is mentally in the dark ages."

This observation was brought out by the alleged remark of a Mr. Ross, a legal representative of the Delaware, Lackwanna & Western Railroad, recently, that there can be no arbitration; that the miners must first return to work, and then the companies will discuss with them. "We demand the right to be heard by counsel," declared the speaker. "Just agine the miner being forced back to work with all grievances he may had squeezed or starved out of him." Mr pers predicted the success of the anthracite strike.

the signing of the scale by the Mer-chants' Coal Company, of Tunnelton, it is thought that the miners' strike in this

district has come to an end. The miners gained all they asked for. INDIANAPOLIS, Ind., Aug. 16 .- "The strike in the anthracite region is as firm as the everlasting hills. Confidence and quict reigns supreme."

Dr. Gunsaulus May Stay in London. Such is "the strike synopsis" of the situation in the anthracits field as pub-lished in this week's issue of the Mine-NEW YORK, Aug. 16.-The report that Dr. Gunsaulus, of Chicago, will succeed Dr. Parker at the City Temple is premature, says the London correspondent of the Tribune, but consultations have been held during the week, and he can evidentthe managers declare that the strikers are more determined than when the iy stay in London if he wishes to give up his complete work in America. Dusseldorf. Herr Erhardt has a branch at Eslenach. He sold to the British Government several hundred pieces after ex-perience in South Africa had dmonstrat-ed the inferiority of the British artillery. The gun which the United States has a uired the rights to use is understood to an improvement on the model supplied to Great Britain, being lighter and of

onger range. The United States ordnance officers have long complained that their field gun was less effective than the French and Ger-man guns. The United States Ordnance Depirtment learned some time ago that the Krupps had a new light model, and they were invited to exhibit the piece to the United States ordnance experts, but the Krupps declined, giving as their rea-son that if they demonstrated that they had the best piece in the world, there was no certainty that the United States would take it. Herr Krupp recently made a gun exactly the same bore as a certain best American type, but considerably lighter, and tested it a few days ago,

throwing shrapnel effectively 6000 yards, against the American gun's 200 yards. Herr Erhardt established five years ago

a branch at Pittsburg, Pn., for the man-ufacture of cartridges and shells, but being unprofitable, it was closed and he brought the machinery back to Germany Captain Borup is remembered among foreign ordnance officers as formerly attached to the Paris embassy of the United States, and as having been recalled on an intimation of the French Government that such a step would be desirable, this being due to his unusual success in pene-

trating military secrets. Emperor William, as a subscriber to 100 tickets in a lottery of the Friends of Art Society at \$3 75 each, has been a continuous winner of prizes and an explanation is printed in the newspapers because of the frequency of His Majesty's name appearing as a winner on the lottery list of the society. It is pointed out that the Emperor buys one-tenth of all the tickets and that the proceeds are devoted to the purchase of art works for public gal-

leries. -
