Black Dress Goods

New and rare products of the loom are being added to our Dress-Goods Department daily.

Among the latest additions to our black goods department are the new striped grenadines and etamines. These are very handsome. Priestley's new "Crispines" and "Caritas" are also exceedingly attractive

Something that will appeal to a practical mind are the real Mohair Granites. This is a beautiful material, wears well, and is impervious to dirt and damp.

There is also a large line of Priestley's shrunk cravenetted Venetians, Soliels and Cheviots, handsome new Hopsackings and other heavy skirtings. We have very pretty Persian velveteens for Waists at 85c per yard.

Colored Dress Goods

Among the new colored Fall dress goods we are now showing complete lines of French crepe and new weaves and shades in voiles and etamines. Silk-stripe crepe will be much worn for dressy separate waists this season. All the new colorings in this material have just been received by us.

Priestley's goods in pin-head checks, stripes and mixtures come in a most exquisite blending of harmonious colors—such as browns, greens and grays. These Priestley goods have all been subjected to the "cravenette" process, which makes them especially desirable for stormy weather.
